Plaintiffs, individually and on behalf of all others similarly situated, as more fully described below (the “Class” and “Class Members”) file this Second Consolidated Amended Class Action Complaint against Defendant Apple Inc. (“Defendant” or “Apple”), and allege the following based upon information and belief, unless otherwise expressly stated as based upon personal knowledge.

I. INTRODUCTION

1. Last year, Apple launched its new series 16 iPhone. As is now widely known, Apple falsely represented what the iPhone 16 could do, in an effort to reverse its trend of declining iPhone sales and capitalize on consumer excitement for truly innovative and advanced AI features. Apple promoted AI capabilities that did not exist at the time, do not exist now, and will not exist for two or more years, if ever, all while marketing them as the breakthrough innovation of the iPhone 16. This class action arises from that widespread deception, which violated multiple false advertising, unfair competition, and consumer protection laws.

2. Apple is one of the most profitable technology companies in history. It built its reputation on innovation, most notably through its most successful invention, the iPhone. But in recent years, critics have increasingly questioned whether Apple has lost its edge¹. As Forbes noted in 2019, “Apple’s woes go far beyond their ability to sell their flagship smartphones. The company’s challenges surround one simple fact: Apple is not innovative anymore across any category.”²

¹ See, e.g., Jefferson Graham, *iPhone 6S’s nice features are far from revolutionary*, USA TODAY (Sep. 9, 2015), <https://www.usatoday.com/story/tech/2015/09/09/new-iphone-6s---first-impressions/71941978/> (describing the lackluster iPhone 6S and lamenting that “for those who want to get excited, see you next September for the iPhone 7. Here’s a newsflash: it will be re-designed, and described as the “most advanced,” “best” and “revolutionary” iPhone ever.”); see also *Is the iPhone 7, innovation for innovation’s sake?* MEDIUM (Sep. 7, 2016), <https://medium.com/the-unprofessionals/is-apple-creating-artificial-low-hanging-fruit-83a138f81c15> (opining with the release of the iPhone 7 in September 2016 that “Cupertino has been pushed into a corner, iPhone sales have stagnated, it clearly needs to innovate again and it seems that all the low hanging fruit have already been picked.”); *Apple shows its steepest quarterly decline in iPhone sales since pandemic’s outset*, NPR (May 3, 2024), <https://www.npr.org/2024/05/03/1248865513/apple-quarterly-decline-iphone-sales> (noting investors’ concerns that Apple is “losing its edge as other tech giants such as Microsoft and Google sprint out to the early lead in artificial intelligence technology[.]”).

² Greg Petro, *At its Core, Apple Is No Longer Innovative*, FORBES (Jun. 7, 2019), <https://www.forbes.com/sites/gregpetro/2019/06/07/at-its-core-apple-is-no-longer-innovative/> (noting also that Apple is falling behind when it comes to the AI space.).

3. That perception intensified with the rise of Artificial Intelligence, particularly following OpenAI's release of ChatGPT in November 2022, which redefined consumer expectations and triggered a wave of generative AI innovation across the tech industry. Apple was reportedly "caught off guard" by the AI boom³ and viewed as falling behind its competitors in the race to integrate AI into consumer products.⁴

4. Apple badly needed a perceived AI breakthrough to recapture consumer enthusiasm. That came in mid-2024 when Apple launched a sweeping marketing campaign introducing "Apple Intelligence," a suite of supposed next generation generative AI features, to promote its new iPhone 16 lineup. Apple marketed the iPhone 16 as "[t]he first iPhone built for Apple Intelligence."⁵

5. The centerpiece of this campaign was a dramatically enhanced Siri, promoted as an on-device AI-powered personal assistant designed to revolutionize the smartphone experience and serve as the defining innovation of the new iPhone series. Apple claimed that Apple Intelligence would enable this new, "personalized" Siri to perform a wide range of sophisticated tasks such as performing multi-step tasks across a user's apps. Apple showcased examples such as locating a podcast mentioned in a text or personal email, sending photos by voice command, and retrieving documents from a reading list.

6. Apple emphasized that Enhanced Siri would intelligently interact with users' personal data across device applications and apply that data to solve everyday problems, transforming Siri from a limited voice interface into a full-fledged AI assistant.

³ Mark Gurman, *Inside Apple's Big Plan to Bring Generative AI to All Its Devices*, BLOOMBERG (Oct. 22, 2023), <https://www.bloomberg.com/news/newsletters/2023-10-22/what-is-apple-doing-in-ai-revamping-siri-search-apple-music-and-other-apps-lol1fr7p> (stating, "Apple largely sat on the sidelines when OpenAI's ChatGPT took off like a rocket last year. . . . I can tell you in no uncertain terms that Apple executives were caught off guard by the industry's sudden AI fever and have been scrambling since late last year to make up for lost time.")

⁴ Samantha Murphy Kelly, *iPhone sales are plunging. Here's why*, CNN (Apr. 16, 2024), <https://www.cnn.com/2024/04/15/tech/iphone-sales-plunging/index.html> (stating, "Apple has not articulated a strong message about artificial intelligence, at a time when many tech companies are doubling down on related strategies and features.")

⁵ Archived version of Apple's iPhone 16 page, dated September 11, 2024, *Wayback Machine*, INTERNET ARCHIVE, <https://web.archive.org/web/20240911122231/https://www.apple.com/iphone-16/>, last accessed Jun. 24, 2025.

1 7. Apple’s promises were not limited to niche tech media. Apple unveiled “Apple
2 Intelligence” and Enhanced Siri as the focal point of its widely viewed and publicized annual
3 Worldwide Developers Conference (“WWDC”) in June 2024, then repeated and amplified those
4 claims at the iPhone 16 launch and regularly thereafter across television, online platforms, and retail
5 channels. Apple targeted consumers nationwide at times designed to maximize exposure, including
6 Major League Baseball playoffs and NFL football broadcasts. Consistent with Apple’s ability to
7 dominate the news cycle based on product announcements, media coverage further amplified the
8 core messaging.

9 8. One of Apple’s most prominent campaigns coincided with the official launch of the
10 iPhone 16 and featured acclaimed actor Bella Ramsey, star of *Game of Thrones* and *The Last of Us*,
11 showcasing Siri’s AI capabilities. These commercials depicted a fully operable Enhanced Siri
12 working as advertised. These ads aired extensively across television, YouTube, social media, and
13 even in movie theaters, amplifying consumer belief that Enhanced Siri was real, available, and
14 revolutionary.

15 9. By the time the iPhone 16 series launched in September 2024, Apple’s campaign had
16 generated immense consumer excitement. Its message was clear: Apple Intelligence and Siri’s new
17 era was here. Consumers responded accordingly. Millions purchased or upgraded to the iPhone 16
18 based on Apple’s promise of transformative AI functionality. For many, this marked the first
19 compelling reason in years to spend over \$800 on a new iPhone.

20 10. The problem is, none of it was true. The iPhone 16 was delivered to consumers
21 without “Apple Intelligence,” and Enhanced Siri never came.

22 11. It wasn’t until March 2025, after millions of customers bought iPhones expecting the
23 heralded features, that Apple admitted the surprising truth: (i) Enhanced Siri did not exist at the time
24 Apple began widely promoting it, including advertising showing the feature “in action,” (ii) it still
25 did not exist months later, and (iii) it would not be available, if ever, until sometime in 2026—two
26 years after the company built its Apple Intelligence and iPhone 16 series marketing campaign around
27 it.
28

12. Apple’s admission coincided with the public release of a finding by the National Advertising Division that Apple’s marketing for the iPhone 16 was false and misleading, as well as Apple’s retraction of advertising that, months after the series 16 launch, continued to showcase an operable Enhanced Siri even though no such feature exists.

13. Public reaction to Apple’s bait and switch tactics was swift and pointed. Consumers expressed shock, disappointment, and frustration. Many stated publicly they would never have purchased or upgraded to the iPhone 16 had they known the truth. This widespread sentiment echoed Morgan Stanley’s November 2024 market research, which identified advanced AI features as a top driver of smartphone upgrades, with an “Upgraded Siri digital assistant” as “the Apple Intelligence feature prospective new model iPhone buyers were **most interested in**.”⁶

14. Against this backdrop, Apple materially misrepresented the capabilities of the series 16 iPhone and deceived millions of consumers into spending hundreds of dollars on a phone they did not need, based on features that do not exist. This putative class action seeks monetary damages to recover the unlawful price premium paid by millions who were misled by Apple’s mirage of innovation.

A. The Class Devices.

15. Plaintiffs bring this lawsuit on behalf of themselves and similarly situated purchasers of the Apple iPhone 16, iPhone 16e, iPhone 16Plus, iPhone 16 Pro, iPhone 16 Pro Max (“iPhone 16”), iPhone 15 Pro, or iPhone 15 Pro Max (collectively, the “Class Devices”), which are priced from \$599 to upwards of \$1,199 before upgrades.

B. Challenged Representations.

16. Beginning with its widely publicized developer conference in June 2024 and continuing at the iPhone 16 launch event and in featured ads to follow, Apple aggressively promoted

⁶ *Apple survey work points to improving iPhone upgrade rates, says Morgan Stanley*, BUSINESS INSIDER (Nov. 25, 2024), <https://markets.businessinsider.com/news/stocks/apple-survey-work-points-to-improving-iphone-upgrade-rates-says-morgan-stanley-1034061399>; *see also* Brandon Evans, *Apple estimates lowered on tariffs, Siri update delay: Morgan Stanley*, SEEKING ALPHA, (Mar. 12, 2025), <https://seekingalpha.com/news/4419782-apple-estimates-lowered-on-tariffs-siri-update-delay-morgan-stanley>

“Apple Intelligence,” featuring a next-generation Siri as the flagship innovation (“Enhanced Siri”).⁷ Apple showcased Enhanced Siri “in action” as though it were fully functional and available, despite lacking any real working version of the product. At the time, Apple also had no reasonable basis to believe it could deliver the advanced Siri functionality with the Series 16 iPhone or Series 15 iPhone Pro.

17. Apple’s pervasive marketing campaign⁸ for the Class Devices persisted for months prior to, and after the release of iPhone 16 series, saturating all major media platforms through March 2025. The campaign conveyed that the iPhone 16 series would be equipped with an advanced Siri capable of quickly and accurately analyzing data across a variety of applications, drawing from an iPhone user’s personal context, and applying that data to solve everyday problems. Among the representations made by Apple were the following:

- “Siri will be able to deliver intelligence that’s tailored to the user and their on-device information. For example, a user can say, ‘Play that podcast that Jamie recommended,’ and Siri will locate and play the episode, without the user having to remember whether it was mentioned in a text or an email. Or they could ask, ‘When is Mom’s flight landing?’ and Siri will find the flight details and cross-reference them with real-time flight tracking to give an arrival time.”⁹
- “With Apple Intelligence, Siri will be able to take hundreds of new actions in and across Apple and third-party apps. For example, a user could say, ‘Bring up that article about cicadas from my Reading List,’ or ‘Send the photos from the barbecue on Saturday to Malia,’ and Siri will take care of it.”¹⁰

⁷ Samantha Kelly, *Apple Introduces AI to its products at WWDC*, CNN, (June 10, 2024) <https://www.cnn.com/business/live-news/apple-wwdc-keynote-06-10-24/index.html#:~:text=Apple%20introduced%20%E2%80%9CAppe%20Intelligence%E2%80%9D%20%E2%80%93,host%20of%20Apple%20product%20updates>.

⁸ *Id.*; see also <https://www.apple.com/newsroom/2024/06/introducing-apple-intelligence-for-iphone-ipad-and-mac/>

⁹ Apple Newsroom, *Introducing Apple Intelligence, the personal intelligence system that puts powerful generative models at the core of iPhone, iPad and Mac*, APPLE (Jun. 10, 2024) <https://www.apple.com/newsroom/2024/06/introducing-apple-intelligence-for-iphone-ipad-and-mac/>, last accessed May 29, 2025.

¹⁰ *Id.*

1 18. Consistent with these misrepresentations, Apple claimed Siri would be able to obtain
2 and provide information to the user based on integration of all apps on the iPhone, for example,
3 being able to search, via voice command, the name of an individual the user met several months ago
4 at a specific location.¹¹

5 19. Apple informed consumers that Apple Intelligence features would be available on
6 not only the iPhone 16, but also on iPhone 15 Pro and iPhone 15 Pro Max.¹²

7 20. To further ignite global excitement about Apple Intelligence and Enhanced Siri's
8 next-generation context-awareness, Apple enlisted acclaimed actor, Bella Ramsey, an
9 internationally recognized celebrity known for their roles in *Game of Thrones* and *The Last of Us*,
10 to star in its advertisements. Ramsey's reputation for authenticity and broad appeal gave Apple's
11 multi-million dollar campaign, and the Enhanced Siri featured in it, a uniquely relatable, inclusive,
12 and emotionally-resonant tone. It instantly captured the public's attention.

13 21. Starting in September 2024, when Apple launched the iPhone 16 series officially,
14 Apple aired these advertisements extensively across major television broadcasts, including high-
15 visibility slots during MLB playoffs, NFL games, extended to YouTube (pre-roll ads¹³), social media
16 channels (TikTok, Instagram, Facebook), and even in movie theaters. MLB playoffs and NFL
17 broadcasts during which the ads aired alone generally draw between 20-40 million viewers per game.
18 The Ramsey ads are estimated to have reached hundreds of millions of consumers nationwide.

19
20
21
22
23
24

25 ¹¹ Omar Sohail, *Apple Intelligence Ad Showing New Siri Has Been Removed*, WCCFTECH (Mar. 8, 2025) <https://wccftech.com/apple-intelligence-ad-showing-new-siri-has-been-removed/>.

26 ¹² Archived version of *How to get Apple Intelligence* dated September 15, 2024, INTERNET
27 ARCHIVE, <https://web.archive.org/web/20240915191932/https://support.apple.com/en-us/121115>
(listing the "iPhone 16, iPhone 16 Plus, iPhone 16 Pro, iPhone 16 Pro Max, iPhone 15 Pro, or
28 iPhone 15 Pro Max" as eligible devices for Apple Intelligence features).

¹³ Pre-roll ads are video advertisements that play before the YouTube video a person clicked on to watch.

22. Through these ads and media placements, Apple also directed customers to its website, which is one of the most visited websites globally, averaging between 450-660 million monthly visits. There, Apple proudly promoted “Apple Intelligence,” heralding in particular the “new era for Siri”:

A new era for Siri. Awareness of your personal context enables Siri to help you in ways that are unique to you. Can’t remember when your mom’s flight is arriving? Siri can help find what you’re looking for, without compromising your privacy.

1 23. While Apple depicted several features under “Apple Intelligence,” most were not
2 unique among smartphones nor particularly interesting to average consumers—trifles like making
3 cute photo videos or generating new emojis. The most ambitious, headline-grabbing, and desired
4 feature, Enhanced Siri, was therefore the centerpiece of Apple’s marketing efforts. This promised
5 consumers something groundbreaking: an AI personal assistant so deeply integrated with users’ data
6 and activities that it could understand their relationships, personal preferences, and day-to-day needs.
7 As Apple touted, it was a breakthrough in functionality that would revolutionize smartphone use for
8 the new AI era.

9 24. Throughout the course of Apple’s deceptive campaign, the company discussed
10 Enhanced Siri as if it existed and depicted its advanced features across a wide range of marketing
11 images and videos, including Bella Ramsey interacting with Siri as if its advanced features were
12 already operational.

13 25. Consumers also reasonably believed these features would be available on the Class
14 Devices when they launched based on core statements repeated by Apple across its Apple
15 Intelligence campaign including that Apple Intelligence is “coming this fall” (in 2024), is “available
16 now,” and “available today.”

17 26. As the National Advertising Division would later hold, “[t]he description of Siri’s
18 updated functionality below Apple’s unqualified claim that Apple Intelligence is “available now”...
19 reasonably convey[ed] the message that the updated Siri functionality was available as part of the
20 iPhone 16 launch, which it was not.”¹⁴

21 27. Each of Apple’s misrepresentations contributed to the core deception leading
22 consumers to believe the series 16 iPhone, “Built for Apple Intelligence,” would have exciting new
23 personalized interactions driven by a revolutionary new Siri deemed available, shown to be working
24 and otherwise heralded, but that in truth never existed.

25
26
27 ¹⁴ See *National Advertising Division v. Apple Inc.*, Case No. 7410 (“NAD Decision”), p. 7: “The
28 description of Siri’s updated functionality below Apple’s unqualified claim that Apple Intelligence
is ‘available now’ also reasonably conveys the message that the updated Siri functionality was
available as part of the iPhone 16 launch, which it was not.”

1 **C. Enhanced Siri Was a Top Purchase Driver Fueling Sales.**

2 28. A November 2024 Smartphone Survey from Morgan Stanley revealed that Apple's
3 artificial intelligence was "an emerging catalyst" to iPhone upgrades.¹⁵ It was also listed as a top
4 five driver of smartphone upgrades for the first time.¹⁶ As explained by Morgan Stanley's analyst
5 Erik Woodring, "'Upgraded Siri digital assistant' was the Apple Intelligence feature prospective
6 new model iPhone buyers (globally) were most interested in."¹⁷

7 29. When the promised features did not come, consumer outrage followed. Disappointed
8 and confused by Apple's bait and switch tactics, many purchasers stated that they "would have never
9 upgraded had [they] known this phone would not have those features,"¹⁸ and expressed
10 disappointment that they were duped into buying a new iPhone 16 under false pretenses.

11 **II. THE PARTIES**

12 **A. Plaintiffs**

13 **ALABAMA**

14 30. Plaintiff **Shaun Carroll** is a citizen of Alabama at all relevant times. On September
15 19, 2024, Carroll purchased the iPhone 16 Pro Max from AT&T's online store for approximately
16 \$1,399.99 after viewing pervasive advertisements for the new iPhone 16 series that aired between
17 Summer 2024 and prior to the date of purchase.

18 31. In particular, Carroll recalls seeing and specifically relying on "Apple Intelligence"
19 on iPhone 16 advertisements showcasing Enhanced Siri features, such as an ability to act as a digital
20 personal assistant, such as the ability to pull information from multiple applications and perform
21 other complicated tasks. This included Apple's Bella Ramsey television commercial that
22 demonstrated a fully operational Enhanced Siri, as well as other Apple advertisements, marketing
23

24 ¹⁵ TheFly, *Apple survey work points to improving iPhone upgrade rates, says Morgan Stanley*,
25 NASDAQ, (Nov. 25, 2024) <https://www.nasdaq.com/articles/apple-survey-work-points-improving-iphone-upgrade-rates-says-morgan-stanley>.

26 ¹⁶ Brandon Evans, *Apple estimates lowered on tariffs, Siri update delay: Morgan Stanley*, SEEKING
27 ALPHA, (Mar. 12, 2025) <https://seekingalpha.com/news/4419782-apple-estimates-lowered-on-tariffs-siri-update-delay-morgan-stanley>.

28 ¹⁷ *Id.*

¹⁸ See, e.g., Apple Support Community, *Why is the Apple Intelligence not included on my iPhone 16?*, APPLE (Oct. 2, 2024), <https://discussions.apple.com/thread/255784851>.

1 the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a
2 brand new AI-powered personal assistant and defining innovation of the new iPhone series.

3 32. Carroll reasonably interpreted the Apple Intelligence advertisements to mean that the
4 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
5 consistent with the widespread public understanding at the time based on Apple's pervasive
6 marketing campaign.

7 33. Carroll believed Apple's advertisements regarding iPhone 16's Apple Intelligence
8 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
9 AI personal assistant. At the time of purchase, Carroll had no reason to believe that Apple's
10 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
11 statement or information on the Class Device's advertising and marketing that contradicted his
12 understanding that the iPhone 16 would be equipped with Enhanced Siri.

13 34. However, after purchasing and setting up his phone, Carroll discovered that the phone
14 did not have the promised features and is substantially inferior to what Apple advertised.
15 Unbeknownst to Carroll, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities
16 were materially false and misleading including because the advertised Enhanced Siri has not yet
17 been developed and is not available on the iPhone 16. But for Apple's materially false and
18 misleading promotion of the iPhone 16, Carroll would not have purchased his iPhone 16 or would
19 have paid significantly less for it. As a result of Apple's conduct, Carroll has been injured through
20 purchase and overpayment for the phone as it does not have the capabilities promised.

21 **ALASKA**

22 35. Plaintiff **Gary Rasmussen** is a citizen of Alaska at all relevant times. On October 15,
23 2025, Rasmussen purchased an iPhone 16 Pro from an Apple Store in Anchorage, Alaska, for
24 approximately \$999 after viewing countless technical write-ups, blog posts, and articles online
25 regarding the promised AI features.

1 46. In particular, Landsheft specifically recalls seeing and specifically relying on the
2 representations of Apple's new Artificial Intelligence features, especially the Enhanced Siri
3 functions, including the ability to act as a personal assistant, including gathering information across
4 various applications, including on-screen awareness, (such as emails, texts, calendar, and more), as
5 well as other Apple advertisements marketing the iPhone 16's incorporation of Apple Intelligence,
6 the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining
7 innovation of the new iPhone series.

8 47. Landsheft reasonably interpreted the Apple Intelligence advertisements to mean that
9 the Class Devices would be equipped with Enhanced Siri and would have the advertised
10 functionalities, consistent with the widespread public understanding at the time based on Apple's
11 pervasive marketing campaign.

12 48. Landsheft believed Apple's advertisements regarding iPhone 16's Apple Intelligence
13 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
14 AI personal assistant. At the time of purchase, Landsheft had no reason to believe that Apple's
15 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
16 statement or information on the Class Devices' advertising and marketing that contradicted his
17 understanding that the iPhone 16 would be equipped with Enhanced Siri.

18 49. However, after purchasing and setting up his phone, Landsheft discovered that the
19 phone did not have the promised features and is substantially inferior to what Apple advertised.
20 Unbeknownst to Landsheft, Apple's statements regarding the iPhone 16's integrated Siri AI
21 capabilities were materially false and misleading including because Enhanced Siri has not yet been
22 developed and is not available on the iPhones. But for Apple's materially false and misleading
23 promotion of the iPhone 16, Landsheft would not have purchased his iPhone 16 or would have paid
24 significantly less for it. As a result of Apple's conduct, Landsheft has been injured through purchase
25 and overpayment for the phone as it does not have the capabilities promised.

26 50. Plaintiff **Tyshaun Butler** is a citizen of California at all relevant times. On September
27 13, 2024, Butler preordered and purchased a iPhone 16 Pro Max and a iPhone 16 Plus from Apple's
28

1 online store for approximately \$2,434.09, after viewing pervasive advertisements for the new iPhone
2 16 series that aired between Summer 2024 and prior to the date of purchase.

3 51. In particular, Butler recalls seeing and specifically relying on Apple's marketing
4 emails for the iPhone 16, as well as its Apple Intelligence ads on social media and in retail stores,
5 showcasing Enhanced Siri, as well as other Apple advertisements marketing the iPhone 16's
6 incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-
7 powered personal assistant and defining innovation of the new iPhone series.

8 52. Butler reasonably interpreted the Apple Intelligence advertisements to mean that the
9 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
10 consistent with the widespread public understanding at the time based on Apple's pervasive
11 marketing campaign.

12 53. Butler believed Apple's advertisements regarding iPhone 16's Apple Intelligence and
13 Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI
14 personal assistant. At the time of purchase, Butler had no reason to believe that Apple's
15 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
16 statement or information on the Class Devices' advertising and marketing that contradicted his
17 understanding that the iPhone 16 would be equipped with Enhanced Siri.

18 54. However, after purchasing and setting up his phone, Butler discovered that the phone
19 did not have the promised features and is substantially inferior to what Apple advertised.
20 Unbeknownst to Butler, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities
21 were materially false and misleading including because the advertised Enhanced Siri has not yet
22 been developed and is not available on the iPhones. But for Apple's materially false and misleading
23 promotion of the iPhone 16, Butler would not have purchased his iPhone 16 or would have paid
24 significantly less for it. As a result of Apple's conduct, Butler has been injured through purchase and
25 overpayment for the phone as it does not have the capabilities promised.

26 55. Plaintiff **Lauren Norman** is a citizen of California at all relevant times. In February
27 2025, Norman purchased an iPhone 16 Plus from Spectrum Mobile for approximately \$1,029.00
28

1 after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer
2 2024 and prior to the date of purchase.

3 56. In particular, Norman recalls seeing and specifically relying on Apple advertisements
4 marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was
5 Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new
6 iPhone series.

7 57. Norman reasonably interpreted the Apple Intelligence advertisements to mean that
8 the Class Devices would be equipped with Enhanced Siri and would have the advertised
9 functionalities, consistent with the widespread public understanding at the time based on Apple's
10 pervasive marketing campaign.

11 58. Norman believed Apple's advertisements regarding iPhone 16's Apple Intelligence
12 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
13 AI personal assistant. At the time of purchase, Norman had no reason to believe that Apple's
14 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
15 statement or information on the Class Devices' advertising and marketing that contradicted her
16 understanding that the iPhone 16 would be equipped with Enhanced Siri.

17 59. However, after purchasing and setting up her phone, Norman discovered that the
18 phone did not have the promised features and is substantially inferior to what Apple advertised.
19 Unbeknownst to Norman, Apple's statements regarding the iPhone 16's integrated Siri AI
20 capabilities were materially false and misleading because Enhanced Siri has not yet been developed
21 and is not available on the iPhones. But for Apple's materially false and misleading promotion of
22 the iPhone 16, Norman would not have purchased her iPhone 16 or would have paid significantly
23 less for it. As a result of Apple's conduct, Norman has been injured through purchase and
24 overpayment for the phone as it does not have the capabilities promised.

COLORADO

60. Plaintiff **Jacob Anderson** is a citizen of Colorado at all relevant times. On November 1, 2024, Anderson purchased an iPhone 16 Pro Max from AT&T's online store for approximately \$1,599.99 after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer 2024 and prior to the date of purchase.

61. In particular, Anderson recalls seeing and specifically relying on the representations regarding of Apple's next iPhone's new artificial intelligence features, especially the Enhanced Siri functions, including its ability to gather and use personal information across email and all device applications to provide highly personalized assistance to iPhone users made at Apple's WWDC 2024, as well as other Apple advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new iPhone series.

62. Anderson reasonably interpreted the Apple Intelligence advertisements to mean that the Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities, consistent with the widespread public understanding at the time based on Apple's pervasive marketing campaign.

63. Anderson believed Apple's advertisements regarding iPhone 16's Apple Intelligence and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI personal assistant. At the time of purchase, Anderson had no reason to believe that Apple's advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory statement or information on the Class Devices' advertising and marketing that contradicted his understanding that the iPhone 16 would be equipped with Enhanced Siri.

64. However, after purchasing and setting up his phone, Anderson discovered that the phone did not have the promised features and is substantially inferior to what Apple advertised. Unbeknownst to Anderson, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities were materially false and misleading including because Enhanced Siri has not yet been developed and is not available on the iPhones. But for Apple's materially false and misleading promotion of the iPhone 16, Anderson would not have purchased his iPhone 16 or would have paid

1 significantly less for it. As a result of Apple's conduct, Anderson has been injured through purchase
2 and overpayment for the phone as it does not have the capabilities promised.

3 CONNECTICUT

4 65. Plaintiff **Russell Crafts** is a citizen of Connecticut at all relevant times. On December
5 5, 2024, Crafts purchased an iPhone 16 Pro from T-Mobile's online store for approximately \$850,
6 after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer
7 2024 and prior to the date of purchase.

8 66. In particular, Crafts recalls seeing and specifically relying on television
9 advertisements highlighting a fully operable Enhanced Siri, as well as other Apple advertisements
10 marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was
11 Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new
12 iPhone series.

13 67. Crafts reasonably interpreted the Apple Intelligence advertisements to mean that the
14 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
15 consistent with the widespread public understanding at the time based on Apple's pervasive
16 marketing campaign.

17 68. Crafts believed Apple's advertisements regarding iPhone 16's Apple Intelligence and
18 Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI
19 personal assistant. At the time of purchase, Crafts had no reason to believe that Apple's
20 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
21 statement or information on the Class Devices' advertising and marketing that contradicted his
22 understanding that the iPhone 16 would be equipped with Enhanced Siri.

23 69. However, after purchasing and setting up his phone, Crafts discovered that the phone
24 did not have the promised features and is substantially inferior to what Apple advertised.
25 Unbeknownst to Crafts, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities
26 were materially false and misleading including because the advertised Enhanced Siri has not yet
27 been developed and is not available on the iPhones. But for Apple's materially false and misleading
28 promotion of the iPhone 16, Crafts would not have purchased his iPhone 16 or would have paid

1 significantly less for it. As a result of Apple's conduct, Crafts has been injured through purchase and
2 overpayment for the iPhone as it does not have the capabilities promised.

3 **FLORIDA**

4 70. Plaintiff **David Ramirez** is a citizen of Florida at all relevant times. On or around
5 September 20, 2024, Ramirez purchased an iPhone 16 from a T-Mobile store in Gainesville, Florida
6 for approximately \$1,289.99, after viewing pervasive advertisements for the new iPhone 16 series
7 that aired between Summer 2024 and prior to the date of purchase.

8 71. In particular, Ramirez recalls seeing and specifically relying on Apple advertisements
9 marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was
10 Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new
11 iPhone series.

12 72. Ramirez reasonably interpreted the Apple Intelligence advertisements to mean that
13 the Class Devices would be equipped with Enhanced Siri and would have the advertised
14 functionalities, consistent with the widespread public understanding at the time based on Apple's
15 pervasive marketing campaign.

16 73. Ramirez believed Apple's advertisements regarding iPhone 16's Apple Intelligence
17 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
18 AI powered personal assistant. At the time of purchase, Ramirez had no reason to believe that
19 Apple's advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
20 statement or information on the Class Devices' advertising and marketing that contradicted his
21 understanding that the iPhone 16 would be equipped with the advanced Siri.

22 74. However, after purchasing and setting up his phone, Ramirez discovered that the
23 phone did not have the promised features and is substantially inferior to what Apple advertised.
24 Unbeknownst to Ramirez, Apple's statements regarding the iPhone 16's integrated Siri AI
25 capabilities were materially false and misleading including because the advertised advanced Siri has
26 not yet been developed and is not available on the iPhones. But for Apple's materially false and
27 misleading promotion of the iPhone 16, Ramirez would not have purchased his iPhone 16 or would
28

1 have paid significantly less for it. As a result of Apple's conduct, Ramirez has been injured through
2 purchase and overpayment for the phone as it does not have the capabilities promised.

3 75. Plaintiff **Michael Murphy** is a citizen of Florida at all relevant times. On or around
4 December 28, 2024, Murphy purchased an iPhone 16 Pro Max from an Apple Store in Sarasota,
5 Florida for approximately \$1,155 after viewing pervasive advertisements for the new iPhone 16
6 series that aired between Summer 2024 and prior to the date of purchase.

7 76. In particular, Murphy recalls seeing and specifically relying on Apple's promotions
8 marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was
9 Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new
10 iPhone series.

11 77. Murphy reasonably interpreted the Apple Intelligence advertisements to mean that
12 the purchased iPhone 16 would be equipped with Enhanced Siri and would have the advertised
13 functionalities, consistent with the widespread public understanding at the time based on Apple's
14 pervasive marketing campaign.

15 78. Murphy believed Apple's advertisements regarding iPhone 16's Apple Intelligence
16 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
17 AI personal assistant. At the time of purchase, Murphy had no reason to believe that Apple's
18 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
19 statement or information on the Class Devices' advertising and marketing that contradicted his
20 understanding that the iPhone 16 would be equipped with Enhanced Siri.

21 79. However, after purchasing and setting up his phone, Murphy discovered that the
22 phone did not have the promised features and is substantially inferior to what Apple advertised.
23 Unbeknownst to Murphy, Apple's statements regarding the iPhone 16's integrated Siri AI
24 capabilities were materially false and misleading including because the advertised Enhanced Siri has
25 not yet been developed and is not available on the iPhones. But for Apple's materially false and
26 misleading promotion of the iPhone 16, Murphy would not have purchased his iPhone 16 or would
27 have paid significantly less for it. As a result of Apple's conduct, Murphy has been injured through
28 purchase and overpayment for the phone as it does not have the capabilities promised.

GEORGIA

80. Plaintiff **Kristopher Huggins** is a citizen of Georgia at all relevant times. On September 13, 2024, Huggins preordered an iPhone 16 Pro from his carrier, AT&T, through their online store for approximately \$1,299, after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer 2024 and prior to the date of purchase.

81. In particular, Huggins recalls seeing and specifically relying on Apple's YouTube advertisements and representations made at Apple's annual developer's conference WWDC 2024 regarding Enhanced Siri's capabilities, as well as other Apple advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new iPhone series.

82. Huggins reasonably interpreted the Apple Intelligence advertisements to mean that the Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities, consistent with the widespread public understanding at the time based on Apple's pervasive marketing campaign.

83. Huggins believed Apple's advertisements regarding iPhone 16's Apple Intelligence and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI personal assistant. At the time of purchase, Huggins had no reason to believe that Apple's advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory statement or information on the Class Devices' advertising and marketing that contradicted his understanding that the iPhone 16 would be equipped with Enhanced Siri.

84. However, after purchasing and setting up his phone, Huggins discovered that the phone did not have the promised features and is substantially inferior to what Apple advertised. Unbeknownst to Huggins, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities were materially false and misleading including because the advertised advanced Siri has not yet been developed and is not available on the iPhones. But for Apple's materially false and misleading promotion of the iPhone 16, Huggins would not have purchased his iPhone 16 or would have paid significantly less for it. As a result of Apple's conduct, Huggins has been injured through purchase and overpayment for the phone as it does not have the capabilities promised.

1 85. Plaintiff **Steven Geisel** is a citizen of Georgia at all relevant times. On September 23,
2 2024, Geisel purchased an iPhone 16 Pro from Xfinity Mobile's online store for approximately
3 \$1,299 after viewing pervasive advertisements for the new iPhone 16 series that aired between
4 Summer 2024 and prior to the date of purchase.

5 86. In particular, Geisel recalls seeing and specifically relying on representations Apple
6 made regarding Enhanced Siri at its 2024 WWDC, including its new ability to perform multi-step
7 tasks across a user's app and otherwise interact intelligently with users' personal data, like searching
8 your calendar, creating reminders, and understanding and performing complex tasks with cross-app
9 and on-screen contextual and personalized awareness, as well as other Apple advertisements
10 marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was
11 Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new
12 iPhone series.

13 87. Geisel reasonably interpreted the Apple Intelligence advertisements to mean that the
14 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
15 consistent with the widespread public understanding at the time based on Apple's pervasive
16 marketing campaign.

17 88. Geisel believed Apple's advertisements regarding iPhone 16's Apple Intelligence and
18 Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI
19 personal assistant. At the time of purchase, Geisel had no reason to believe that Apple's
20 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
21 statement or information on the Class Devices' advertising and marketing that contradicted his
22 understanding that the iPhone 16 would be equipped with Enhanced Siri.

23 89. However, after purchasing and setting up his phone, Geisel discovered that the phone
24 did not have the promised features and is substantially inferior to what Apple advertised.
25 Unbeknownst to Geisel, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities
26 were materially false and misleading including because the advertised Enhanced Siri has not yet
27 been developed and is not available on the iPhones. But for Apple's materially false and misleading
28 promotion of the iPhone 16, Geisel would not have purchased his iPhone 16 or would have paid

1 significantly less for it. As a result of Apple's conduct, Geisel has been injured through purchase
2 and overpayment for the phone as it does not have the capabilities promised.

3 ILLINOIS

4 90. Plaintiff **Michael Hopkins** is a citizen of Illinois at all relevant times. On October 5,
5 2024, Hopkins purchased an iPhone 16 Pro from Apple's online store for approximately \$1,167.69,
6 after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer
7 2024 and prior to the date of purchase.

8 91. In particular, Hopkins recalls seeing and specifically relying on Apple video
9 advertisements and Apple's 2024 WWDC presentation emphasizing Enhanced Siri's capabilities,
10 and he also saw Apple's later advertisements marketing the iPhone 16's incorporation of Apple
11 Intelligence and related new Enhanced Siri functionality. Hopkins recalls Apple's advertisements
12 regarding Siri's ability to access and analyze information across multiple iPhone 16 applications to
13 create highly personalized and user-specific responses. Hopkins also recalls other Apple
14 advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of
15 which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the
16 new iPhone series.

17 92. Hopkins reasonably interpreted the Apple Intelligence advertisements to mean that
18 the Class Devices would be equipped with Enhanced Siri and would have the advertised
19 functionalities, consistent with the widespread public understanding at the time based on Apple's
20 pervasive marketing campaign.

21 93. Hopkins believed Apple's advertisements regarding iPhone 16's Apple Intelligence
22 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
23 AI personal assistant. At the time of purchase, Hopkins had no reason to believe that Apple's
24 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
25 statement or information on the Class Devices' advertising and marketing that contradicted his
26 understanding that the iPhone 16 would be equipped with the Enhanced Siri.

27 94. However, after purchasing and setting up his phone, Hopkins discovered that the
28 phone did not have the promised features and is substantially inferior to what Apple advertised.

Unbeknownst to Hopkins, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities were materially false and misleading including because the advertised Enhanced Siri has not yet been developed and is not available on the iPhones. But for Apple's materially false and misleading promotion of the iPhone 16, Hopkins would not have purchased his iPhone 16 or would have paid significantly less for it. As a result of Apple's conduct, Hopkins has been injured through purchase and overpayment for the phone as it does not have the capabilities promised.

95. Plaintiff **David Campos** is a citizen of Illinois at all relevant times. On September 21, 2024, Campos purchased an iPhone 16 Pro Max from Boost Mobile's online store for approximately \$1,285, after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer 2024 and prior to the date of purchase.

96. In particular, Campos recalls seeing and specifically relying on Apple's 2024 WWDC spotlighting Enhanced Siri's capabilities, subsequent online videos and advertisements from Apple explaining and demonstrating that the iPhone 16 was equipped with Enhanced Siri and would be able to perform advanced functions, acting as a digital personal assistant that would be able to obtain and perform tasks across multiple apps with highly-personalized intelligence. Campos recalls other Apple advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new iPhone series.

97. Campos reasonably interpreted the Apple Intelligence advertisements to mean that the Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities, consistent with the widespread public understanding at the time based on Apple's pervasive marketing campaign.

98. Campos believed Apple's advertisements regarding iPhone 16's Apple Intelligence and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI personal assistant. At the time of purchase, Campos had no reason to believe that Apple's advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory statement or information on the Class Devices' advertising and marketing that contradicted his understanding that the iPhone 16 would be equipped with Enhanced Siri.

1 99. However, after purchasing and setting up his phone, Campos discovered that the
2 phone did not have the promised features and is substantially inferior to what Apple advertised.
3 Unbeknownst to Campos, Apple's statements regarding the iPhone 16's integrated Siri AI
4 capabilities were materially false and misleading including because the advertised Enhanced Siri has
5 not yet been developed and is not available on the iPhones. But for Apple's materially false and
6 misleading promotion of the iPhone 16, Campos would not have purchased his iPhone 16 or would
7 have paid significantly less for it. As a result of Apple's conduct, Campos has been injured through
8 purchase and overpayment for the phone as it does not have the capabilities promised.

9 100. Plaintiff **Scott Domek** is a citizen of Illinois at all relevant times. On September 10,
10 2024, Domek preordered an iPhone 16 Pro from Apple's online store for approximately \$1,299, after
11 viewing pervasive advertisements for the new iPhone 16 series that aired between Summer 2024 and
12 prior to the date of purchase.

13 101. In particular, Domek recalls seeing and specifically relying on Apple's website
14 representations and promotional materials, which demonstrated Enhanced Siri, including its ability
15 to perform cross-app functions and with on-screen and highly-intelligent personalized awareness.
16 He also recalls seeing other Apple advertisements marketing the iPhone 16's incorporation of Apple
17 Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant
18 and defining innovation of the new iPhone series.

19 102. Domek reasonably interpreted the Apple Intelligence advertisements to mean that the
20 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
21 consistent with the widespread public understanding at the time based on Apple's pervasive
22 marketing campaign.

23 103. Domek believed Apple's advertisements regarding iPhone 16's Apple Intelligence
24 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
25 AI personal assistant. At the time of purchase, Domek had no reason to believe that Apple's
26 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
27 statement or information on the Class Devices' advertising and marketing that contradicted his
28 understanding that the iPhone 16 would be equipped with Enhanced Siri.

105. Plaintiff **Krystal Rodriguez** is a citizen of Indiana at all relevant times. On September 27, 2024, Rodriguez purchased an iPhone 16 from Xfinity Mobile’s online store for approximately \$929.99, after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer 2024 and prior to the date of purchase.

106. In particular, Rodriguez recalls seeing and specifically relying on Apple’s TV and social media ads for the iPhone 16, representations Apple made during its 2024 WWDC developer’s conference regarding Enhanced Siri, as well as other Apple advertisements marketing the iPhone 16’s incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new iPhone series.

107. Rodriguez reasonably interpreted the Apple Intelligence advertisements to mean that the Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities, consistent with the widespread public understanding at the time based on Apple's pervasive marketing campaign.

108. Rodriguez believed Apple's advertisements regarding iPhone 16's Apple Intelligence and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI personal assistant. At the time of purchase, Rodriguez had no reason to believe that Apple's advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory statement or information on the Class Devices' advertising and marketing that contradicted her understanding that the iPhone 16 would be equipped with Enhanced Siri.

1 109. However, after purchasing and setting up her phone, Rodriguez discovered that the
2 phone did not have the promised features and is substantially inferior to what Apple advertised.
3 Unbeknownst to Rodriguez, Apple's statements regarding the iPhone 16's integrated Siri AI
4 capabilities were materially false and misleading including because the advertised advanced Siri has
5 not yet been developed and is not available on the iPhones. But for Apple's materially false and
6 misleading promotion of the iPhone 16, Rodriguez would not have purchased her iPhone 16 or would
7 have paid significantly less for it. As a result of Apple's conduct, Rodriguez has been injured through
8 purchase and overpayment for the phone as it does not have the capabilities promised.

9 110. Plaintiff **Colby J. Stafford** is a citizen of Indiana at all relevant times. On September
10 18, 2024, Stafford pre-ordered an iPhone 16 Pro Max from Apple's online store for approximately
11 \$1,199, after viewing pervasive advertisements for the new iPhone 16 series that aired between
12 Summer 2024 and prior to the date of purchase.

13 111. In particular, Stafford recalls seeing and specifically relying on the representations
14 about Enhanced Siri Apple made during its 2024 WWDC, as well as various Apple advertisements
15 on social media demonstrating that artificial intelligence would be integrated with Enhanced Siri on
16 iPhone 16.

17 112. Stafford reasonably interpreted the Apple Intelligence advertisements to mean that
18 the Class Devices would be equipped with Enhanced Siri and would have the advertised
19 functionalities, consistent with the widespread public understanding at the time based on Apple's
20 pervasive marketing campaign.

21 113. Stafford believed Apple's advertisements regarding iPhone 16's Apple Intelligence
22 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
23 AI personal assistant. At the time of purchase, Stafford had no reason to believe that Apple's
24 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
25 statement or information on the Class Devices' advertising and marketing that contradicted his
26 understanding that the iPhone 16 would be equipped with Enhanced Siri.

27 114. However, after purchasing and setting up his phone, Stafford discovered that the
28 phone did not have the promised features and is substantially inferior to what Apple advertised.

Unbeknownst to Stafford, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities were materially false and misleading including because the advertised advanced Siri has not yet been developed and is not available on the iPhones. But for Apple's materially false and misleading promotion of the iPhone 16, Stafford would not have purchased his iPhone 16 or would have paid significantly less for it. As a result of Apple's conduct, Stafford has been injured through purchase and overpayment for the phone as it does not have the capabilities promised.

IOWA

115. Plaintiff **Susan Rizzio** is a citizen of Iowa at all relevant times. On September 20, 2024, Rizzio purchased an iPhone 16 Pro Max from Apple's authorized reseller, a UScellular online store for approximately \$1,199.00, after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer 2024 and prior to the date of purchase.

116. In particular, Rizzio recalls seeing and specifically relying on multiple Apple advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new iPhone series.

117. Rizzio reasonably interpreted the Apple Intelligence advertisements to mean that the Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities, consistent with the widespread public understanding at the time based on Apple's pervasive marketing campaign.

118. Rizzio believed Apple's advertisements regarding iPhone 16's Apple Intelligence and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI personal assistant. At the time of purchase, Rizzio had no reason to believe that Apple's advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory statement or information on the Class Devices' advertising and marketing that contradicted her understanding that the iPhone 16 would be equipped with Enhanced Siri.

119. However, after purchasing and setting up her phone, Rizzio discovered that the phone did not have the promised features and is substantially inferior to what Apple advertised. Unbeknownst to Rizzio, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities

1 were materially false and misleading including because the advertised Enhanced Siri has not yet
2 been developed and is not available on the iPhones. But for Apple's materially false and misleading
3 promotion of the iPhone 16, Rizzio would not have purchased her iPhone 16 or would have paid
4 significantly less for it. As a result of Apple's conduct, Rizzio has been injured through purchase
5 and overpayment for the phone as it does not have the capabilities promised.

6 120. Plaintiff **Matthew Karadsheh** is a citizen of Iowa at all relevant times. On October
7 30, 2024, Karadsheh purchased an iPhone 16 from a UScellular store in Bettendorf, Iowa for
8 approximately \$829.00, after viewing pervasive advertisements for the new iPhone 16 series that
9 aired between Summer 2024 and prior to the date of purchase.

10 121. In particular, Karadsheh recalls seeing and specifically relying on Apple
11 advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of
12 which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the
13 new iPhone series.

14 122. Karadsheh reasonably interpreted the Apple Intelligence advertisements to mean that
15 the Class Devices would be equipped with Enhanced Siri and would have the advertised
16 functionalities, consistent with the widespread public understanding at the time based on Apple's
17 pervasive marketing campaign.

18 123. Karadsheh believed Apple's advertisements regarding iPhone 16's Apple
19 Intelligence and Enhanced Siri to be truthful, and wanted to be one of the first owners of a
20 smartphone with an AI personal assistant. At the time of purchase, Karadsheh had no reason to
21 believe that Apple's advertisements were false, and did not notice any disclaimer, qualifier, or other
22 explanatory statement or information on the Class Devices' advertising and marketing that
23 contradicted his understanding that the iPhone 16 would be equipped with Enhanced Siri.

24 124. However, after purchasing and setting up his phone, Karadsheh discovered that the
25 phone did not have the promised features and is substantially inferior to what Apple advertised.
26 Unbeknownst to Karadsheh, Apple's statements regarding the iPhone 16's integrated Siri AI
27 capabilities were materially false and misleading including because the advertised advanced Siri has
28 not yet been developed and is not available on the iPhones. But for Apple's materially false and

misleading promotion of the iPhone 16, Karadsheh would not have purchased his iPhone 16 or would have paid significantly less for it. As a result of Apple's conduct, Karadsheh has been injured through purchase and overpayment for the phone as it does not have the capabilities promised.

KENTUCKY

125. Plaintiff **Brooklyn Swanson** is a citizen of Kentucky at all relevant times. On January 4, 2025, Swanson purchased two iPhone 16 Plus phones from Verizon online for \$929.99 each after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer 2024 and prior to the date of purchase.

126. In particular, Swanson recalls seeing and specifically relying on TV commercials and other Apple advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new iPhone series.

127. Swanson reasonably interpreted the Apple Intelligence advertisements to mean that the Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities, consistent with the widespread public understanding at the time based on Apple's pervasive marketing campaign.

128. Swanson believed Apple's advertisements regarding iPhone 16's Apple Intelligence and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI personal assistant. At the time of purchase, Swanson had no reason to believe that Apple's advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory statement or information on the Class Devices advertising and marketing that contradicted her understanding that the iPhone 16 would be equipped with Enhanced Siri.

129. However, after purchasing and setting up her phone, Swanson discovered that the phone did not have the promised features and is substantially inferior to what Apple advertised. Unbeknownst to Swanson, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities were materially false and misleading including because the advertised advanced Siri has not yet been developed and is not available on the iPhones. But for Apple's materially false and misleading promotion of the iPhone 16, Swanson would not have purchased her iPhone 16 or would

1 have paid significantly less for it. As a result of Apple's conduct, Swanson has been injured through
2 purchase and overpayment for the phone as it does not have the capabilities promised.

3
4 **MARYLAND**

5 130. Plaintiff **Kaitlyn DiFerdinando** is a citizen of Maryland at all relevant times. On
6 October 24, 2024, DiFerdinando purchased an iPhone 16 from an Apple Store in Towson, Maryland
7 for approximately \$799, after viewing pervasive advertisements for the new iPhone 16 series that
8 aired between Summer 2024 and prior to the date of purchase.

9 131. In particular, DiFerdinando recalls seeing and specifically relying on video
10 advertisements featuring Bella Ramsey interacting with an operable Enhanced Siri to help Ramsay
11 remember someone's name and multiple billboards advertising iPhone 16 with Apple Intelligence,
12 as well as other Apple advertisements marketing the iPhone 16's incorporation of Apple Intelligence,
13 the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining
14 innovation of the new iPhone series.

15 132. DiFerdinando reasonably interpreted the Apple Intelligence advertisements to mean
16 that the Class Devices would be equipped with Enhanced Siri and would have the advertised
17 functionalities, consistent with the widespread public understanding at the time based on Apple's
18 pervasive marketing campaign.

19 133. DiFerdinando believed Apple's advertisements regarding iPhone 16's Apple
20 Intelligence and Enhanced Siri to be truthful, and wanted to be one of the first owners of a
21 smartphone with an AI personal assistant. At the time of purchase, DiFerdinando no reason to believe
22 that Apple's advertisements were false, and did not notice any disclaimer, qualifier, or other
23 explanatory statement or information on the Class Devices' advertising and marketing that
24 contradicted her understanding that the iPhone 16 would be equipped with Enhanced Siri.

25 134. However, after purchasing and setting up her phone, DiFerdinando that the phone did
26 not have the promised features and is substantially inferior to what Apple advertised. Unbeknownst
27 to DiFerdinando, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities were
28 materially false and misleading including because the advertised advanced Siri has not yet been
developed and is not available on the iPhones. But for Apple's materially false and misleading

1 promotion of the iPhone 16, DiFerdinando would not have purchased her iPhone 16 or would have
2 paid significantly less for it. As a result of Apple's conduct, DiFerdinando has been injured through
3 purchase and overpayment for the phone as it does not have the capabilities promised.

4 135. Plaintiff **Henrietta Owusu** is a citizen of Maryland at all relevant times. In
5 September 2024, Owusu purchased an iPhone 16 Pro from an Apple Store in Columbia, Maryland,
6 after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer
7 2024 and prior to the date of purchase.

8 136. In particular, Owusu recalls seeing and specifically relying on Apple advertisements
9 marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was
10 Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new
11 iPhone series. Owusu additionally viewed and relied on promotional materials regarding iPhone 16's
12 Apple Intelligence and Enhanced Siri from iDrop News and during Apple's September 2024 iPhone
13 16 launch event.

14 137. Owusu reasonably interpreted the Apple Intelligence advertisements to mean that the
15 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
16 consistent with the widespread public understanding at the time based on Apple's pervasive
17 marketing campaign.

18 138. Owusu believed Apple's advertisements regarding iPhone 16's Apple Intelligence
19 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
20 AI personal assistant. At the time of purchase, Owusu had no reason to believe that Apple's
21 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
22 statement or information on the Class Devices' advertising and marketing that contradicted her
23 understanding that the iPhone 16 would be equipped with Enhanced Siri,

24 139. However, after purchasing and setting up her phone, Owusu discovered that the
25 phone did not have the promised features and is substantially inferior to what Apple advertised.
26 Unbeknownst to Owusu, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities
27 were materially false and misleading including because the advertised Enhanced Siri has not yet
28 been developed and is not available on the iPhones. But for Apple's materially false and misleading

1 promotion of the iPhone 16, Owusu would not have purchased her iPhone 16 or would have paid
2 significantly less for it. As a result of Apple's conduct, Owusu has been injured through purchase
3 and overpayment for the phone as it does not have the capabilities promised.

4 MASSACHUSETTS

5 140. Plaintiff **Lily Biagini** is a citizen of Massachusetts at all relevant times. On November
6 27, 2024, Biagini purchased an iPhone 16 from an Apple Store in Marlboro, Massachusetts for
7 approximately \$1,000 after viewing pervasive advertisements for the new iPhone 16 series that aired
8 between Summer 2024 and prior to the date of purchase.

9 141. In particular, Biagini specifically recalls seeing and specifically relying on Apple
10 advertisements on YouTube marketing Enhanced Siri and the iPhone 16's incorporation of Apple
11 Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant
12 and defining innovation of the new iPhone series.

13 142. Biagini reasonably interpreted the Apple Intelligence advertisements to mean that the
14 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
15 consistent with the widespread public understanding at the time based on Apple's pervasive
16 marketing campaign.

17 143. Biagini believed Apple's advertisements regarding iPhone 16's Apple Intelligence
18 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
19 AI personal assistant. At the time of purchase, Biagini had no reason to believe that Apple's
20 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
21 statement or information on the Class Devices' advertising and marketing that contradicted her
22 understanding that the iPhone 16 would be equipped with Enhanced Siri,

23 144. However, after purchasing and setting up her phone, Biagini discovered that the
24 phone did not have the promised features and is substantially inferior to what Apple advertised.
25 Unbeknownst to Biagini, Apple's statements regarding the iPhone 16's integrated Siri AI
26 capabilities were materially false and misleading including because the advertised Enhanced Siri has
27 not yet been developed and is not available on the iPhones. But for Apple's materially false and
28 misleading promotion of the iPhone 16, Biagini would not have purchased her iPhone 16 or would

1 have paid significantly less for it. As a result of Apple's conduct, Biagini has been injured through
2 purchase and overpayment for the phone as it does not have the capabilities promised.

3
4 **MICHIGAN**

5 145. Plaintiff **Hunter Morgan** is a citizen of Michigan at all relevant times. On September
6 20, 2024, Morgan purchased an iPhone 16 Pro Max from Spectrum Mobile online for approximately
7 \$1,199, after viewing pervasive advertisements for the new iPhone 16 series that aired between
8 Summer 2024 and prior to the date of purchase.

9 146. In particular, Morgan recalls seeing and specifically relying on advertisements that
10 highlighted an Enhanced Siri, as well as other Apple advertisements marketing the iPhone 16's
11 incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-
12 powered personal assistant and defining innovation of the new iPhone series.

13 147. Morgan reasonably interpreted the Apple Intelligence advertisements to mean that
14 the Class Devices would be equipped with Enhanced Siri and would have the advertised
15 functionalities, consistent with the widespread public understanding at the time based on Apple's
16 pervasive marketing campaign.

17 148. Morgan believed Apple's advertisements regarding iPhone 16's Apple Intelligence
18 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
19 AI personal assistant. At the time of purchase, Morgan had no reason to believe that Apple's
20 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
21 statement or information on the Class Devices' advertising and marketing that contradicted his
22 understanding that the iPhone 16 would be equipped with Enhanced Siri.

23 149. However, after purchasing and setting up his phone, Morgan discovered that the
24 phone did not have the promised features and is substantially inferior to what Apple advertised.
25 Unbeknownst to Morgan, Apple's statements regarding the iPhone 16's integrated Siri AI
26 capabilities were materially false and misleading including because the advertised Enhanced Siri has
27 not yet been developed and is not available on the iPhones. But for Apple's materially false and
28 misleading promotion of the iPhone 16, Morgan would not have purchased his iPhone 16 or would

1 have paid significantly less for it. As a result of Apple's conduct, Morgan has been injured through
2 purchase and overpayment for the phone as it does not have the capabilities promised.

3 **MINNESOTA**

4 150. Plaintiff **Jared Bukovich** is a citizen of Minnesota at all relevant times. On or about
5 September 20, 2024, Bukovich purchased an iPhone 16 Pro Max from Apple's online store for
6 approximately \$1,599, after viewing pervasive advertisements for the new iPhone 16 series that aired
7 between Summer 2024 and prior to the date of purchase.

8 151. In particular, Bukovich recalls seeing and specifically relying on Apple's video
9 advertisements including Apple's television commercial for Apple Intelligence featuring Bella
10 Ramsey interacting with an operable Enhanced Siri intelligently assisting with remembering
11 someone's name, as well as other Apple advertisements marketing the iPhone 16's incorporation of
12 Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal
13 assistant and defining innovation of the new iPhone series.

14 152. Bukovich reasonably interpreted the Apple Intelligence advertisements to mean that
15 the Class Devices would be equipped with Enhanced Siri and would have the advertised
16 functionalities, consistent with the widespread public understanding at the time based on Apple's
17 pervasive marketing campaign.

18 153. Bukovich believed Apple's advertisements regarding iPhone 16's Apple Intelligence
19 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
20 AI personal assistant. At the time of purchase, Bukovich had no reason to believe that Apple's
21 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
22 statement or information on the Class Devices' advertising and marketing that contradicted his
23 understanding that the iPhone 16 would be equipped with Enhanced Siri.

24 154. However, after purchasing and setting up his phone, Bukovich discovered that the
25 phone did not have the promised features and is substantially inferior to what Apple advertised.
26 Unbeknownst to Bukovich, Apple's statements regarding the iPhone 16's integrated Siri AI
27 capabilities were materially false and misleading including because the advertised advanced Siri has
28 not yet been developed and is not available on the iPhones. But for Apple's materially false and

1 misleading promotion of the iPhone 16, Bukovich would not have purchased his iPhone 16 or would
2 have paid significantly less for it. As a result of Apple's conduct, Bukovich has been injured through
3 purchase and overpayment for the phone as it does not have the capabilities promised.

4 155. Plaintiff **Michael Joseph Abata** is a citizen of Minnesota at all relevant times. On
5 October 6, 2024, Abata purchased an iPhone 16 Pro from Apple's online store for approximately
6 \$1,099 after viewing pervasive advertisements for the new iPhone 16 series that aired between
7 Summer 2024 and prior to the date of purchase.

8 156. In particular, Abata recalls seeing and specifically relying on Apple's social media
9 ads about its new artificial intelligence features, as well as Apple's representations at its 2024
10 WWDC describing Enhanced Siri's capabilities and other Apple advertisements marketing the
11 iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand
12 new AI-powered personal assistant and defining innovation of the new iPhone series.

13 157. Abata reasonably interpreted the Apple Intelligence advertisements to mean that the
14 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
15 consistent with the widespread public understanding at the time based on Apple's pervasive
16 marketing campaign.

17 158. Abata believed Apple's advertisements regarding iPhone 16's Apple Intelligence and
18 Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI
19 personal assistant. At the time of purchase, Abata had no reason to believe that Apple's
20 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
21 statement or information on the Class Devices' advertising and marketing that contradicted his
22 understanding that the iPhone 16 would be equipped with Enhanced Siri.

23 159. However, after purchasing and setting up his phone, Abata discovered that the phone
24 did not have the promised features and is substantially inferior to what Apple advertised.
25 Unbeknownst to Abata, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities
26 were materially false and misleading including because the advertised advanced Siri has not yet been
27 developed and is not available on the iPhones. But for Apple's materially false and misleading
28 promotion of the iPhone 16, Abata would not have purchased his iPhone 16 or would have paid

1 significantly less for it. As a result of Apple's conduct, Abata has been injured through purchase and
2 overpayment for the phone as it does not have the capabilities promised.

3 160. Plaintiff **Lloyd Hagemo** is a citizen of Minnesota at all relevant times. On November
4 4, 2024, Hagemo purchased an iPhone 16 Pro Max from an Apple Store in Edina, Minnesota for
5 approximately \$1,399.00, after viewing pervasive advertisements for the new iPhone 16 series that
6 aired between Summer 2024 and prior to the date of purchase.

7 161. In particular, Hagemo recalls seeing and specifically relying on Apple's commercials
8 regarding iPhone 16's Apple Intelligence and Enhanced Siri on television, Apple's in-store
9 advertisements for Apple Intelligence, as well as other Apple advertisements marketing the iPhone
10 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new
11 AI-powered personal assistant and defining innovation of the new iPhone series.

12 162. Hagemo reasonably interpreted the Apple Intelligence advertisements to mean that
13 the Class Devices would be equipped with Enhanced Siri and would have the advertised
14 functionalities, consistent with the widespread public understanding at the time based on Apple's
15 pervasive marketing campaign.

16 163. Hagemo believed Apple's advertisements regarding iPhone 16's Apple Intelligence
17 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
18 AI personal assistant. At the time of purchase, Hagemo had no reason to believe that Apple's
19 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
20 statement or information on the Class Devices' advertising and marketing that contradicted his
21 understanding that the iPhone 16 would be equipped with Enhanced Siri.

22 164. However, after purchasing and setting up his phone, Hagemo discovered that the
23 phone did not have the promised features and is substantially inferior to what Apple advertised.
24 Unbeknownst to Hagemo, Apple's statements regarding the iPhone 16's integrated Siri AI
25 capabilities were materially false and misleading including because the advertised Enhanced Siri has
26 not yet been developed and is not available on the iPhones. But for Apple's materially false and
27 misleading promotion of the iPhone 16, Hagemo would not have purchased his iPhone 16 or would
28

1 have paid significantly less for it. As a result of Apple's conduct, Hagemo has been injured through
2 purchase and overpayment for the phone as it does not have the capabilities promised.

3 **MISSISSIPPI**

4 165. Plaintiff **Olivia Joy Mitton** is a citizen of Mississippi at all relevant times. On or
5 about September 20, 2024, Mitton purchased an iPhone 16 Pro from AT&T's online store for
6 approximately \$1,099.99, after viewing pervasive advertisements for the new iPhone 16 series that
7 aired between Summer 2024 and prior to the date of purchase.

8 166. In particular, Mitton specifically recalls seeing and relying on Apple's advertisements
9 demonstrating Enhanced Siri's ability to act as a highly-personal and intelligent virtual assistant, as
10 well as other Apple advertisements marketing the iPhone 16's incorporation of Apple Intelligence,
11 the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining
12 innovation of the new iPhone series.

13 167. Mitton reasonably interpreted the Apple Intelligence advertisements to mean that the
14 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
15 consistent with the widespread public understanding at the time based on Apple's pervasive
16 marketing campaign.

17 168. Mitton believed Apple's advertisements regarding iPhone 16's Apple Intelligence
18 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
19 AI personal assistant. At the time of purchase, Mitton had no reason to believe that Apple's
20 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
21 statement or information on the Class Devices' advertising and marketing that contradicted her
22 understanding that the iPhone 16 would be equipped with Enhanced Siri.

23 169. However, after purchasing and setting up her phone, Mitton discovered that the phone
24 did not have the promised features and is substantially inferior to what Apple advertised.
25 Unbeknownst to Mitton, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities
26 were materially false and misleading including because the advertised advanced Siri has not yet been
27 developed and is not available on the iPhones. But for Apple's materially false and misleading
28 promotion of the iPhone 16, Mitton would not have purchased her iPhone 16 or would have paid

1 significantly less for it. As a result of Apple's conduct, Mitton has been injured through purchase
2 and overpayment for the phone as it does not have the capabilities promised.

3 MISSOURI

4 170. Plaintiff **David Freeman** is a citizen of Missouri at all relevant times. On or about
5 September 18, 2024, Freeman purchased an iPhone 16 from T-Mobile for approximately \$1,199.99,
6 after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer
7 2024 and prior to the date of purchase.

8 171. In particular, Freeman recalls seeing and specifically relying on the statements made
9 in Apple's 2024 WWDC highlighting capabilities of Apple Intelligence and Enhanced Siri, as well
10 as other Apple advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the
11 centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining
12 innovation of the new iPhone series.

13 172. Freeman reasonably interpreted the Apple Intelligence advertisements to mean that
14 the Class Devices would be equipped with Enhanced Siri and would have the advertised
15 functionalities, consistent with the widespread public understanding at the time based on Apple's
16 pervasive marketing campaign.

17 173. Freeman believed Apple's advertisements regarding iPhone 16's Apple Intelligence
18 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
19 AI personal assistant. At the time of purchase, Freeman had no reason to believe that Apple's
20 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
21 statement or information on the Class Devices' advertising and marketing that contradicted his
22 understanding that the iPhone 16 would be equipped with Enhanced Siri.

23 174. However, after purchasing and setting up his phone, Freeman discovered that the
24 phone did not have the promised features and is substantially inferior to what Apple advertised.
25 Unbeknownst to Freeman, Apple's statements regarding the iPhone 16's integrated Siri AI
26 capabilities were materially false and misleading including because the advertised advanced Siri has
27 not yet been developed and is not available on the iPhones. But for Apple's materially false and
28 misleading promotion of the iPhone 16, Freeman would not have purchased his iPhone 16 or would

1 have paid significantly less for it. As a result of Apple's conduct, Freeman has been injured through
2 purchase and overpayment for the phone as it does not have the capabilities promised.

3 175. Plaintiff **Ronald Zemke** is a citizen of Missouri at all relevant times. On September
4 14, 2024, Zemke purchased an iPhone 16 Pro Max from a T-Mobile kiosk at Costco, after viewing
5 pervasive advertisements for the new iPhone 16 series that aired between Summer 2024 and prior to
6 the date of purchase.

7 176. In particular, Zemke recalls seeing and specifically relying on Apple's
8 representations regarding Apple Intelligence and Enhanced Siri at Apple's 2024 WWDC, as well as
9 other Apple advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the
10 centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining
11 innovation of the new iPhone series.

12 177. Zemke reasonably interpreted the Apple Intelligence advertisements to mean that the
13 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
14 consistent with the widespread public understanding at the time based on Apple's pervasive
15 marketing campaign.

16 178. Zemke believed Apple's advertisements regarding iPhone 16's Apple Intelligence
17 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
18 AI personal assistant. At the time of purchase, Zemke had no reason to believe that Apple's
19 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
20 statement or information on the Class Devices' advertising and marketing that contradicted his
21 understanding that the iPhone 16 would be equipped with Enhanced Siri.

22 179. However, after purchasing and setting up his phone, Zemke discovered that the phone
23 did not have the promised features and is substantially inferior to what Apple advertised.
24 Unbeknownst to Zemke, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities
25 were materially false and misleading including because the advertised advanced Siri has not yet been
26 developed and is not available on the iPhones. But for Apple's materially false and misleading
27 promotion of the iPhone 16, Zemke would not have purchased his iPhone 16 or would have paid
28

1 significantly less for it. As a result of Apple's conduct, Zemke has been injured through purchase
2 and overpayment for the phone as it does not have the capabilities promised.

3 180. Plaintiff **Michael Wood** is a citizen of Missouri at all relevant times. On September
4 13, 2024, Wood preordered an iPhone 16 Plus from Apple for approximately \$1,029.00, after
5 viewing pervasive advertisements for the new iPhone 16 series that aired between Summer 2024 and
6 prior to the date of purchase.

7 181. In particular, Wood recalls seeing and specifically relying on the Apple WWDC
8 conference 2024 on YouTube depicting the next iPhone Apple Intelligence capabilities, including
9 Enhanced Siri, and later advertisements that the iPhone 16 would be equipped with Apple
10 Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant
11 and defining innovation of the new iPhone series.

12 182. Wood reasonably interpreted the Apple Intelligence advertisements to mean that the
13 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
14 consistent with the widespread public understanding at the time based on Apple's pervasive
15 marketing campaign.

16 183. Wood believed Apple's advertisements regarding iPhone 16's Apple Intelligence and
17 Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI
18 personal assistant. At the time of purchase, Wood had no reason to believe that Apple's
19 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
20 statement or information on the Class Devices' advertising and marketing that contradicted his
21 understanding that the iPhone 16 would be equipped with Enhanced Siri.

22 184. However, after purchasing and setting up his phone, Wood discovered that the phone
23 did not have the promised features and is substantially inferior to what Apple advertised.
24 Unbeknownst to Wood, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities
25 were materially false and misleading including because the advertised Enhanced Siri has not yet
26 been developed and is not available on the iPhones. But for Apple's materially false and misleading
27 promotion of the iPhone 16, Wood would not have purchased his iPhone 16 or would have paid
28

1 significantly less for it. As a result of Apple's conduct, Wood has been injured through purchase and
2 overpayment for the phone as it does not have the capabilities promised.

3 185. Plaintiff **Mark Adams** is a citizen of Missouri at all relevant times. On September
4 13, 2024, Adams preordered an iPhone 16 Plus from Apple online for approximately \$1,029.00,
5 after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer
6 2024 and prior to the date of purchase.

7 186. In particular, Adams recalls seeing and specifically relying on the representations
8 made in Apple's 2024 WWDC highlighting Enhanced Siri, a commercial featuring Bella Ramsey's
9 use of iPhone 16 that demonstrated Enhanced Siri's capabilities such as viewing and performing
10 tasks across multiple applications and helping Ramsey recall the name of someone they had met, as
11 well as other Apple advertisements marketing the iPhone 16's incorporation of Apple Intelligence,
12 the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining
13 innovation of the new iPhone series.

14 187. Adams reasonably interpreted the Apple Intelligence advertisements to mean that the
15 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
16 consistent with the widespread public understanding at the time based on Apple's pervasive
17 marketing campaign.

18 188. Adams believed Apple's advertisements regarding iPhone 16's Apple Intelligence
19 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
20 AI personal assistant. At the time of purchase, Adams had no reason to believe that Apple's
21 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
22 statement or information on the Class Devices' advertising and marketing that contradicted his
23 understanding that the iPhone 16 would be equipped with Enhanced Siri.

24 189. However, after purchasing and setting up his phone, Adams discovered that the phone
25 did not have the promised features and is substantially inferior to what Apple advertised.
26 Unbeknownst to Adams, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities
27 were materially false and misleading including because the advertised advanced Siri has not yet been
28 developed and is not available on the iPhones. But for Apple's materially false and misleading

1 promotion of the iPhone 16, Adams would not have purchased his iPhone 16 or would have paid
2 significantly less for it. As a result of Apple's conduct, Adams has been injured through purchase
3 and overpayment for the phone as it does not have the capabilities promised.

4 MONTANA

5 190. Plaintiff **Jennifer Conway** is a citizen of Montana at all relevant times. In September
6 2024, Conway purchased an iPhone 16 Plus from T-Mobile's online store, after viewing pervasive
7 advertisements for the new iPhone 16 series that aired between Summer 2024 and prior to the date
8 of purchase.

9 191. In particular, Conway recalls seeing and specifically relying on Apple's
10 advertisements for the iPhone 16 on social media, as well as other Apple advertisements marketing
11 the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a
12 brand new AI-powered personal assistant and defining innovation of the new iPhone series.

13 192. Conway reasonably interpreted the Apple Intelligence advertisements to mean that
14 the Class Devices would be equipped with Enhanced Siri and would have the advertised
15 functionalities, consistent with the widespread public understanding at the time based on Apple's
16 pervasive marketing campaign.

17 193. Conway believed Apple's advertisements regarding iPhone 16's Apple Intelligence
18 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
19 AI personal assistant. At the time of purchase, Conway had no reason to believe that Apple's
20 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
21 statement or information on the Class Devices' advertising and marketing that contradicted her
22 understanding that the iPhone 16 would be equipped with Enhanced Siri.

23 194. However, after purchasing and setting up her phone, Conway discovered that the
24 phone did not have the promised features and is substantially inferior to what Apple advertised.
25 Unbeknownst to Conway, Apple's statements regarding the iPhone 16's integrated Siri AI
26 capabilities were materially false and misleading including because the advertised Enhanced Siri has
27 not yet been developed and is not available on the iPhones. But for Apple's materially false and
28 misleading promotion of the iPhone 16, Conway would not have purchased her iPhone 16 or would

1 have paid significantly less for it. As a result of Apple's conduct, Conway has been injured through
2 purchase and overpayment for the phone as it does not have the capabilities promised.

3 **NEBRASKA**

4 195. Plaintiff **Mary L. Ryan** is a citizen of Nebraska at all relevant times. On October 12,
5 2024, Ryan purchased an iPhone 16 Plus from an Apple Store in Omaha, Nebraska for approximately
6 \$929.00, after viewing pervasive advertisements for the new iPhone 16 series that aired between
7 Summer 2024 and prior to the date of purchase.

8 196. In particular, Ryan recalls seeing and specifically relying on television
9 advertisements demonstrating Apple's new artificial intelligence features, Enhanced Siri's highly
10 advanced ability to recall personalized information across multiple apps in order to answer detailed
11 questions, as well as other Apple advertisements marketing the iPhone 16's incorporation of Apple
12 Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant
13 and defining innovation of the new iPhone series.

14 197. Ryan reasonably interpreted the Apple Intelligence advertisements to mean that the
15 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
16 consistent with the widespread public understanding at the time based on Apple's pervasive
17 marketing campaign.

18 198. Ryan believed Apple's advertisements regarding iPhone 16's Apple Intelligence and
19 Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI
20 personal assistant. At the time of purchase, Ryan had no reason to believe that Apple's
21 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
22 statement or information on the Class Devices' advertising and marketing that contradicted her
23 understanding that the iPhone 16 would be equipped with Enhanced Siri.

24 199. However, after purchasing and setting up her phone, Ryan discovered that the phone
25 did not have the promised features and is substantially inferior to what Apple advertised.
26 Unbeknownst to Ryan, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities
27 were materially false and misleading including because the advertised advanced Siri has not yet been
28 developed and is not available on the iPhones. But for Apple's materially false and misleading

1 promotion of the iPhone 16, Ryan would not have purchased her iPhone 16 or would have paid
2 significantly less for it. As a result of Apple's conduct, Ryan has been injured through purchase and
3 overpayment for the phone as it does not have the capabilities promised.

4 **NEVADA**

5 200. Plaintiff **John Wells** is a citizen of Nevada at all relevant times. On or about
6 December 31, 2024, Wells purchased an iPhone 16 Plus from a Best Buy store in Las Vegas, Nevada
7 for \$929.99, after viewing pervasive advertisements for the new iPhone 16 series that aired between
8 Summer 2024 and prior to the date of purchase.

9 201. In particular, Wells recalls seeing and specifically relying on Apple advertisements
10 on YouTube and on billboards claiming that Enhanced Siri would be able to process personal
11 information and complete advanced commands across a series of applications, as well as other Apple
12 advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of
13 which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the
14 new iPhone series.

15 202. Wells reasonably interpreted the Apple Intelligence advertisements to mean that the
16 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
17 consistent with the widespread public understanding at the time based on Apple's pervasive
18 marketing campaign.

19 203. Wells believed Apple's advertisements regarding iPhone 16's Apple Intelligence and
20 Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI
21 personal assistant. At the time of purchase, Wells had no reason to believe that Apple's
22 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
23 statement or information on the Class Devices' advertising and marketing that contradicted his
24 understanding that the iPhone 16 would be equipped with Enhanced Siri.

25 204. However, after purchasing and setting up his phone, Wells discovered that the phone
26 did not have the promised features and is substantially inferior to what Apple advertised.
27 Unbeknownst to Wells, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities
28 were materially false and misleading including because the advertised advanced Siri has not yet been

1 developed and is not available on the iPhones. But for Apple's materially false and misleading
2 promotion of the iPhone 16, Wells would not have purchased his iPhone 16 or would have paid
3 significantly less for it. As a result of Apple's conduct, Wells has been injured through purchase and
4 overpayment for the phone as it does not have the capabilities promised.

5 205. Plaintiff **Michael Accardi** is a citizen of Nevada at all relevant times. On or about
6 January 3, 2025, Accardi purchased an iPhone 16, from Optimum Mobile for \$799.00, after viewing
7 pervasive advertisements for the new iPhone 16 series that aired between Summer 2024 and prior to
8 the date of purchase.

9 206. In particular, Accardi recalls and specifically relied on Apple advertisements
10 emphasizing the advanced capabilities of Enhanced Siri.

11 207. Accardi reasonably interpreted the advertisements to mean that the Class Devices
12 would be equipped with Enhanced Siri, and would have the advertised functionalities, consistent
13 with the widespread public understanding at the time based on Apple's pervasive marketing
14 campaign.

15 208. Accardi believed Apple's advertisements regarding Apple Intelligence and Enhanced
16 Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI personal
17 assistant. At the time of purchase, Accardi had no reason to believe that Apple's advertisements were
18 false, and did not notice any disclaimer, qualifier, or other explanatory statement or information on
19 the Class Devices' advertising and marketing that contradicted his understanding that the iPhone 16
20 would be equipped with Enhanced Siri.

21 209. However, after purchasing and setting up his phone, Accardi discovered that the
22 phone did not have the promised features and is substantially inferior to what Apple advertised.
23 Unbeknownst to Accardi, Apple's statements regarding the Siri AI capabilities were materially false
24 and misleading including because the advertised advanced Siri has not yet been developed and is
25 not available on the iPhones. But for Apple's materially false and misleading promotion of the
26 iPhone 16, Accardi would not have purchased his iPhone 16 or would have paid significantly less
27 for it. As a result of Apple's conduct, Accardi has been injured through purchase and overpayment
28 for the phone as it does not have the capabilities promised.

NEW HAMPSHIRE

210. Plaintiff **William Passmore** is a citizen of New Hampshire at all relevant times. On September 30, 2024, Passmore purchased an iPhone 16 Pro from an Apple Store in Salem, New Hampshire for approximately \$1,499.00, after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer 2024 and prior to the date of purchase.

211. In particular, Passmore recalls seeing and specifically relying on Apple's keynote presentations at WWDC 2024 and the iPhone 16 launch featuring Enhanced Siri, as well as other Apple advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new iPhone series.

212. Passmore reasonably interpreted the Apple Intelligence advertisements to mean that the Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities, consistent with the widespread public understanding at the time based on Apple's pervasive marketing campaign.

213. Passmore believed Apple's advertisements regarding iPhone 16's Apple Intelligence and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI personal assistant. At the time of purchase, Passmore had no reason to believe that Apple's advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory statement or information on the Class Devices' advertising and marketing that contradicted his understanding that the iPhone 16 would be equipped with Enhanced Siri.

214. However, after purchasing and setting up his phone, Passmore discovered that the phone did not have the promised features and is substantially inferior to what Apple advertised. Unbeknownst to Passmore, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities were materially false and misleading including because the advertised advanced Siri has not yet been developed and is not available on the iPhones. But for Apple's materially false and misleading promotion of the iPhone 16, Passmore would not have purchased his iPhone 16 or would have paid significantly less for it. As a result of Apple's conduct, Passmore has been injured through purchase and overpayment for the phone as it does not have the capabilities promised.

NEW JERSEY

215. Plaintiff **Esther Woory Choi** is a citizen of New Jersey at all relevant times. On November 16, 2024, Choi purchased an iPhone 16 from her phone carrier, T-Mobile, in Orange, New Jersey for approximately \$829.99 after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer 2024 and prior to the date of purchase.

216. In particular, Choi recalls seeing and specifically relying on Apple advertisements on social media and in the T-Mobile store highlighting the iPhone 16's new artificial intelligence features, as well as other Apple advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new iPhone series. These advertisements prompted her to upgrade her phone earlier than she otherwise would have.

217. Choi reasonably interpreted the Apple Intelligence advertisements to mean that the Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities, consistent with the widespread public understanding at the time based on Apple's pervasive marketing campaign.

218. Choi believed Apple's advertisements regarding iPhone 16's Apple Intelligence and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI personal assistant. At the time of purchase, Choi had no reason to believe that Apple's advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory statement or information on the Class Devices' advertising and marketing that contradicted her understanding that the iPhone 16 would be equipped with Enhanced Siri.

219. However, after purchasing and setting up her phone, Choi discovered that the phone did not have the promised features and is substantially inferior to what Apple advertised. Unbeknownst to Choi, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities were materially false and misleading including because the advertised advanced Siri has not yet been developed and is not available on the iPhones. But for Apple's materially false and misleading promotion of the iPhone 16, Choi would not have purchased her iPhone 16 or would have paid

1 significantly less for it. As a result of Apple's conduct, Choi has been injured through purchase and
2 overpayment for the phone as it does not have the capabilities promised.

3 220. Plaintiff **Drew Franklin** is a citizen of New Jersey at all relevant times. On or about
4 September 13, 2024, Franklin pre-ordered an iPhone 16 Pro from Apple's online store for
5 approximately \$1,099 after viewing pervasive advertisements for the new iPhone 16 series that aired
6 between Summer 2024 and prior to the date of purchase.

7 221. In particular, Franklin recalls seeing and specifically relying on Apple's
8 representations regarding the iPhone 16, specifically related to its artificial intelligence capabilities
9 and Enhanced Siri, made during the series 16 launch event on September 9, 2024 and in an Apple
10 Newsroom press release titled "Introducing Apple Intelligence" published the same day, which
11 featured Enhanced Siri capabilities.

12 222. Franklin also recalls relying on a multitude of additional Apple advertisements
13 marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was
14 Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new
15 iPhone series.

16 223. Franklin reasonably interpreted the Apple Intelligence advertisements to mean that
17 the Class Devices would be equipped with Enhanced Siri and would have the advertised
18 functionalities, consistent with the widespread public understanding at the time based on Apple's
19 pervasive marketing campaign.

20 224. Franklin believed Apple's advertisements regarding iPhone 16's Apple Intelligence
21 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
22 AI personal assistant. At the time of purchase, Franklin had no reason to believe that Apple's
23 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
24 statement or information on the Class Devices' advertising and marketing that contradicted his
25 understanding that the iPhone 16 would be equipped with Enhanced Siri.

26 225. However, after purchasing and setting up his phone, Franklin discovered that the
27 phone did not have the promised features and is substantially inferior to what Apple advertised.
28 Unbeknownst to Franklin, Apple's statements regarding the iPhone 16's integrated Siri AI

1 capabilities were materially false and misleading including because the advertised advanced Siri has
2 not yet been developed and is not available on the iPhones. But for Apple's materially false and
3 misleading promotion of the iPhone 16, Franklin would not have purchased his iPhone 16 or would
4 have paid significantly less for it. As a result of Apple's conduct, Franklin has been injured through
5 purchase and overpayment for the phone as it does not have the capabilities promised.

6 226. Plaintiff **Marc Case** is a citizen of New Jersey at all relevant times. On October 2,
7 2024, Case purchased an iPhone 16 Pro Max from an Apple Store in Freehold, New Jersey for
8 approximately \$1,199.00, after viewing pervasive advertisements for the new iPhone 16 series that
9 aired between Summer 2024 and prior to the date of purchase.

10 227. In particular, Case recalls seeing and specifically relying on representations made
11 during Apple's 2024 WWDC regarding Enhanced Siri, as well as other subsequent Apple
12 advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of
13 which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the
14 new iPhone series.

15 228. Case reasonably interpreted the Apple Intelligence advertisements to mean that the
16 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
17 consistent with the widespread public understanding at the time based on Apple's pervasive
18 marketing campaign.

19 229. Case believed Apple's advertisements regarding iPhone 16's Apple Intelligence and
20 Enhanced Siri to be truthful. At the time of purchase, Case had no reason to believe that Apple's
21 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
22 statement or information on the Class Devices' advertising and marketing that contradicted his
23 understanding that the iPhone 16 would be equipped with the Enhanced Siri.

24 230. However, after purchasing and setting up his phone, Case discovered that the phone
25 did not have the promised features and is substantially inferior to what Apple advertised.
26 Unbeknownst to Case, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities
27 were materially false and misleading including because the advertised advanced Siri has not yet been
28 developed and is not available on the iPhone. But for Apple's materially false and misleading

1 promotion of the iPhone 16, Case would not have purchased his iPhone 16 or would have paid
2 significantly less for it. As a result of Apple's conduct, Case has been injured through purchase and
3 overpayment for the phone as it does not have the capabilities promised.

4 231. Plaintiff **Sam Leone** is a citizen of New Jersey at all relevant times. On September
5 13, 2024, Leone preordered an iPhone 16 Pro online from Verizon, after viewing pervasive
6 advertisements that aired between Summer 2024 and prior to the date of purchase.

7 232. In particular, Leone recalls seeing and specifically relying on representations made
8 during Apple's 2024 WWDC regarding artificial intelligence functions that would enable Siri to
9 complete advanced tasks across multiple applications, Apple's representations as to Enhanced Siri
10 during the September 2024 series 16 launch event, as well as other Apple advertisements marketing
11 the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a
12 brand new AI-powered personal assistant and defining innovation of the new iPhone series.

13 233. Leone reasonably interpreted the Apple Intelligence advertisements to mean that the
14 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
15 consistent with the widespread public understanding at the time based on Apple's pervasive
16 marketing campaign.

17 234. Leone believed Apple's advertisements regarding iPhone 16's Apple Intelligence and
18 Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI
19 personal assistant. At the time of purchase, Leone had no reason to believe that Apple's
20 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
21 statement or information on the Class Devices' advertising and marketing that contradicted his
22 understanding that the iPhone 16 would be equipped with Enhanced Siri.

23 235. However, after purchasing and setting up his phone, Leone discovered that the phone
24 did not have the promised features and is substantially inferior to what Apple advertised.
25 Unbeknownst to Leone, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities
26 were materially false and misleading including because the advertised advanced Siri has not yet been
27 developed and is not available on the iPhones. But for Apple's materially false and misleading
28 promotion of the iPhone 16, Leone would have paid significantly less for it. As a result of Apple's

1 conduct, Leone has been injured through purchase and overpayment for the phone as it does not
2 have the capabilities promised.

3 236. Plaintiff **Grace Kim** is a citizen of New Jersey at all relevant times. On or around
4 September 23, 2024, Kim purchased an iPhone 16 Pro from AT&T's online store for approximately
5 \$1,100, after viewing pervasive advertisements for the new iPhone 16 series that aired between
6 Summer 2024 and prior to the date of purchase.

7 237. In particular, Kim recalls seeing and specifically relying on Apple's representations
8 at its 2024 WWDC about advanced artificial intelligence functions, including Enhanced Siri, as well
9 as other later advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the
10 centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining
11 innovation of the new iPhone series.

12 238. Kim reasonably interpreted the Apple Intelligence advertisements to mean that the
13 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
14 consistent with the widespread public understanding at the time based on Apple's pervasive
15 marketing campaign.

16 239. Kim believed Apple's advertisements regarding iPhone 16's Apple Intelligence and
17 Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI
18 personal assistant. At the time of purchase, Kim had no reason to believe that Apple's advertisements
19 were false, and did not notice any disclaimer, qualifier, or other explanatory statement or information
20 on the Class Devices advertising and marketing that contradicted her understanding that the iPhone
21 16 would be equipped with Enhanced Siri.

22 240. However, after purchasing and setting up her phone, Kim that the phone did not have
23 the promised features and is substantially inferior to what Apple advertised. Unbeknownst to Kim,
24 Apple's statements regarding the iPhone 16's integrated Siri AI capabilities were materially false
25 and misleading including because the advertised advanced Siri has not yet been developed and is
26 not available on the iPhones. But for Apple's materially false and misleading promotion of the
27 iPhone 16, Kim would not have purchased her iPhone 16 or would have paid significantly less for
28

1 it. As a result of Apple's conduct, Kim has been injured through purchase and overpayment for the
2 phone as it did does not have the capabilities promised.

3 241. Plaintiff **Amanda Marrocco** is a citizen of New Jersey at all relevant times. On
4 January 8, 2025, Marrocco purchased an iPhone 16 Pro Max from an Apple store in Cherry Hill,
5 New Jersey, for approximately \$1,199 after viewing pervasive advertisements for the new iPhone
6 16 series that aired between Summer 2024 and prior to the date of purchase.

7 242. In particular, Marrocco specifically recalls seeing and relying on Apple
8 advertisements on social media, news articles regarding Apple's WWDC, as well as other Apple
9 advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of
10 which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the
11 new iPhone series.

12 243. Marrocco reasonably interpreted the advertisements to mean that the Class Devices
13 would be equipped with Enhanced Siri and would have the advertised functionalities.

14 244. Marrocco believed Apple's advertisements regarding iPhone 16's Apple Intelligence
15 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
16 AI powered personal assistant. At the time of purchase, Marrocco had no reason to believe that
17 Apple's advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
18 statement or information on the Class Devices' advertising and marketing that contradicted her
19 understanding that the iPhone 16 would be equipped with the advanced Siri.

20 245. However, after purchasing and setting up her phone, Marrocco discovered that the
21 phone did not have the promised features and is substantially inferior to what Apple advertised.
22 Unbeknownst to Marrocco, Apple's statements regarding the iPhone 16's integrated Siri AI
23 capabilities were materially false and misleading because the advertised advanced Siri has not yet
24 been developed and is not available on the iPhone 16. But for Apple's materially false and
25 misleading promotion of the iPhone 16, Marrocco would not have purchased her iPhone 16 or would
26 have paid significantly less for it. As a result of Apple's conduct, Marrocco has been injured through
27 purchase and overpayment for the phone as it does not have the capabilities promised.

NEW MEXICO

246. Plaintiff **Derrick Wallace** is a citizen of New Mexico at all relevant times. On September 26, 2024, Wallace purchased an iPhone 16 Pro Max from his carrier, FirstNet, in-store in Pueblo, Colorado for approximately \$1,200 after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer 2024 and prior to the date of purchase.

247. In particular, Wallace recalls seeing and specifically relying on Apple's TV and social media advertisements concerning the iPhone 16, as well as representations Apple made during its 2024 WWDC featuring Enhanced Siri, as well as other Apple advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new iPhone series.

248. Wallace reasonably interpreted the Apple Intelligence advertisements to mean that the Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities, consistent with the widespread public understanding at the time based on Apple's pervasive marketing campaign.

249. Wallace believed Apple's advertisements regarding iPhone 16's Apple Intelligence and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI personal assistant. At the time of purchase, Wallace had no reason to believe that Apple's advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory statement or information on the Class Devices' advertising and marketing that contradicted his understanding that the iPhone 16 would be equipped with Enhanced Siri.

250. However, after purchasing and setting up his phone, Wallace discovered that the phone did not have the promised features and is substantially inferior to what Apple advertised. Unbeknownst to Wallace, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities were materially false and misleading including because the advertised advanced Siri has not yet been developed and is not available on the iPhones. But for Apple's materially false and misleading promotion of the iPhone 16s, Wallace would not have purchased his iPhone 16 or would have paid significantly less for it. As a result of Apple's conduct, Wallace has been injured through purchase and overpayment for the phone as it does not have the capabilities promised.

NEW YORK

251. Plaintiff **Christian Varbanovski** is a citizen of New York at all relevant times. On September 20, 2024, Varbanovski purchased an iPhone 16 Pro from the Apple Store in New York County, New York for approximately \$1,414.29, after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer 2024 and prior to the date of purchase.

252. In particular, Varbanovski recalls seeing and specifically relying on the Apple's promise that the iPhone 16 was "built for Apple Intelligence," a large billboard by his apartment which read "Hello Apple Intelligence," as well as other Apple advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new iPhone series.

253. Varbanovski reasonably interpreted the Apple Intelligence advertisements to mean that the Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities, consistent with the widespread public understanding at the time based on Apple's pervasive marketing campaign.

254. Varbanovski believed Apple's advertisements regarding iPhone 16's Apple Intelligence and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI personal assistant. At the time of purchase, Varbanovski had no reason to believe that Apple's advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory statement or information on the Class Devices' advertising and marketing that contradicted his understanding that the iPhone 16 would be equipped with Enhanced Siri.

255. However, after purchasing and setting up his phone, Varbanovski discovered that the phone did not have the promised features and is substantially inferior to what Apple advertised. Unbeknownst to Varbanovski, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities were materially false and misleading including because the advertised advanced Siri has not yet been developed and is not available on the iPhones. But for Apple's materially false and misleading promotion of the iPhone 16, Varbanovski would not have purchased his iPhone 16 or would have paid significantly less for it. As a result of Apple's conduct, Varbanovski has been

1 injured through purchase and overpayment for the phone as it does not have the capabilities
2 promised.

3 256. Plaintiff **Margot Robinson** is a citizen of New York at all relevant times. On
4 September 21, 2024, Robinson purchased, through financing, an iPhone 16 from a Verizon store in
5 Northport, New York for approximately \$1,111, after viewing pervasive advertisements for the new
6 iPhone 16 series that aired between Summer 2024 and prior to the date of purchase.

7 257. In particular, Robinson recalls seeing and specifically relying on advertisements on
8 Apple's website demonstrating that, with Apple Intelligence, the new, personalized Enhanced Siri
9 could extract information from across multiple apps on the iPhone 16, as well as other Apple
10 advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of
11 which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the
12 new iPhone series.

13 258. Robinson reasonably interpreted the Apple Intelligence advertisements to mean that
14 the Class Devices would be equipped with Enhanced Siri and would have the advertised
15 functionalities, consistent with the widespread public understanding at the time based on Apple's
16 pervasive marketing campaign.

17 259. Robinson believed Apple's advertisements regarding iPhone 16's Apple Intelligence
18 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
19 AI personal assistant. At the time of purchase, Robinson had no reason to believe that Apple's
20 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
21 statement or information on the Class Devices' advertising and marketing that contradicted her
22 understanding that the iPhone 16 would be equipped with Enhanced Siri.

23 260. However, after purchasing and setting up her phone, Robinson discovered that the
24 phone did not have the promised features and is substantially inferior to what Apple advertised.
25 Unbeknownst to Robinson, Apple's statements regarding the iPhone 16's integrated Siri AI
26 capabilities were materially false and misleading including because the advertised advanced Siri has
27 not yet been developed and is not available on the iPhones. But for Apple's materially false and
28 misleading promotion of the iPhone 16, Robinson would not have purchased her iPhone 16 or would

1 have paid significantly less for it. As a result of Apple's conduct, Robinson has been injured through
2 purchase and overpayment for the phone as it does not have the capabilities promised.

3 261. Plaintiff **Brian Beach** is a citizen of New York at all relevant times. On or around
4 January 28, 2025, Beach purchased an iPhone 16 Pro from a T-Mobile store in New York for
5 approximately \$999 after viewing pervasive advertisements for the new iPhone 16 series that aired
6 between Summer 2024 and prior to the date of purchase.

7 262. In particular, Beach recalls seeing and specifically relying on Apple's advertisements
8 for Apple Intelligence and the iPhone 16 in various places, including television and social media.
9 Beach relied on advertisements that demonstrated that the new iPhone 16, with the Enhanced Siri
10 features, could act as a personal assistant, capable of scheduling appointments and performing other
11 complicated tasks across multiple apps, as well as other Apple advertisements which marketed the
12 iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand
13 new AI-powered personal assistant and defining innovation of the new iPhone series.

14 263. Beach reasonably interpreted the advertisements to mean that the Class Devices
15 would be equipped with Enhanced Siri and would have the advertised functionalities.

16 264. Beach believed Apple's advertisements regarding iPhone 16's Apple Intelligence and
17 Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI
18 powered personal assistant. At the time of purchase, Beach had no reason to believe that Apple's
19 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
20 statement or information on the Class Devices' advertising and marketing that contradicted his
21 understanding that the iPhone 16 would be equipped with the advanced Siri.

22 265. However, after purchasing and setting up his phone, Beach discovered that the phone
23 did not have the promised features and is substantially inferior to what Apple advertised.
24 Unbeknownst to Beach, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities
25 were materially false and misleading including because the advertised advanced Siri has not yet been
26 developed and is not available on the iPhone 16. But for Apple's materially false and misleading
27 promotion of the iPhone 16, Beach would not have purchased his iPhone 16 or would have paid
28

1 significantly less for it. As a result of Apple's conduct, Beach has been injured through purchase and
2 overpayment for the phone as it does not have the capabilities promised.

3 266. Plaintiff **Mario Silva** is a citizen of New York at all relevant times. On December
4 13, 2024, Silva purchased an iPhone 16 Pro through Apple's online store for approximately \$1,099
5 after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer
6 2024 and prior to the date of purchase.

7 267. In particular, Silva specifically recalls seeing and relying on Apple's advertisements
8 on social media, Apple's website, and "Apple Day" highlighting the iPhone 16's new artificial
9 intelligence capabilities, as well as other Apple advertisements marketing the iPhone 16's
10 incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-
11 powered personal assistant and defining innovation of the new iPhone series.

12 268. Silva reasonably interpreted the advertisements to mean that the Class Devices would
13 be equipped with Enhanced Siri and would have the advertised functionalities.

14 269. Silva believed Apple's advertisements regarding iPhone 16's Apple Intelligence and
15 Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI
16 powered personal assistant. At the time of purchase, Silva had no reason to believe that Apple's
17 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
18 statement or information on the Class Devices' advertising and marketing that contradicted his
19 understanding that the iPhone 16 would be equipped with the advanced Siri.

20 270. However, after purchasing and setting up his phone, Silva discovered that the phone
21 did not have the promised features and is substantially inferior to what Apple advertised.
22 Unbeknownst to Silva, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities
23 were materially false and misleading including because the advertised advanced Siri has not yet been
24 developed and is not available on the iPhone 16. But for Apple's materially false and misleading
25 promotion of the iPhone 16 Apple Intelligence AI-enabled features, Silva would not have purchased
26 his iPhone 16 or would have paid significantly less for it. As a result of Apple's conduct, Silva has
27 been injured through purchase and overpayment for the phone as it does not have the capabilities
28 promised.

NORTH CAROLINA

271. Plaintiff **Mariah L. Nelson** is a citizen of North Carolina at all relevant times. On October 29, 2024, Nelson purchased an iPhone 16 from AT&T's online store for approximately \$1,199.99, through financing, after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer 2024 and prior to the date of purchase.

272. In particular, Nelson recalls seeing and specifically relying on Apple's advertising regarding Enhanced Siri including representations Apple made at the 2024 WWDC, as well as other Apple advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new iPhone series.

273. Nelson reasonably interpreted the Apple Intelligence advertisements to mean that the Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities, consistent with the widespread public understanding at the time based on Apple's pervasive marketing campaign.

274. Nelson believed Apple's advertisements regarding iPhone 16's Apple Intelligence and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI personal assistant. At the time of purchase, Nelson had no reason to believe that Apple's advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory statement or information on the Class Devices' advertising and marketing that contradicted her understanding that the iPhone 16 would be equipped with Enhanced Siri.

275. However, after purchasing and setting up her phone, Nelson discovered that the phone did not have the promised features and is substantially inferior to what Apple advertised. Unbeknownst to Nelson, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities were materially false and misleading including because the advertised advanced Siri has not yet been developed and is not available on the iPhones. But for Apple's materially false and misleading promotion of the iPhone 16, Nelson would not have purchased her iPhone 16 or would have paid significantly less for it. As a result of Apple's conduct, Nelson has been injured through purchase and overpayment for the phone as it does not have the capabilities promised.

1 276. Plaintiff **Frank Gray Stevenson, Jr.** is a citizen of North Carolina at all relevant
2 times. On September 19, 2024, Stevenson purchased an iPhone 16 Pro from the Apple Store (online)
3 for approximately \$1,148.00, after viewing pervasive advertisements for the new iPhone 16 series
4 that aired between Summer 2024 and prior to the date of purchase.

5 277. In particular, Stevenson recalls seeing and specifically relying on Apple ads he saw
6 on streaming media platforms & social media (TikTok & Instagram) featuring Enhanced Siri as well
7 as other Apple advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the
8 centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining
9 innovation of the new iPhone series.

10 278. Stevenson reasonably interpreted the Apple Intelligence advertisements to mean that
11 the Class Devices would be equipped with Enhanced Siri and would have the advertised
12 functionalities, consistent with the widespread public understanding at the time based on Apple's
13 pervasive marketing campaign.

14 279. Stevenson believed Apple's advertisements regarding iPhone 16's Apple Intelligence
15 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
16 AI personal assistant. At the time of purchase, Stevenson had no reason to believe that Apple's
17 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
18 statement or information on the Class Devices' advertising and marketing that contradicted his
19 understanding that the iPhone 16 would be equipped with Enhanced Siri.

20 280. However, after purchasing and setting up his phone, Stevenson discovered that the
21 phone did not have the promised features and is substantially inferior to what Apple advertised.
22 Unbeknownst to Stevenson, Apple's statements regarding the AI capabilities of Enhanced Siri were
23 materially false and misleading including because the advertised Enhanced Siri had not yet been
24 developed and was not available on the iPhone 16. But for Apple's materially false and misleading
25 promotion of the iPhone 16, Stevenson would not have purchased his iPhone 16 Pro or would have
26 paid significantly less for it. As a result of Apple's conduct, Stevenson has been injured through
27 purchase and overpayment for the phone as it does not have the capabilities promised.
28

OHIO

281. Plaintiff **Daniel Ruiz** is a citizen of Ohio at all relevant times. On September 13, 2024, Ruiz preordered an iPhone 16 Pro from Best Buy's online store for approximately \$1,174.24, after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer 2024 and prior to the date of purchase.

282. In particular, Ruiz recalls seeing and specifically relying on Apple advertisements on social media regarding Enhanced Siri and its representations at 2024 WWDC highlighting Apple Intelligence, including Enhanced Siri's featured ability to integrate and act intelligently on information from across apps, as well as other Apple advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new iPhone series.

283. Ruiz reasonably interpreted the Apple Intelligence advertisements to mean that the Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities, consistent with the widespread public understanding at the time based on Apple's pervasive marketing campaign.

284. Ruiz believed Apple's advertisements regarding iPhone 16's Apple Intelligence and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI personal assistant. At the time of purchase, Ruiz had no reason to believe that Apple's advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory statement or information on the Class Devices' advertising and marketing that contradicted his understanding that the iPhone 16 would be equipped with Enhanced Siri.

285. However, after purchasing and setting up his phone, Ruiz discovered that the phone did not have the promised features and is substantially inferior to what Apple advertised. Unbeknownst to Ruiz, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities were materially false and misleading including because the advertised Enhanced Siri has not yet been developed and is not available on the iPhones. But for Apple's materially false and misleading promotion of the iPhone 16 Ruiz would not have purchased his iPhone 16 or would have paid significantly

1 less for it. As a result of Apple's conduct, Ruiz has been injured through purchase and overpayment
2 for the phone as it does not have the capabilities promised.

3 286. Plaintiff **Ryan Bulcher** is a citizen of Ohio at all relevant times. On September 11,
4 2024, Bulcher preordered an iPhone 16 Pro Max from Apple's online store for approximately
5 \$1,199, after viewing pervasive advertisements for the new iPhone 16 series that aired between
6 Summer 2024 and prior to the date of purchase.

7 287. In particular, Bulcher recalls seeing and specifically relying on Apple's television
8 advertisements and online advertisements highlighting the iPhone 16's new artificial intelligence
9 capabilities, especially Enhanced Siri, as well as other Apple advertisements marketing the iPhone
10 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new
11 AI-powered personal assistant and defining innovation of the new iPhone series.

12 288. Bulcher reasonably interpreted the Apple Intelligence advertisements to mean that
13 the Class Devices would be equipped with Enhanced Siri and would have the advertised
14 functionalities, consistent with the widespread public understanding at the time based on Apple's
15 pervasive marketing campaign.

16 289. Bulcher believed Apple's advertisements regarding iPhone 16's Apple Intelligence
17 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
18 AI personal assistant. At the time of purchase, Bulcher had no reason to believe that Apple's
19 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
20 statement or information on the Class Devices' advertising and marketing that contradicted his
21 understanding that the iPhone 16 would be equipped with Enhanced Siri.

22 290. However, after purchasing and setting up his phone, Bulcher discovered that the
23 phone did not have the promised features and is substantially inferior to what Apple advertised.
24 Unbeknownst to Bulcher, Apple's statements regarding the iPhone 16's integrated Siri AI
25 capabilities were materially false and misleading including because Enhanced Siri has not yet been
26 developed and is not available on the iPhones. But for Apple's materially false and misleading
27 promotion of the iPhone 16, Bulcher would not have purchased his iPhone 16 or would have paid
28

1 significantly less for it. As a result of Apple's conduct, Bulcher has been injured through purchase
2 and overpayment for the phone as it does not have the capabilities promised.

3 OKLAHOMA

4 291. Plaintiff **Lindsey K. Williams** is a citizen of Oklahoma at all relevant times. On
5 February 1, 2025, Williams purchased an iPhone 16 Plus from AT&T, after viewing pervasive
6 advertisements for the new iPhone 16 series that aired between Summer 2024 and prior to the date
7 of purchase.

8 292. In particular, Williams recalls seeing and specifically relying on Apple
9 advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of
10 which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the
11 new iPhone series.

12 293. Williams reasonably interpreted the Apple Intelligence advertisements to mean that
13 the Class Devices would be equipped with Enhanced Siri and would have the advertised
14 functionalities, consistent with the widespread public understanding at the time based on Apple's
15 pervasive marketing campaign.

16 294. Williams believed Apple's advertisements regarding iPhone 16's Apple Intelligence
17 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
18 AI personal assistant. At the time of purchase, Williams had no reason to believe that Apple's
19 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
20 statement or information on the Class Devices' advertising and marketing that contradicted her
21 understanding that the iPhone 16 would be equipped with Enhanced Siri.

22 295. However, after purchasing and setting up her phone, Williams discovered that the
23 phone did not have the promised features and is substantially inferior to what Apple advertised.
24 Unbeknownst to Williams, Apple's statements regarding the iPhone 16's integrated Siri AI
25 capabilities were materially false and misleading including because the advertised advanced Siri has
26 not yet been developed and is not available on the iPhones. But for Apple's materially false and
27 misleading promotion of the iPhone 16, Williams would not have purchased her iPhone 16 or would
28

1 have paid significantly less for it. As a result of Apple's conduct, Williams has been injured through
2 purchase and overpayment for the phone as it does not have the capabilities promised.

3 296. Plaintiff **Christian Hackelman** is a citizen of Oklahoma at all relevant times. On
4 September 13, 2024, Hackelman preordered an iPhone 16 Pro from his carrier, AT&T, after viewing
5 pervasive advertisements for the new iPhone 16 series that aired between Summer 2024 and prior to
6 the date of purchase.

7 297. In particular, Hackelman recalls seeing and relying specifically on Apple
8 advertisements throughout social media and representations it made during its 2024 WWDC
9 regarding artificial intelligence and advanced tasks Enhanced Siri could complete by recognizing
10 his activity patterns and acting intelligently across multiple applications on the phone with
11 personalized awareness, as well as other Apple advertisements marketing the iPhone 16's
12 incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-
13 powered personal assistant and defining innovation of the new iPhone series.

14 298. Hackelman reasonably interpreted the Apple Intelligence advertisements to mean that
15 the Class Devices would be equipped with Enhanced Siri and would have the advertised
16 functionalities, consistent with the widespread public understanding at the time based on Apple's
17 pervasive marketing campaign.

18 299. Hackelman believed Apple's advertisements regarding iPhone 16's Apple
19 Intelligence and Enhanced Siri to be truthful, and wanted to be one of the first owners of a
20 smartphone with an AI personal assistant. At the time of purchase Hackelman had no reason to
21 believe that Apple's advertisements were false, and did not notice any disclaimer, qualifier, or other
22 explanatory statement or information on the Class Devices' advertising and marketing that
23 contradicted his understanding that the iPhone 16 would be equipped with Enhanced Siri.

24 300. However, after purchasing and setting up his phone, Hackelman discovered that the
25 phone did not have the promised features and is substantially inferior to what Apple advertised.
26 Unbeknownst to Hackelman, Apple's statements regarding the iPhone 16's integrated Siri AI
27 capabilities were materially false and misleading including because the advertised Enhanced Siri has
28 not yet been developed and is not available on the iPhones. But for Apple's materially false and

misleading promotion of the iPhone 16, Hackelman would not have purchased his iPhone 16 or would have paid significantly less for it. As a result of Apple's conduct, Hackelman has been injured through purchase and overpayment for the phone as it does not have the capabilities promised.

OREGON

301. Plaintiff **Kaitlin Goodman** is a citizen of Oregon at all relevant times. On December 1, 2024, Goodman purchased an iPhone 16 online through her mobile carrier, AT&T, after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer 2024 and prior to the date of purchase.

302. In particular, Goodman specifically recalls seeing and relying on Apple's social media advertisements for the iPhone 16, statements Apple made at the 2024 WWDC, , billboards advertising the "smarter Siri," and television commercials touting artificial intelligence productivity features and Enhanced Siri's advanced capabilities, as well as other Apple advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new iPhone series.

303. Goodman reasonably interpreted the Apple Intelligence advertisements to mean that the Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities, consistent with the widespread public understanding at the time based on Apple's pervasive marketing campaign.

304. Goodman believed Apple's advertisements regarding iPhone 16's Apple Intelligence and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI personal assistant. At the time of purchase, Goodman no reason to believe that Apple's advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory statement or information on the Class Devices' advertising and marketing that contradicted her understanding that the iPhone 16 would be equipped with Enhanced Siri.

305. However, after purchasing and setting up her phone, Goodman discovered that the phone did not have the promised features and is substantially inferior to what Apple advertised. Unbeknownst to Goodman, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities were materially false and misleading including because the advertised advanced Siri has

1 not yet been developed and is not available on the iPhones. But for Apple's materially false and
2 misleading promotion of the iPhone 16, ot have purchased her iPhone 16 or would have paid
3 significantly less for it. As a result of Apple's conduct, Goodman has been injured through purchase
4 and overpayment for the phone as it does not have the capabilities promised.

5 306. Plaintiff **Taylor E. Oldfield-Zepeda** is a citizen of Oregon at all relevant times. On
6 October 3, 2024, Oldfield-Zepeda purchased an iPhone 16 Pro from the Apple Store in Tigard,
7 Oregon for approximately \$1,099, after viewing pervasive advertisements for the new iPhone 16
8 series that aired between Summer 2024 and prior to the date of purchase.

9 307. In particular, Oldfield-Zepeda recalls seeing and specifically relying on Apple's TV
10 commercials, as well as other Apple advertisements marketing the iPhone 16's incorporation of
11 Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal
12 assistant and defining innovation of the new iPhone series.

13 308. Oldfield-Zepeda reasonably interpreted the Apple Intelligence advertisements to
14 mean that the Class Devices would be equipped with Enhanced Siri and would have the advertised
15 functionalities, consistent with the widespread public understanding at the time based on Apple's
16 pervasive marketing campaign.

17 309. Oldfield-Zepeda believed Apple's advertisements regarding iPhone 16's Apple
18 Intelligence and Enhanced Siri to be truthful, and wanted to be one of the first owners of a
19 smartphone with an AI personal assistant. At the time of purchase, Oldfield-Zepeda had no reason
20 to believe that Apple's advertisements were false, and did not notice any disclaimer, qualifier, or
21 other explanatory statement or information on the Class Devices' advertising and marketing that
22 contradicted her understanding that the iPhone 16 would be equipped with Enhanced Siri.

23 310. However, after purchasing and setting up her phone, Oldfield-Zepeda discovered that
24 the phone did not have the promised features and is substantially inferior to what Apple advertised.
25 Unbeknownst to Oldfield-Zepeda, Apple's statements regarding the iPhone 16's integrated Siri AI
26 capabilities were materially false and misleading including because the advertised advanced Siri has
27 not yet been developed and is not available on the iPhones. But for Apple's materially false and
28 misleading promotion of the iPhone 16, Oldfield-Zepeda would not have purchased her iPhone 16

1 or would have paid significantly less for it. As a result of Apple's conduct, Oldfield-Zepeda has been
2 injured through purchase and overpayment for the phone as it does not have the capabilities
3 promised.

4 **PENNSYLVANIA**

5 311. Plaintiff **Colton Lipchak** is a citizen of Pennsylvania at all relevant times. On
6 September 19, 2024, Lipchak purchased an iPhone 16 Pro from Apple's online store for
7 approximately \$1,100, after viewing pervasive advertisements for the new iPhone 16 series that aired
8 between Summer 2024 and prior to the date of purchase.

9 312. In particular, Lipchak recalls seeing and specifically relying on Apple's television
10 and online advertisements that highlighted Enhanced Siri's supposedly new abilities to perform
11 actions across multiple applications, as well as other Apple advertisements marketing the iPhone
12 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new
13 AI-powered personal assistant and defining innovation of the new iPhone series.

14 313. Lipchak reasonably interpreted the Apple Intelligence advertisements to mean that
15 the Class Devices would be equipped with Enhanced Siri and would have the advertised
16 functionalities, consistent with the widespread public understanding at the time based on Apple's
17 pervasive marketing campaign.

18 314. Lipchak believed Apple's advertisements regarding iPhone 16's Apple Intelligence
19 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
20 AI personal assistant. At the time of purchase, Lipchak had no reason to believe that Apple's
21 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
22 statement or information on the Class Devices' advertising and marketing that contradicted his
23 understanding that the iPhone 16 would be equipped with Enhanced Siri.

24 315. However, after purchasing and setting up his phone, Lipchak discovered that the
25 phone did not have the promised features and is substantially inferior to what Apple advertised.
26 Unbeknownst to Lipchak, Apple's statements regarding the iPhone 16's integrated Siri AI
27 capabilities were materially false and misleading including because the advertised Enhanced Siri has
28 not yet been developed and is not available on the iPhones. But for Apple's materially false and

1 misleading promotion of the iPhone 16, Lipchak would not have purchased his iPhone 16 or would
2 have paid significantly less for it. As a result of Apple's conduct, Lipchak has been injured through
3 purchase and overpayment for the phone as it does not have the capabilities promised.

4 316. Plaintiff **Connor McKee** is a citizen of Pennsylvania at all relevant times. On
5 February 1, 2025, McKee purchased an iPhone 16 Pro from a T-Mobile store in Philadelphia,
6 Pennsylvania, for \$999.99, after viewing pervasive advertisements for the new iPhone 16 series that
7 aired between Summer 2024 and prior to the date of purchase.

8 317. In particular, McKee recalls seeing and specifically relying on Apple's video
9 advertisements including the Bella Ramsey television commercial demonstrating an operable
10 Enhanced Siri helping Ramsey to remember someone's name, as well as other Apple advertisements
11 marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was
12 Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new
13 iPhone series.

14 318. McKee reasonably interpreted the advertisements to mean that the Class Devices
15 would be equipped with Enhanced Siri, and would have the advertised functionalities.

16 319. McKee believed Apple's advertisements regarding Apple Intelligence and Enhanced
17 Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI personal
18 assistant. At the time of purchase, McKee had no reason to believe that Apple's advertisements were
19 false, and did not notice any disclaimer, qualifier, or other explanatory statement or information on
20 the Class Devices' advertising and marketing that contradicted his understanding that the iPhone 16
21 would be equipped with Enhanced Siri.

22 320. However, after purchasing and setting up his phone, McKee discovered that the
23 phone did not have the promised features and is substantially inferior to what Apple advertised.
24 Unbeknownst to McKee, Apple's statements regarding the Siri AI capabilities were materially false
25 and misleading including because the advertised advanced Siri has not yet been developed and is
26 not available on the iPhones. But for Apple's materially false and misleading promotion of the
27 iPhone 16 Apple Intelligence AI-enabled features, McKee would not have purchased his iPhone 16
28

1 or would have paid significantly less for it. As a result of Apple's conduct, McKee has been injured
2 through purchase and overpayment for the phone as it does not have the capabilities promised.

3 **RHODE ISLAND**

4 321. Plaintiff **Luke Grave** was a citizen of Rhode Island when he purchased the iPhone
5 16, and subsequently moved to Connecticut in April 2025. On October 1, 2024, Graves purchased
6 an iPhone 16 Pro Max from his carrier, AT&T, for approximately \$1,199.99 after viewing pervasive
7 advertisements for the new iPhone 16 series that aired between Summer 2024 and prior to the date
8 of purchase.

9 322. In particular, Graves recalls seeing and specifically relying on various Apple
10 advertisements and billboards touting the new Apple Intelligence features, especially ,Enhanced
11 Siri's ability to perform advanced tasks across apps, as well as other Apple advertisements marketing
12 the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a
13 brand new AI-powered personal assistant and defining innovation of the new iPhone series.

14 323. Graves reasonably interpreted the Apple Intelligence advertisements to mean that the
15 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
16 consistent with the widespread public understanding at the time based on Apple's pervasive
17 marketing campaign.

18 324. Graves believed Apple's advertisements regarding iPhone 16's Apple Intelligence
19 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
20 AI personal assistant. At the time of purchase, Graves had no reason to believe that Apple's
21 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
22 statement or information on the Class Devices' advertising and marketing that contradicted his
23 understanding that the iPhone 16 would be equipped with Enhanced Siri.

24 325. However, after purchasing and setting up his phone, Graves discovered that the phone
25 did not have the promised features and is substantially inferior to what Apple advertised.
26 Unbeknownst to Graves, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities
27 were materially false and misleading including because the advertised Enhanced Siri has not yet
28 been developed and is not available on the iPhones. But for Apple's materially false and misleading

1 promotion of the iPhone 16, Graves would not have purchased his iPhone 16 or would have paid
2 significantly less for it. As a result of Apple's conduct, Graves has been injured through purchase
3 and overpayment for the phone as it does not have the capabilities promised.

4 SOUTH CAROLINA

5 326. Plaintiff **Orlando Roddy** is a citizen of South Carolina at all relevant times. On or
6 around February 8, 2025, Roddy purchased an iPhone 16 Pro from his mobile carrier, Spectrum
7 Mobile, for approximately \$999.00 after viewing pervasive advertisements for the new iPhone 16
8 series that aired between Summer 2024 and prior to the date of purchase.

9 327. In particular, Roddy recalls seeing and specifically relying on Apple's television
10 advertisements depicting the new artificial intelligence features integrated into Enhanced Siri, as
11 well as other Apple advertisements marketing the iPhone 16's incorporation of Apple Intelligence,
12 the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining
13 innovation of the new iPhone series.

14 328. Roddy reasonably interpreted the Apple Intelligence advertisements to mean that the
15 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
16 consistent with the widespread public understanding at the time based on Apple's pervasive
17 marketing campaign.

18 329. Roddy believed Apple's advertisements regarding iPhone 16's Apple Intelligence
19 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
20 AI personal assistant. At the time of purchase, Roddy had no reason to believe that Apple's
21 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
22 statement or information on the Class Devices advertising and marketing that contradicted his
23 understanding that the iPhone 16 would be equipped with Enhanced Siri.

24 330. However, after purchasing and setting up his phone, Roddy discovered that the phone
25 did not have the promised features and is substantially inferior to what Apple advertised.
26 Unbeknownst to Roddy, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities
27 were materially false and misleading including because the advertised advanced Siri has not yet been
28 developed and is not available on the iPhones. But for Apple's materially false and misleading

1 promotion of the iPhone 16, Roddy would not have purchased his iPhone 16 or would have paid
2 significantly less for it. As a result of Apple's conduct, Roddy has been injured through purchase
3 and overpayment for the phone as it does not have the capabilities promised.

4 331. Plaintiff **Jack Scalfani** is a citizen of Tennessee at all relevant times. On October 11,
5 2024, Scalfani purchased four iPhone 16 Pro Max's from AT&T for approximately \$1,199.99 each,
6 after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer
7 2024 and prior to the date of purchase.

8 332. In particular, Scalfani recalls seeing and specifically relying on Apple's
9 advertisements for the iPhone 16 on social media as well as its representations at the WWDC 2024
10 showcasing Apple Intelligence and Enhanced Siri including its ability to act intelligently on
11 information from across multiple apps, as well as other Apple's subsequent advertisements
12 marketing the iPhone 16's incorporation of the promised Apple Intelligence, the centerpiece of
13 which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the
14 new iPhone series.

15 333. Scalfani reasonably interpreted the Apple Intelligence advertisements to mean that
16 the Class Devices would be equipped with Enhanced Siri and would have the advertised
17 functionalities, consistent with the widespread public understanding at the time based on Apple's
18 pervasive marketing campaign.

19 334. Scalfani believed Apple's advertisements regarding Apple Intelligence and Enhanced
20 Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI personal
21 assistant. At the time of purchase, Scalfani had no reason to believe that Apple's advertisements
22 were false, and did not notice any disclaimer, qualifier, or other explanatory statement or information
23 on the Class Devices' advertising and marketing that contradicted his understanding that the iPhone
24 16 would be equipped with Enhanced Siri.

25 335. However, after purchasing and setting up his phone, Scalfani discovered that the
26 phone did not have the promised features and is substantially inferior to what Apple advertised.
27 Unbeknownst to Scalfani, Apple's statements regarding the Siri AI capabilities were materially false
28 and misleading including because the advertised Enhanced Siri has not yet been developed and is

1 not available on the iPhones. But for Apple’s materially false and misleading promotion of the
2 iPhone 16, Scalfani would not have purchased his iPhone 16 or would have paid significantly less
3 for it. As a result of Apple’s conduct, Scalfani has been injured through purchase and overpayment
4 for the phone as it does not have the capabilities promised. has been injured through purchase and
5 overpayment for the phone as it does not have the capabilities promised.

6 336. Plaintiff **Adam Ragsdale** is a citizen of South Carolina at all relevant times. On or
7 about September 13, 2024, Ragsdale preordered an iPhone 16 Pro Max from T-Mobile’s online store
8 for approximately \$1,399.99 after viewing pervasive advertisements for the new iPhone 16 series
9 that aired between Summer 2024 and prior to the date of purchase.

10 337. In particular, Ragsdale recalls seeing and specifically relying on Apple Intelligence
11 advertisements it saw Apple promoting “everywhere” in various places, including, but not limited
12 to, during the 2024 WWDC keynote, on Apple’s social media, and on Apple television
13 advertisements in his home in South Carolina, as well as other Apple advertisements regarding the
14 iPhone 16’s incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand
15 new AI-powered personal assistant and defining innovation of the new iPhone series.

16 338. Ragsdale reasonably interpreted the advertisements to mean that the Class Devices
17 would be equipped with Enhanced Siri and would have the advertised functionalities.

18 339. Ragsdale believed Apple’s advertisements regarding iPhone 16’s Apple Intelligence
19 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
20 AI personal assistant. At the time of purchase, Ragsdale had no reason to believe that Apple’s
21 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
22 statement or information on the Class Devices’ advertising and marketing that contradicted his
23 understanding that the iPhone 16 would be equipped with Enhanced Siri.

24 340. However, after purchasing and setting up his phone, Ragsdale discovered that the
25 phone did not have the promised features and is substantially inferior to what Apple advertised.
26 Unbeknownst to Ragsdale, Apple’s statements regarding the iPhone 16’s integrated Siri AI
27 capabilities were materially false and misleading including because the advertised advanced Siri has
28 not yet been developed and is not available on the iPhone 16. But for Apple’s materially false and

misleading promotion of the iPhone 16, Ragsdale would not have purchased his iPhone 16 or would have paid significantly less for it. As a result of Apple's conduct, Ragsdale has been injured through purchase and overpayment for the phone as it does not have the capabilities promised.

TEXAS

341. Plaintiff **Matthew Floyd** is a citizen of Texas at all relevant times. On or about December 20, 2024, Floyd purchased an iPhone 16 Pro online from his phone carrier Visible for approximately \$1,189.68, after viewing pervasive advertisements for the new iPhone 16 series that aired between Summer 2024 and prior to the date of purchase.

342. In particular, Floyd recalls seeing and specifically relying on various Apple ads, as well as a promotional video from Apple highlighting the improved Enhanced Siri, as well as other Apple advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the new iPhone series.

343. Floyd reasonably interpreted the Apple Intelligence advertisements to mean that the Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities, consistent with the widespread public understanding at the time based on Apple's pervasive marketing campaign.

344. Floyd believed Apple's advertisements regarding iPhone 16's Apple Intelligence and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI personal assistant. At the time of purchase, Floyd had no reason to believe that Apple's advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory statement or information on the Class Devices' advertising and marketing that contradicted his understanding that the iPhone 16 would be equipped with Enhanced Siri.

345. However, after purchasing and setting up his phone, Floyd discovered that the phone did not have the promised features and is substantially inferior to what Apple advertised. Unbeknownst to Floyd, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities were materially false and misleading including because the advertised advanced Siri has not yet been developed and is not available on the iPhones. But for Apple's materially false and misleading

1 promotion of the iPhone 16 Apple Intelligence AI-enabled features, Floyd would not have purchased
2 his iPhone 16 or would have paid significantly less for it. As a result of Apple's conduct, Floyd has
3 been injured through purchase and overpayment for the phone as it does not have the capabilities
4 promised.

5 346. Plaintiff **Michael Dallas Gotschall** is a citizen of Texas at all relevant times. On or
6 around November 4, 2024, Gotschall purchased an iPhone 16 Pro from Visible for approximately
7 \$999, after viewing pervasive advertisements for the new iPhone 16 series that aired between
8 Summer 2024 and prior to the date of purchase.

9 347. In particular, Gotschall recalls seeing and specifically relying on Apple's video
10 advertisements including Apple's Bella Ramsey television commercial depicting an operable
11 Enhanced Siri helping Ramsey remember someone's name, Apple's 2024 WWDC presentation,
12 Apple's launch event for the iPhone 16, as well as other Apple advertisements marketing the iPhone
13 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new
14 AI-powered personal assistant and defining innovation of the new iPhone series.

15 348. Gotschall reasonably interpreted the Apple Intelligence advertisements to mean that
16 the Class Devices would be equipped with Enhanced Siri and would have the advertised
17 functionalities, consistent with the widespread public understanding at the time based on Apple's
18 pervasive marketing campaign.

19 349. Gotschall believed Apple's advertisements regarding iPhone 16's Apple Intelligence
20 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
21 AI personal assistant. At the time of purchase, Gotschall had no reason to believe that Apple's
22 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
23 statement or information on the Class Devices' advertising and marketing that contradicted his
24 understanding that the iPhone 16 would be equipped with Enhanced Siri.

25 350. However, after purchasing and setting up his phone, Gotschall discovered that the
26 phone did not have the promised features and is substantially inferior to what Apple advertised.
27 Unbeknownst to Gotschall, Apple's statements regarding the iPhone 16's integrated Siri AI
28 capabilities were materially false and misleading including because the advertised advanced Siri has

1 not yet been developed and is not available on the iPhones. But for Apple's materially false and
2 misleading promotion of the iPhone 16, Gotschall would not have purchased his iPhone 16 or would
3 have paid significantly less for it. As a result of Apple's conduct, Gotschall has been injured through
4 purchase and overpayment for the phone as it does not have the capabilities promised.

5 UTAH

6 351. Plaintiff **Skyler Vincent Mamone Feldt** is a citizen of Utah at all relevant times. On
7 October 3, 2024, Feldt purchased an iPhone 16 Pro Max from an Apple Store in Murray, Utah for
8 approximately \$1500 after viewing pervasive advertisements for the new iPhone 16 series that aired
9 between Summer 2024 and prior to the date of purchase.

10 352. In particular, Feldt recalls seeing and specifically relying on a video advertisement
11 featuring Bella Ramsey in which Ramsey asks Siri a question without referring to a calendar, and
12 Siri (in seconds) searched applications and found an answer in a calendar and provided Ramsey with
13 an answer. Feldt also recalls seeing other Apple advertisements marketing the iPhone 16's
14 incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-
15 powered personal assistant and defining innovation of the new iPhone series.

16 353. Feldt reasonably interpreted the Apple Intelligence advertisements to mean that the
17 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
18 consistent with the widespread public understanding at the time based on Apple's pervasive
19 marketing campaign.

20 354. Feldt believed Apple's advertisements regarding iPhone 16's Apple Intelligence and
21 Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI
22 personal assistant. At the time of purchase, Feldt had no reason to believe that Apple's
23 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
24 statement or information on the Class Devices' advertising and marketing that contradicted his
25 understanding that the iPhone 16 would be equipped with Enhanced Siri.

26 355. However, after purchasing and setting up his phone, Feldt discovered that the phone
27 did not have the promised features and is substantially inferior to what Apple advertised.
28 Unbeknownst to Feldt, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities

1 were materially false and misleading including because the advertised Enhanced Siri has not yet
2 been developed and is not available on the iPhones. But for Apple's materially false and misleading
3 promotion of the iPhone 16 Apple Intelligence AI-enabled features, Feldt would not have purchased
4 his iPhone 16 or would have paid significantly less for it. As a result of Apple's conduct, Feldt has
5 been injured through purchase and overpayment for the phone as it does not have the capabilities
6 promised.

7 356. Plaintiff **Devon Simmons** is a citizen of Utah at all relevant times. On July 5, 2024,
8 Simmons purchased an iPhone 15 Pro Max from an Apple Store in Farmington, Utah for
9 approximately \$1,285 after viewing pervasive advertisements that aired prior to the date of purchase.

10 357. In particular, Simmons specifically recalls seeing and relying on news articles on
11 TechRadar, as well as other websites, regarding Apple Intelligence features announced at WWDC
12 2024, as well as other Apple advertisements marketing the iPhone 15 Pro Max's incorporation of
13 Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal
14 assistant and defining innovation of the new iPhone series.

15 358. Simmons reasonably interpreted the Apple Intelligence advertisements to mean that
16 the Class Devices would be equipped with Enhanced Siri and would have the advertised
17 functionalities, consistent with the widespread public understanding at the time based on Apple's
18 pervasive marketing campaign.

19 359. Simmons believed Apple's advertisements regarding iPhone 15 Pro Max's Apple
20 Intelligence and Enhanced Siri to be truthful, and wanted to be one of the first owners of a
21 smartphone with an AI personal assistant. At the time of purchase, Simmons had no reason to believe
22 that Apple's advertisements were false, and did not notice any disclaimer, qualifier, or other
23 explanatory statement or information on the Class Devices' advertising and marketing that
24 contradicted his understanding that the iPhone 15 Pro Max would be equipped with Enhanced Siri.

25 360. However, after purchasing and setting up his phone, Simmons discovered that the
26 phone did not have the promised features and is substantially inferior to what Apple advertised.
27 Unbeknownst to Simmons, Apple's statements regarding the iPhone 15 Pro Max's integrated Siri
28 AI capabilities were materially false and misleading including because the advertised Enhanced Siri

1 has not yet been developed and is not available on the iPhones. But for Apple's materially false and
2 misleading promotion of the iPhone 15 Pro Max Apple Intelligence AI-enabled features, Simmons
3 would not have purchased his iPhone 15 Pro Max or would have paid significantly less for it. As a
4 result of Apple's conduct, Simmons has been injured through purchase and overpayment for the
5 phone as it does not have the capabilities promised.

6 361. Plaintiff **Mukesh Jethwani** is a citizen of Utah at all relevant times. On September
7 13, 2024, Jethwani purchased an iPhone 16 Pro Max from Apple's online store for approximately
8 \$2,000.16, after viewing pervasive advertisements for the new iPhone 16 series that aired between
9 Summer 2024 and prior to the date of purchase.

10 362. In particular, Jethwani specifically recalls seeing and relying on a video
11 advertisement featuring the Bella Ramsey in which Ramsey asks Siri a question and Siri quickly
12 answers it by accessing the calendar and other information, as well as other Apple advertisements
13 marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was
14 Enhanced Siri, a brand new AI-powered personal assistant.

15 363. Jethwani reasonably interpreted the Apple Intelligence advertisements to mean that
16 the Class Devices would be equipped with Enhanced Siri and would have the advertised
17 functionalities, consistent with the widespread public understanding at the time based on Apple's
18 pervasive marketing campaign.

19 364. Jethwani believed Apple's advertisements regarding iPhone 16's Apple Intelligence
20 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
21 AI personal assistant. At the time of purchase, Jethwani had no reason to believe that Apple's
22 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
23 statement or information on the Class Devices' advertising and marketing that contradicted his
24 understanding that the iPhone 16 would be equipped with Enhanced Siri.

25 365. However, after purchasing and setting up his phone, Jethwani discovered that the
26 phone did not have the promised features and is substantially inferior to what Apple advertised.
27 Unbeknownst to Jethwani, Apple's statements regarding the iPhone 16's integrated Siri AI
28 capabilities were materially false and misleading including because the advertised advanced Siri has

1 not yet been developed and is not available on the iPhones. But for Apple's materially false and
2 misleading promotion of the iPhone 16, Jethwani would not have purchased his iPhone 16 or would
3 have paid significantly less for it. As a result of Apple's conduct, Jethwani has been injured through
4 purchase and overpayment for the phone as it does not have the capabilities promised.

5 VIRGINIA

6 366. Plaintiff **Nyrek Mason** is a citizen of Virginia at all relevant times. On September
7 25, 2024, Mason purchased an iPhone 16 from an Apple Store in Washington, D.C. for
8 approximately \$847, after viewing pervasive advertisements for the new iPhone 16 series that aired
9 between Summer 2024 and prior to the date of purchase.

10 367. In particular, Mason recalls seeing and specifically relying on Apple's television and
11 YouTube advertisements, billboards, and Apple's online marketing materials, which demonstrated
12 new artificial intelligence features, such as an improved and advanced Siri, as well as other Apple
13 advertisements marketing the iPhone 16's incorporation of Apple Intelligence, the centerpiece of
14 which was Enhanced Siri, a brand new AI-powered personal assistant and defining innovation of the
15 new iPhone series.

16 368. Mason reasonably interpreted the Apple Intelligence advertisements to mean that the
17 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
18 consistent with the widespread public understanding at the time based on Apple's pervasive
19 marketing campaign.

20 369. Mason believed Apple's advertisements regarding iPhone 16's Apple Intelligence
21 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
22 AI powered personal assistant. At the time of purchase, Mason had no reason to believe that Apple's
23 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
24 statement or information on the Class Devices' advertising and marketing that contradicted his
25 understanding that the iPhone 16 would be equipped with Enhanced Siri.

26 370. However, after purchasing and setting up his phone, Mason discovered that the phone
27 did not have the promised features and is substantially inferior to what Apple advertised.
28 Unbeknownst to Mason, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities

1 were materially false and misleading including because the advertised advanced Siri has not yet been
2 developed and is not available on the iPhones. But for Apple's materially false and misleading
3 promotion of the iPhone 16 , Mason would not have purchased his iPhone 16 or would have paid
4 significantly less for it. As a result of Apple's conduct, Mason has been injured through purchase
5 and overpayment for the phone as it does not have the capabilities promised.

6 WASHINGTON

7 371. Plaintiff **Jacob Kicha** is a citizen of Washington at all relevant times. On January 5,
8 2025, Kicha purchased an iPhone 16 Pro from an Apple Store in Bellevue, Washington for
9 approximately \$1,211.10, after viewing pervasive advertisements for the new iPhone 16 series that
10 aired between Summer 2024 and prior to the date of purchase.

11 372. In particular, Kicha recalls seeing and specifically relying on Apple's WWDC
12 presentation in June 2024, as well as other Apple advertisements marketing the iPhone 16's
13 incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-
14 powered personal assistant and defining innovation of the new iPhone series.

15 373. Kicha reasonably interpreted the Apple Intelligence advertisements to mean that the
16 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
17 consistent with the widespread public understanding at the time based on Apple's pervasive
18 marketing campaign.

19 374. Kicha believed Apple's advertisements regarding iPhone 16's Apple Intelligence
20 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
21 AI personal assistant. At the time of purchase, Kicha had no reason to believe that Apple's
22 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
23 statement or information on the Class Devices' advertising and marketing that contradicted his
24 understanding that the iPhone 16 would be equipped with Enhanced Siri.

25 375. However, after purchasing and setting up his phone, Kicha discovered that the phone
26 did not have the promised features and is substantially inferior to what Apple advertised.
27 Unbeknownst to Kicha, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities
28 were materially false and misleading because the advertised advanced Siri has not yet been

1 developed and is not available on the iPhones. But for Apple's materially false and misleading
2 promotion of the iPhone 16 Apple Intelligence AI-enabled features, Kicha would not have purchased
3 his iPhone 16 or would have paid significantly less for it. As a result of Apple's conduct, Kicha has
4 been injured through purchase and overpayment for the phone as it does not have the capabilities
5 promised.

6 WEST VIRGINIA

7 376. Plaintiff **Kyra Burke** is a citizen of West Virginia at all relevant times. On February
8 28, 2025, Burke purchased an iPhone 16 from a T-Mobile store in Morgantown, West Virginia, after
9 viewing pervasive advertisements for the new iPhone 16 series that aired between Summer 2024 and
10 prior to the date of purchase.

11 377. In particular, Burke recalls seeing and specifically relying on advertisements
12 describing Enhanced Siri's enhanced capabilities, as well as other Apple advertisements marketing
13 the iPhone 16's incorporation of Apple Intelligence, the centerpiece of which was Enhanced Siri, a
14 brand new AI-powered personal assistant and defining innovation of the new iPhone series.

15 378. Burke reasonably interpreted the Apple Intelligence advertisements to mean that the
16 Class Devices would be equipped with Enhanced Siri and would have the advertised functionalities,
17 consistent with the widespread public understanding at the time based on Apple's pervasive
18 marketing campaign.

19 379. Burke believed Apple's advertisements regarding iPhone 16's Apple Intelligence and
20 Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an AI
21 personal assistant. At the time of purchase, Burke had no reason to believe that Apple's
22 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
23 statement or information on the Class Devices' advertising and marketing that contradicted her
24 understanding that the iPhone 16 would be equipped with Enhanced Siri.

25 380. However, after purchasing and setting up her phone, Burke discovered that the phone
26 did not have the promised features and is substantially inferior to what Apple advertised.
27 Unbeknownst to Burke, Apple's statements regarding the iPhone 16's integrated Siri AI capabilities
28 were materially false and misleading including because the advertised advanced Siri has not yet been

1 developed and is not available on the iPhones. But for Apple's materially false and misleading
2 promotion of the iPhone 16, Burke would not have purchased her iPhone 16 or would have paid
3 significantly less for it. As a result of Apple's conduct, Burke has been injured through purchase and
4 overpayment for the phone as it does not have the capabilities promised.

5 WISCONSIN

6 381. Plaintiff **Clint Gammons** is a citizen of Wisconsin at all relevant times. On October
7 28, 2024, Gammons purchased an iPhone 16 Pro Max from a Spectrum store in Appleton,
8 Wisconsin, after viewing pervasive advertisements for the new iPhone 16 series that aired between
9 Summer 2024 and prior to the date of purchase.

10 382. In particular, Gammons recalls seeing and specifically relying on Apple ads on TV
11 and social media regarding Apple Intelligence and Enhanced Sirias well as the information Apple
12 provided at the 2024 WWDC regarding Apple Intelligence, specifically the information related to
13 Enhanced Siri, as well as other Apple advertisements marketing the iPhone 16's incorporation of
14 Apple Intelligence, the centerpiece of which was Enhanced Siri, a brand new AI-powered personal
15 assistant and defining innovation of the new iPhone series.

16 383. Gammons reasonably interpreted the Apple Intelligence advertisements to mean that
17 the Class Devices would be equipped with Enhanced Siri and would have the advertised
18 functionalities, consistent with the widespread public understanding at the time based on Apple's
19 pervasive marketing campaign.

20 384. Gammons believed Apple's advertisements regarding iPhone 16's Apple Intelligence
21 and Enhanced Siri to be truthful, and wanted to be one of the first owners of a smartphone with an
22 AI personal assistant. At the time of purchase, Gammons had no reason to believe that Apple's
23 advertisements were false, and did not notice any disclaimer, qualifier, or other explanatory
24 statement or information on the Class Devices' advertising and marketing that contradicted his
25 understanding that the iPhone 16 would be equipped with Enhanced Siri.

1 385. However, after purchasing and setting up his phone, Gammons discovered that the
2 phone did not have the promised features and is substantially inferior to what Apple advertised.
3 Unbeknownst to Gammons, Apple's statements regarding the iPhone 16's integrated Siri AI
4 capabilities were materially false and misleading including because the advertised advanced Siri has
5 not yet been developed and is not available on the iPhone 16. But for Apple's materially false and
6 misleading promotion of the iPhone 16, Gammons would not have purchased his iPhone 16 or would
7 have paid significantly less for it. As a result of Apple's conduct, Gammons has been injured through
8 purchase and overpayment for the phone as it does not have the capabilities promised.

9 **B. Defendant**

10 386. Defendant APPLE INC. is a California incorporated company headquartered at 1
11 Infinite Loop, Cupertino, California 95014. The Company designs, manufactures, and markets
12 mobile communication and media devices, including the iPhone line of smartphones. Apple also
13 sells a variety of software, services, and accessories for use with iPhones.

14 **III. JURISDICTION AND VENUE**

15 387. This Court has original jurisdiction over this action under 28 U.S.C. § 1332(d)(2).
16 The proposed Class consists of millions of individual purchasers nationwide. The matter in
17 controversy exceeds the sum or value of \$5,000,000, exclusive of interests and costs. At least one
18 proposed Class Member is a citizen of a state different from Apple.

19 388. This Court also has personal jurisdiction over Apple, which is incorporated under
20 California law and is headquartered in Cupertino, California in Santa Clara County.

21 389. Venue is proper in this Court under 28 U.S.C. § 1391. Apple resides in, and has its
22 most significant contacts with, the Northern District of California, with its principal place of business
23 located near San Jose in Cupertino, California. A substantial part of the events or omissions giving
24 rise to the claims alleged occurred in this judicial district.

IV. INTRADISTRICT ASSIGNMENT

390. Assignment to the San Jose Division is appropriate under Local Civil Rule 3-2(c) and (e). A substantial part of the events or omissions which give rise to the claims alleged herein occurred at Apple's headquarters, which is located in Santa Clara County.

V. FACTUAL ALLEGATIONS

A. Apple's History of Innovation

391. Apple has a history of innovation. Its early inventions—Apple Computer I and II—revolutionized the personal computer market and enabled the company to go public four years after its founding in 1976.¹⁹ After completely changing how people use and think about computers, the late Steve Jobs, Apple's founder and visionary, left the company in 1985.²⁰ Apple continued to enjoy initial success, but without the kind of innovation that made it successful in the first place, the company's financials started to suffer in the 1990s and it lost market share to competitors. In 1997, facing impending bankruptcy, Apple brought Jobs back into the fold, and he was reinstated as CEO.

392. With Jobs back at the helm, Apple made several more ground-breaking inventions that helped Apple reestablish itself as a technology industry leader, but one product in particular cemented Apple as a true market-leader: the iPhone. First introduced at Apple's 2007 WWDC, the iPhone remains Apple's most popular product by sales revenue almost 20 years later. For the years that followed the iPhone's invention, Apple continued to lead the market, launching a new generation of iPhone nearly once a year.

393. Siri, a digital feature that recognized voice prompts using machine learning, was first introduced as an app that was made available on Apple's operating system in 2010. Apple acquired Siri and integrated it into the iPhone 4 in October 2011, forever coupling the iPhone with Siri. Apple made leaps and bounds in the smartphone market, and consumers and technology-enthusiasts soon

²⁰ *Id.*

1 came to eagerly anticipate and expect revolutionary technological advances with every iPhone
2 launch. For the most part, Apple delivered.

3 394. In the last few years, however, iPhone launches have garnered significantly less buzz
4 both among regular consumers and technology-enthusiasts. Critics have attributed the relative lack
5 of excitement to innovation stagnation at Apple. Newer generations of iPhones were regarded as
6 containing only minor improvements over the previous generations. Given the lack of breakthrough
7 innovation, many Apple consumers had begun deciding simply to keep their current series of iPhone
8 rather than upgrade and purchase a new phone. Therefore, while Apple had historically enjoyed
9 year-on-year growth in iPhone revenue, iPhone sales revenue declined for the first time in 2023.

10 **B. Apple's Entry Into the AI "Arms Race"**

11 395. In November 2022, nearly a year before the release of the iPhone 15 and 15 Pro,
12 OpenAI released ChatGPT, a technology shifting AI chatbot that sparked global public interest in
13 artificial intelligence. The shift in the competitive landscape was quickly recognized in the market
14 for smart phones. Deloitte, a professional services and consulting network, "predicts that the share
15 of shipped gen[erative] AI-enabled smartphones could exceed 30% by the end of 2025."²¹

16 396. Riding the wave of AI innovation and market demand, Google developed and
17 released a new Pixel smartphone powered by Google's proprietary Gemini AI virtual personal
18 assistant.²² Apple's other primary competitor, Samsung, has also launched its Samsung Galaxy S25,
19 which it advertises as "an AI powered, pocket-sized personal assistant designed to keep you
20 organized and unstoppable."²³

21 397. As tech companies raced to develop AI technology, Apple struggled to keep up and
22 was seen as "seemingly being lapped in the AI race."²⁴ Apple drew criticism for being slow to
23 announce its AI strategy, much less deliver on one, while rivals such as Microsoft, Alphabet,

²⁴ *Everyone is a loser in the Apple Intelligence race*, APPLEINSIDER (Mar. 11, 2025),
<https://appleinsider.com/articles/25/03/11/everyone-is-a-loser-in-the-apple-intelligence-race>.

Amazon, and Meta pulled ahead.²⁵ Reportedly, Apple was “caught off guard” by the sudden consumer interest in AI²⁶ and experienced plunging sales as a result.²⁷

398. Apple knew that its customer base was increasingly interested in generative AI features. It also knew that its competitors were developing their own AI features at break-neck pace. In an effort to catch-up, in the first half of 2024, Apple was reported to be in talks with several companies regarding their AI models, including Google regarding Gemini and OpenAI regarding ChatGPT.²⁸ In June 2024, Apple announced that it had partnered with OpenAI to integrate ChatGPT into its operating software.

C. Apple Introduces “Apple Intelligence” and Enhanced Siri for the Class Devices

399. Soon after, Apple announced its brand-new artificial intelligence offering, named “Apple Intelligence,” at its annual WWDC on June 10, 2024.²⁹

400. WWDC is one of the most highly anticipated and widely publicized technology events in the United States each year. Consumers, investors and media outlets tune in virtually or otherwise closely follow the conference to learn if Apple will be releasing anything new and noteworthy, especially in advance of a new iPhone series, expected each Fall.

²⁵ *Apple Intelligence has failed to boost iPhone sales*, MSN (Jan. 11, 2025), <https://www.msn.com/en-us/technology/artificial-intelligence/apple-intelligence-has-failed-to-boost-iphone-sales-ming-chi-kuo/ar-BB1rhczl?ocid=BingNewsVerp>.

²⁶ Mark Gurman, *Inside Apple’s Big Plan to Bring Generative AI to All Its Devices*, BLOOMBERG (Oct. 22, 2023), <https://www.bloomberg.com/news/newsletters/2023-10-22/what-is-apple-doing-in-ai-revamping-siri-search-apple-music-and-other-apps-lo1ffr7p> (stating, “Apple largely sat on the sidelines when OpenAI’s ChatGPT took off like a rocket last year. . . . I can tell you in no uncertain terms that Apple executives were caught off guard by the industry’s sudden AI fever and have been scrambling since late last year to make up for lost time.”)

²⁷ Samantha Murphy Kelly, *iPhone sales are plunging. Here’s why*, CNN (Apr. 16, 2024), <https://www.cnn.com/2024/04/15/tech/iphone-sales-plunging/index.html> (stating, “Apple has not articulated a strong message about artificial intelligence, at a time when many tech companies are doubling down on related strategies and features.”)

²⁸ See Martin Coulter, *Apple in talks to let Google’s Gemini power iPhone AI features*, Bloomberg News says, REUTERS (Mar. 18, 2024), <https://www.reuters.com/technology/apple-talks-let-googles-gemini-power-iphone-ai-features-bloomberg-news-says-2024-03-18/>; see also *Apple renews talks with OpenAI for iPhone generative AI features*, Bloomberg News reports, REUTERS (Apr. 26, 2024), <https://www.reuters.com/technology/apple-renews-talks-with-openai-iphone-generative-ai-features-bloomberg-news-2024-04-26/>.

²⁹ *WWDC24 Highlights*, APPLE, <https://nr.apple.com/dF1k5h1Ft2>, last accessed June 4, 2025.

1 401. Product announcements made at WWDC also make national headlines, with
2 widespread coverage across primetime TV, cable news, national and local newspapers, radio,
3 podcasts, the blogosphere, and more. Apple carefully selects, curates, and choreographs its
4 messaging, aware that it will be repeated and amplified around the world by newscasters,
5 newsmakers, and everyday consumers. Apple has long understood its ability to dominate the national
6 dialogue each year at this time.

7 402. With iPhone sales declining in recent years and the 16 series coming that Fall, Apple
8 also knew that it needed a breakthrough innovation to reignite market enthusiasm and drive new
9 purchases and upgrades. The 2024 WWDC made clear that Apple’s answer was “Apple
10 Intelligence.”

11 403. At the event, Apple CEO Tim Cook and the rest of the Apple Team devoted an
12 outsized amount of time to touting the capabilities of Apple Intelligence. According to the company,
13 Apple Intelligence was a new grouping of generative AI tools for its upcoming lineup of Apple
14 devices—such as the iPhone 15 Pro models and the new iPhone 16 series, as well as forthcoming
15 laptops, desktop computers, and tablets.

16 404. Central to these capabilities was Enhanced Siri: an on-device, AI personal assistant
17 said to offer, “richer language understanding capabilities,” deliver “natural, more contextually
18 relevant, and more personal” interactions, and capable of “simplif[ying] and accelerat[ing] everyday
19 tasks[.]”

20 405. Since Enhanced Siri would be available only on the iPhone 15 Pro series and later
21 iPhones, Apple relied on this Apple Intelligence and Enhanced Siri upgrade to drive iPhone sales in
22 Quarter 4 of 2024 and 2025.

23 406. Craig Federighi, Senior Vice President of Software Engineering at Apple, introduced
24 a segment on Apple Intelligence by stating that “[t]his is a moment we’ve been working towards for
25 a long time.”³⁰ He described Apple Intelligence as “the personal intelligence system that puts
26 powerful generative models right at the core of your iPhone, iPad, and Mac. It draws on your
27

28 ³⁰ Apple, *WWDC 2024*, YOUTUBE (Jun. 10, 2024),
<https://www.youtube.com/watch?v=RXeOiIDNNek> (quoted language at 1:06:40).

1 personal context to give you intelligence that is most helpful and relevant to you. . . . And it is deeply
 2 integrated into our platforms and throughout the apps you rely on to communicate, work, and express
 3 yourself.”³¹

4 407. Federighi continued, explaining that Apple “designed Apple Intelligence so it can tap
 5 into [the applications consumers use daily] **and carry out tasks on your behalf**. So you can say
 6 things like: ‘Pull up the file that Joz shared with me last week,’ or ‘Show me all the photos of Mom,
 7 Olivia, and me,’ or ‘Play the podcast that my wife sent the other day.’ We are designing Apple
 8 Intelligence to be able **to orchestrate these and hundreds of other actions for you**[.]”³²

9 408. Federighi then explained how it all, supposedly, works: “Apple Intelligence is
 10 grounded in your personal information and context, with the ability to retrieve and analyze the most
 11 relevant data from across your apps, as well as to reference the content on your screen, like an email
 12 or calendar event you are looking at.”³³

13 409. In another example of Apple Intelligence’s abilities, Federighi hypothesized that he
 14 had a work meeting that may prevent him from reaching his daughter’s theater performance on time.
 15 He explained that “Apple Intelligence can process the relevant personal data to assist me. It can
 16 understand who my daughter is, the relevant play details she sent several days ago, the time and
 17 location for my meeting, and predicted traffic between my office and the theater.”³⁴

18 410. Likewise, Kelsey Peterson, Apple’s Director of Machine Learning and AI, detailed
 19 how Enhanced Siri would be the vehicle for these remarkable new capabilities, explaining: “Imagine
 20 that I am planning to pick my mom up from the airport, and I’m trying to figure out my timing. Siri
 21 is going to be able to help me do this so easily. Siri, when is my mom’s flight landing? What’s
 22 awesome is that Siri actually cross-references flight details that my mom shared with me by email
 23 with real-time flight tracking to give me her up-to-date arrival time. . . . That’s just a glimpse of the
 24 ways in which Siri is going to become more powerful and more personal thanks to Apple
 25 Intelligence.”³⁵

26 ³¹ *Id.* (quoted language at 1:07:07).

27 ³² *Id.* (quoted language at 1:10:13).

28 ³³ *Id.* (quoted language at 1:10:45).

³⁴ *Id.* (quoted language at 1:11:15).

³⁵ *Id.* (quoted language at 1:22:15).

1 411. Federighi concluded by stating that Apple Intelligence will be available to try out in
2 English this fall. “We are bringing it to users in beta as part of iOS 18, iPad OS 18, and MacOS
3 Sequoia this fall, with some features and additional languages and platforms coming out over the
4 course of the next year.”³⁶

5 412. While Apple mentioned Apple Intelligence features other than Enhanced Siri, none
6 depicted truly advanced AI functionality. As Wall Street journalist Joanna Stern observed, “[Apple]
7 said Apple Intelligence around 60 times,” but in reality, “[s]ome of these intelligence announcements
8 are just table stakes[;] Samsung and Google already have them.”³⁷

9 413. Enhanced Siri, however, was different, set to “break new ground,” and particularly
10 exciting for consumers. That’s because “[e]ver since Siri’s birth, Apple has been promising that it
11 can do things for you just by asking. Not exactly yet. Maybe now is Siri’s moment. The assistant is
12 getting smarter at what it can do with your personal information. . . The big thing is that you can
13 now type to Siri, making it much more like a chat bot, but unlike those other chat bots, Apple is
14 making the point that Siri knows all about you and your personal info, it eventually will be able to
15 understand what appears on your screen. You can ask Siri to find something even if you don’t
16 remember if it’s in a message, email, or note, and it can work across apps or for times when you are
17 filling out a form and need to input your driver’s license, Siri will be able to find a photo of your
18 license, extract your ID number and type it into the form for you....”

19 414. Consumers reasonably understood the advanced Apple Intelligence features Apple
20 heavily promoted at the WWDC, including Enhanced Siri, would be available with the next released
21 iPhone. This was consistent with Apple’s well-established pattern of introducing major innovations
22 at the WWDC and then launching them on a new iPhone series in the fall.³⁸

23
24
25 ³⁶ *Id.* (quoted language at 1:40:55) (emphasis added).

26 ³⁷ *Apple Intelligence, New Siri in iOS 18: Apple’s Big AI Push at WWDC 2024*, WALL STREET
27 JOURNAL (June 10, 2024), <https://www.wsj.com/video/series/joanna-stern-personal-technology/apple-intelligence-new-siri-in-ios-18-apples-big-ai-push-at-wwdc-2024/FD50299F-678B-409A-B4D8-CE0F4AEED862?msocid=2f5e429e81c7677423a257bf802966ca>

28 ³⁸ See fn. 13, *supra*, NAD Decision, p. 5: “Apple typically announces new features over the Summer and rolls out those features in the Fall. Here, Apple announced in June 2024 that Apple Intelligence would be coming with the launch of the iPhone 16 and iPhone 16 Pro in September 2024.”

1 415. Apple reinforced these expectations with its press release issued on the same day,
2 introducing Apple Intelligence to the world and declaring that “Siri Enters a new Era[.]”³⁹ Apple
3 stated: “Powered by Apple Intelligence, Siri becomes more deeply integrated into the system
4 experience. With richer language-understanding capabilities, Siri is more natural, more contextually
5 relevant, and more personal, with the ability to simplify and accelerate everyday tasks.”⁴⁰

6 416. Apple touted that Enhanced Siri, powered by Apple Intelligence, could search your
7 phone for messages from specific individuals—including email, text, and other messaging apps—
8 locate the name of podcasts, and immediately search for and begin playing the podcast on the
9 consumer’s default podcast application.⁴¹ Apple reiterated: with Apple Intelligence, “Siri **can now**
10 take hundreds of new actions in and across apps, including finding book recommendations sent by
11 a friend in Messages and Mail.”⁴² Apple stressed these features were unique to Apple and could only
12 be enjoyed through the purchase of its newest products. As Tim Cook put it, “this is AI as only
13 Apple can deliver it, and we can’t wait for users to experience what it **can** do.”⁴²

⁴² *Id.*

Screenshot from Apple's official website announcing Apple Intelligence, June 10, 2024

Apple Intelligence — the personal intelligence system for iPhone, iPad, and Mac — combines the power of generative models with personal context to deliver intelligence that's useful and relevant to the user.

D. Apple Deliberately Leveraged Media Hype Strategically Amplifying its Misrepresentations

417. Apple's AI marketing strategy worked. The announcements at WWDC created a media frenzy across tech blogs, traditional outlets, and social platforms.

418. For example, *TechCrunch* headlined Apple Intelligence as “the company’s new generative AI offering” and quoted CEO Tim Cook’s remarks from the WWDC keynote that “[a]ll of this goes beyond artificial intelligence. It’s personal intelligence, and it’s the next big step for Apple.”⁴³

⁴³ Brian Heater, *Apple Intelligence is the company's new generative AI offering*, TECHCRUNCH (June 10, 2024), <https://techcrunch.com/2024/06/10/apple-intelligence-is-the-companys-new-generative-ai-offering/>.

1 419. Likewise, CNN reported that Apple Intelligence would revolutionize consumers’ use
2 of iPhones, “Apple is embracing generative AI – the buzzy form of artificial intelligence that can
3 provide thoughtful and thorough responses to questions – through Siri . . . essentially turning it into
4 an iPhone chatbot.”⁴⁴

5 420. CNBC said, “Apple announced that Siri can tap into OpenAI’s ChatGPT when
6 needed. The Company said it wanted users to be able to tap into external models. Siri will ask if you
7 want to share your question with ChatGPT and then will return suggestions from the OpenAI
8 chatbot. ChatGPT is also built into systemwide writing tools. So, for example, Apple said you can
9 create a bedtime story for a child and add images created by ChatGPT.”⁴⁵ Hundreds of similar
10 articles were written heralding this new era for Apple.

11 421. Morgan Stanley’s November 2024 AlphaWise Smartphone survey revealed that
12 advanced AI features rank highly as a reason consumers might consider an upgrade.⁴⁶
13 Unsurprisingly, Plaintiffs and the Class were eager to purchase the Class Devices with the
14 groundbreaking new Siri.

15 422. Apple knew that its announcements at WWDC would drive consumer demand for the
16 Class Devices, and it did. What Apple also knew, however, was that it was selling vaporware. AI
17 functionality it promoted did not exist. Despite extensive news coverage amplifying its
18 misrepresentations, Apple failed to correct coverage or otherwise inform the public that Enhanced
19 Siri was not an already or soon-to-be-existing product, but rather a far-off aspiration.

20 423. As former Apple product marketer turned analyst Michael Gartenberg would later
21 remark: “If ever there’s been an example of over-promising and under-delivering, it’s Apple
22 Intelligence.”⁴⁷

24 ⁴⁴ Samantha Murphy Kelly, *Everything Apple announced at its big AI event*, CNN (June 11, 2024),
25 <https://www.cnn.com/2024/06/10/tech/apple-ai-next-big-thing/index.html>.

28 ⁴⁷ Tripp Mickle, *What’s Wrong With Apple?*, NEW YORK TIMES (April 11, 2025),
<https://www.nytimes.com/2025/04/11/technology/apple-issues-trump-tariffs.html>.

1 **E. Apple Launches iPhone 16, Doubling Down on its False AI Claims for the Class**
 2 **Devices**

3 424. On September 9, 2024, Apple hosted “It’s Glowtime” launch event for the iPhone 16.
 4 Anytime Apple introduces a new iPhone, it makes national news, and this time was no different. As
 5 it did with WWDC 2024, the flood of media attention amplified the core message of the series 16
 6 launch: Apple Intelligence and Siri’s new era as an AI personal assistant was here.

7 425. At the event, Apple spotlighted Apple Intelligence and its centerpiece Enhanced Siri
 8 in various ways. Senior Vice President Craig Federighi stated: the iPhone is a “part of so many things
 9 that make you – you, like your relationships and messages, your photos and memories, your calendar,
 10 notes and more.” He continued: “Now we’re bringing together that personal context with the power
 11 of generative models to deliver intelligence that understands you, and we are doing it in a way that
 12 protects your privacy.”⁴⁸

13 426. Federighi added that “Apple Intelligence” is “the personal intelligence system **at the**
 14 **heart of the iPhone 16 lineup**, with the ability to understand and create language as well as images
 15 **and take action on your behalf to simplify daily tasks, and each of these powerful capabilities**
 16 **is grounded in your personal content.**”⁴⁹ He reinforced, “Apple Intelligence **marks the start of a**
 17 **new era for Siri**, and makes it more natural, more contextually relevant, and more personal to you
 18 with richer language understanding.”⁵⁰

19 427. Apple also explained the breakthrough innovation through real examples, such as:
 20 “So when your friend texts you about a new album, you’ll be able to simply say, ‘play that’ . . . and
 21 it will be able to take hundreds of new actions in your apps . . .” “[Y]ou’ll be able to simply say,
 22 ‘send Erica the photos from Saturday’s barbecue,’ and Siri will dig up the photos and send them
 23 right off with new ways to express yourself and relive memories, along with tools to help you
 24 prioritize and focus so you can get more done.”⁵¹

25
 26 ⁴⁸ Apple, *Apple Event – September 9*, YOUTUBE (Sep. 9, 2024),
 27 https://www.youtube.com/watch?v=uarNiSl_uh4&t=2393s (quoted language at 47:26).

28 ⁴⁹ *Id.*, (quoted language at 47:51).

⁵⁰ *Id.* (quoted language at 52:34).

⁵¹ *Id.* (quoted language at 53:56)

1 428. Concurrent with the September launch event, Apple issued a press release⁵²
2 announcing the iPhone 16 series. The press release echoed promises made during the launch
3 presentation.

4 429. Apple proclaimed that the “iPhone 16 and iPhone 16 Plus mark the beginning of a
5 new era for iPhone with Apple Intelligence delivering powerful, personal, and private experiences
6 for our users.”

7 430. With respect to Enhanced Siri, it announced, “Siri becomes more deeply integrated
8 into the system experience” and “[w]ith richer language-understanding capabilities, communicating
9 with Siri is more natural and flexible. . . . Siri also now has extensive product knowledge to answer
10 thousands of questions about features on iPhone and other Apple devices.”

11 431. In this release, Apple announced that the advertised Apple Intelligence features
12 would be “available on iPhone 16, iPhone 16 Plus, iPhone 16 Pro, iPhone 16 Pro Max, iPhone 15
13 Pro, [and] iPhone 15 Pro Max.”

14 432. Apple further touted that a software release for the Class Devices scheduled for later
15 in 2024 would give Enhanced Siri the ability to “draw on a user’s personal context to deliver
16 intelligence that is tailored to them” and “gain onscreen awareness to understand and take action
17 with users’ content, as well as take hundreds of new actions in and across Apple and third-party
18 apps.”

19 433. While Apple indicated minor features would arrive later (such as Image Playground),
20 there was no indication that the much-heralded Enhanced Siri would be unavailable until *years later*,
21 as is now clear. Instead, Apple reinforced the early arrival of Enhanced Siri with the iPhone release
22 and its Apple Intelligence features: “Coming with the first set of Apple Intelligence features, Siri
23 becomes more natural, contextually relevant, and personal, with an elegant glowing light that wraps
24 around the edge on the screen when active.”

25 434. The misleading press release was also consistent with Apple’s broader advertising
26 campaign, including the Ramsey ad depicting an operable Enhanced Siri. As the National

27 ⁵² *Apple introduces iPhone 16 and iPhone 16 Plus*, INTERNET ARCHIVE,
28 <https://web.archive.org/web/20250710120307/https://www.apple.com/newsroom/2024/09/apple-introduces-iphone-16-and-iphone-16-plus/>.

Advertising Division would later underscore in ultimately deeming Apple’s campaign misleading, Apple “highlight[ed], in particular, the anticipated updates to Siri’s functionality.”⁵³ Across media channels and advertising, Apple repeatedly reinforced that its “Apple Intelligence” and the transformation Siri with “richer language-understanding capabilities,” understanding of your personal content and ability to take data and cross reference with various applications would be available with the series 16 launch.

435. The launch event and surrounding campaign resonated. Reporters got the message Apple was sending, and ran with it, declaring on launch day: **“Apple’s iPhone 16 is Worth the Upgrade Thanks to a Much Smarter AI Siri.”**⁵⁴ It is therefore no surprise that following the series 16 launch, first-weekend pre-orders were estimated at around 37 million units and continued steadily growing nationwide.⁵⁵

436. As with WWDC, the Class Devices’ Apple Intelligence launch reaffirmed Apple’s deceptive messaging that consumers were getting a revolutionary new device powered by a next-generation AI assistant. In truth, promised features did not exist.

F. The “Ramsey Ad” – Apple Doubles down on its False And Misleading Marketing Campaign

437. Concurrent with Apple’s September launch event heralding the new iPhone 16, Apple Intelligence, and Siri’s new era, Apple also introduced a new series of high-profile advertisements featuring actor Bella Ramsey to show Enhanced Siri “in action.”

438. In one (the “Ramsey Ad”), Apple depicts actor Ramsey in a hallway, catching sight of an acquaintance whose name they have forgotten. In the moments before the “guy” spots Ramsey, Ramsey asks: “Siri, what’s the name of that guy I had a meeting with a couple months ago at Café Grenel?”⁵⁶

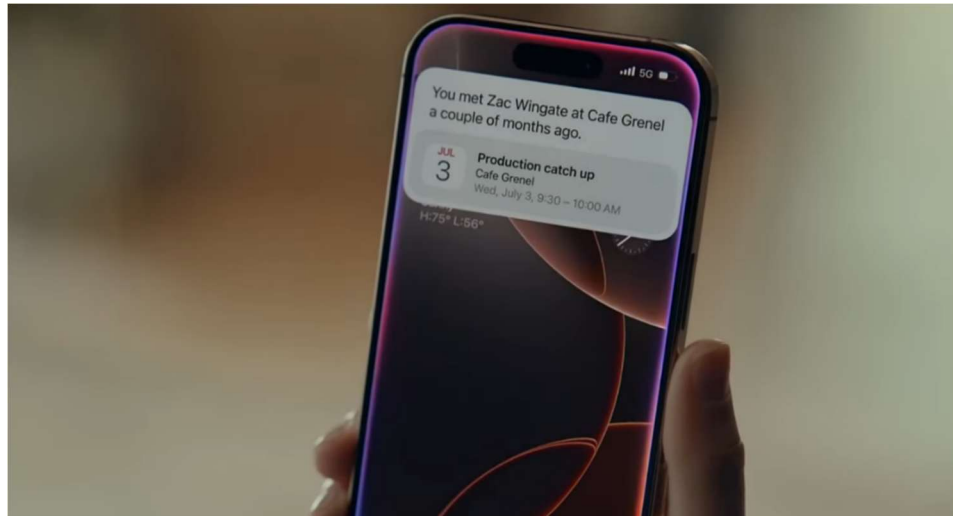

⁵³ See *fn. 14, supra*, NAD Decision, p. 5.

⁵⁴ Robert Leedham, *Apple’s iPhone 16 Is Worth the Upgrade Thanks to a Much Smarter AI Siri*, GQ (Sept. 9, 2024), <https://www.gq.com/story/apple-iphone-16>.

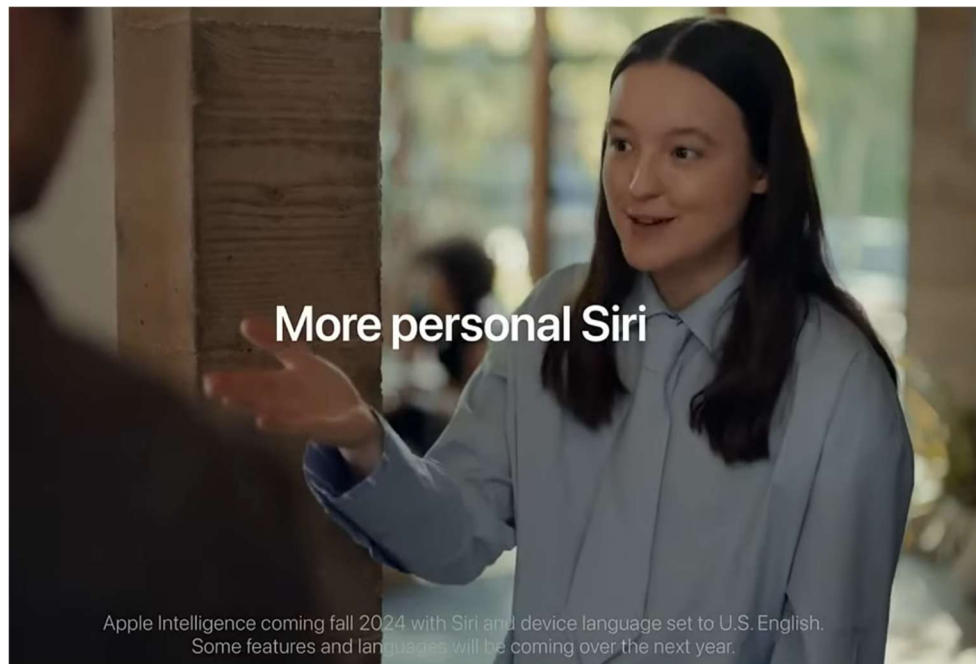

⁵⁵ Tripp Mickle, *Apple’s Revenue Increases 4 Percent Despite Slowing iPhone Sales*, THE NEW YORK TIMES (Jan. 30, 2025), <https://www.nytimes.com/2025/01/30/technology/apple-quarterly-earnings-profit.html>.

⁵⁶ QuirkyFilms, *Bella Ramsey - iPhone 16 Pro Apple Intelligence (2024) ‘Zac,’* YOUTUBE (Sept. 25, 2024), <https://www.youtube.com/watch?v=IIOW69HztX0>.

1 439. Just in time, Enhanced Siri responds: “You met Zac Wingate at Café Grenel.”

11 440. In the ad, Zac Wingate is pleasantly surprised that Ramsey remembers him, and while
12 Ramsey pretends to have recognized him organically, the text appears on the screen, reading: “More
13 personal Siri[.]”

26 441. In small text, in a faint font, at the bottom of the advertisement , Apple states: “Apple
27 Intelligence coming fall 2024 with Siri and device language set to U.S. English. Some features and
28 languages will be coming over the next year.” To the extent noticed by consumers, this underscored

1 that the features would be delivered as represented, including that “Siri” (reasonably, as featured)
2 would even have its language device preset to English.

3 442. The Ramsey Ad also concludes with a series of unequivocal blank screens with sharp
4 eye-catching contrast and reading, first, “Hello, Apple Intelligence” followed by, “iPhone 16 Pro[.]”

5 443. Consumers reasonably understood the Ramsey ad and the appearing statements
6 “Apple Intelligence coming fall 2024” to mean that iPhone 16 line up would be equipped with
7 Enhanced Siri—the centerpiece of the WWDC 2024, the iPhone 16 launch press, and depicted as
8 operable in the ad itself.

9 444. These representations were false and misleading. Consumers reasonably understood
10 them to mean Enhanced Siri was a real, working feature that would be delivered with their iPhone
11 16, which was, in Apple’s words, the “first phone built for Apple Intelligence.” No reasonable
12 consumer would understand Apple’s advertising to mean Enhanced Siri would come two years later
13 if at all. This is consistent with what the National Advertising Division would later note—that one
14 of the claims consumers would take from the Ramsey Ad was as follows: “The video demonstration
15 found in the ‘More Personal Siri’ commercial accurately depicts the performance of Siri features as
16 currently available.”⁵⁷

17 445. The Ramsey Ad featuring a working Enhanced Siri first aired at or near the same
18 time Apple launched the iPhone 16 for sale. Apple invested heavily in its production and distribution.
19 It tapped Emmy Award winner David Shane to direct it with support from Academy Award-winning
20 cinematographer Erik Messerschmidt. Apple reportedly spent tens of millions on it, running the ad
21 repeatedly across broadcast TV, live in cinemas, online, and across social media.

22 446. It also received widespread media and other coverage given that Apple decided to
23 have one of the most noteworthy, upcoming, and buzzworthy young actors star in it, Bella Ramsey,
24 of *Game of Thrones* and *The Last of Us* fame.

25 447. As one article explained, commenting on Apple’s campaign and its strategic use of
26 celebrity influence: “Apple knows how to play the celebrity game. By bringing Bella Ramsey into
27

28 ⁵⁷ See *fn. 14, supra*, NAD Decision, p. 2: “The video demonstration found in the “More Personal Siri” commercial accurately depicts the performance of Siri features as currently available.”

the mix, *they're* not just promoting a product—they're **creating a moment that sticks with you.** It's smart marketing, plain and simple.⁵⁸

448. The ads began appearing in September 2024 to coincide with Apple's "It's Glowtime" launch event for the series 16 iPhone. It ran in markets across the United States on national television, online platforms, social media, and more. Apple aired it during high-visibility events like the baseball playoffs and NFL season, in particular the ad demonstrating a working version of Enhanced Siri. Apple also aired it during wildly popular shows like the Kelly Clarkson Show, which is watched by millions of households daily. The Ramsey Ad gained massive visibility, with hundreds of millions of impressions on TV alone.

449. YouTube and other popular streaming platforms also hosted the Ramsey Ad, and it was shared virally across social media platforms given the prominence of its starring actress and the public's excitement over AI. Apple even paid to have it air live in cinemas prior to blockbuster movies in theaters at that time.

450. As a result, the market became further saturated with the key iPhone 16 message: Apple Intelligence and Siri's new era as an AI personal assistant was here. This drove intense demand for the new iPhones that Apple had not seen in recent years given the stagnation of innovation prior to this release. The effort Apple began at WWDC 2024 to convince consumers to upgrade to the iPhone 16 at a premium price and distinguish itself from competitors in the AI race paid off, with millions taking the bait.

451. The Ramsey Ad depicted a clearly operable Enhanced Siri. But like Apple's iPhone 16 other advertisements during this period, it did not reasonably inform consumers that Apple intended to launch the iPhone 16 *without* Apple Intelligence or its centerpiece, Enhanced Siri. In truth Apple had not yet even developed a reliable working version of that much heralded feature.

452. The small text at the bottom of the screen also does not alter Apple's promises and representations for several reasons. If even detected by consumers as compared to the more prominent messaging, the text in fact confirms that Apple Intelligence—the product Ramsey is

⁵⁸ Arman Lorenzo Burias, *'Last of Us' Star Bella Ramsey Uses Apple Intelligence in iPhone 16 Pro Ad*, DESIGNRUSH (Oct. 15, 2024), <https://www.designrush.com/news/bella-ramsey-uses-apple-intelligence-in-iphone-16-pro-ad>. (emphasis added)

1 supposedly relying on in the advertisement—would be available for Siri- and Apple Intelligence-
2 compatible devices, including the iPhone 16, set to U.S. English in fall 2024, and coinciding with
3 the Fall launch.

4 453. No reasonable consumers would understand the statement that “some features and
5 languages will be coming over the next year” to mean that the “More personal Siri” assistant—the
6 entire subject of the Ramsey Ad—would be unavailable upon launch of the iPhone 16, much less
7 one, two, or more years later.

8 454. This is confirmed by the Ramsey Ad’s final lines: “Hello, Apple Intelligence.
9 iPhone 16 Pro[.]” Reasonable consumers understood this to mean that the iPhone 16 would ship with
10 Apple Intelligence enabled and that, while Apple may upgrade features and add new languages, *at*
11 *the very least* the features depicted as working in Apple’s advertisements, including the “more
12 personal Siri” would be functional at launch.

13 455. The statements made in that commercial were false on their own, and like the rest of
14 Apple’s marketing for the iPhone 16, misled consumers into thinking the iPhone 16 would have
15 features it (still) does not have. Throughout the Fall, Apple continued to make confusing and
16 misleading statements, further deceiving markets and creating a false pretense that festered into a
17 broader false understanding. But for these ongoing misrepresentations and misleading statements,
18 millions of purchasers would not have upgraded, traded for, or purchased an iPhone 16.

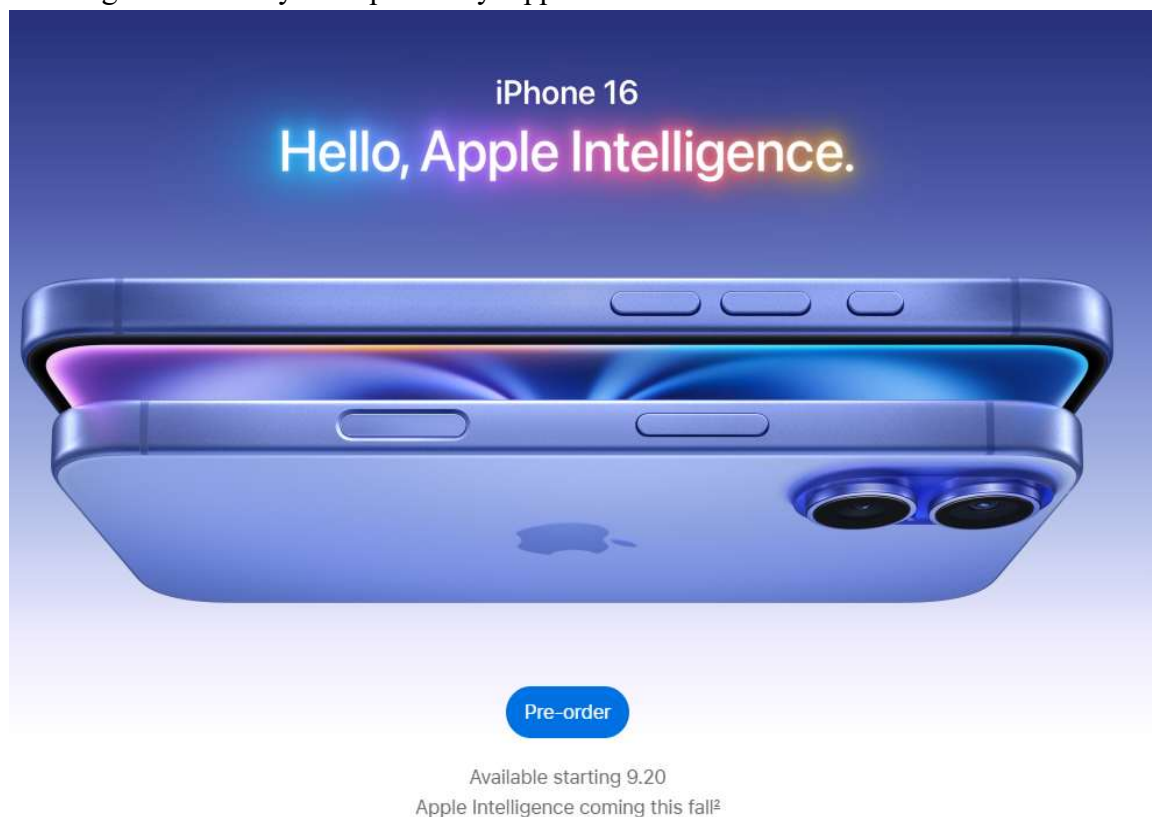

19 456. Ultimately, the Ramsey Ad was pulled from YouTube on March 10, 2025, three days
20 after Apple came clean that Enhanced Siri did not exist and never had. But Apple heavily
21 broadcasted the Ramsey Ad for at least seven months, knowing from the outset that its contents were
22 materially false and misleading. Apple also kept the ad in distribution long after company insiders
23 reported being increasingly concerned about the market deception.

24 457. Apple knew that it could not deliver Enhanced Siri by 2024, or even 2025. Consistent
25 with smartphone market research, however, Apple also knew Enhanced Siri was the primary reason
26 consumers were electing to purchase or upgrade to the new iPhone series. So to maintain its mirage
27 of innovation, and sell more iPhones, Apple continued to publish the advertisement and take
28 advantage of its viral status, while actively concealing the truth.

1 **G. “Apple Intelligence” and “New Era of Siri” Pervasive Advertisements**

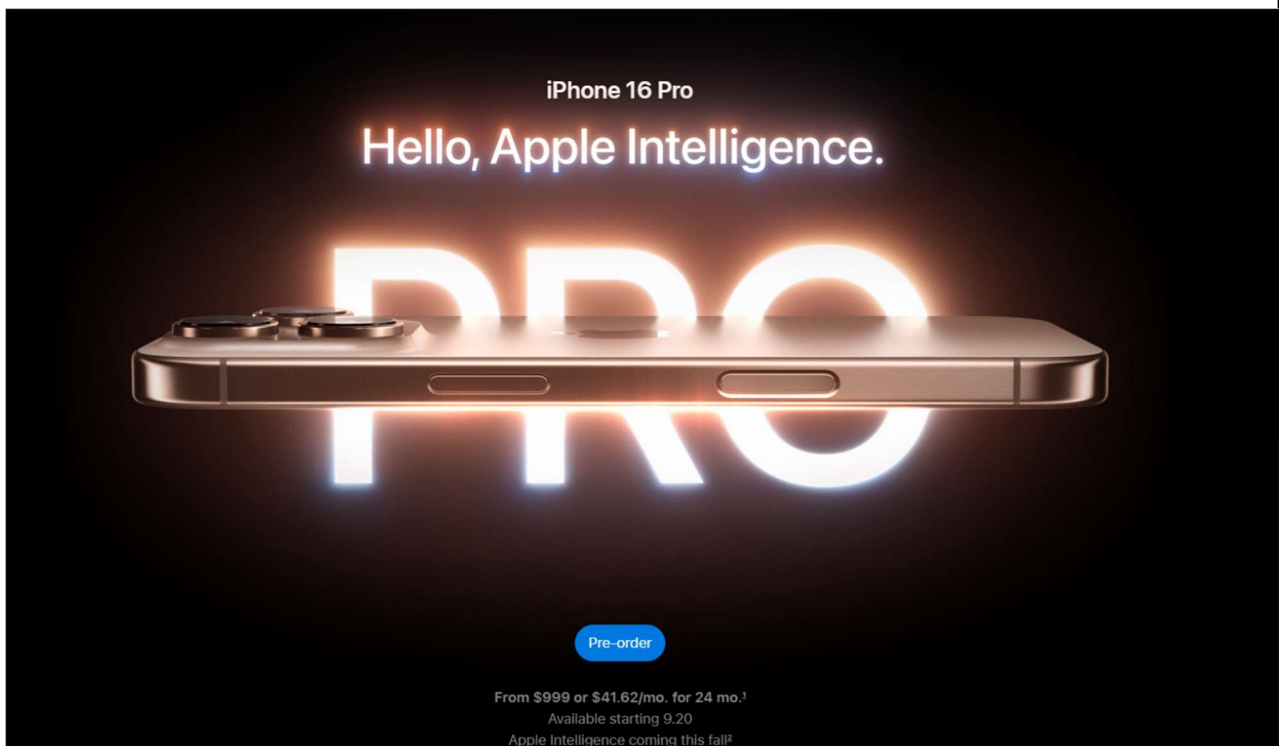

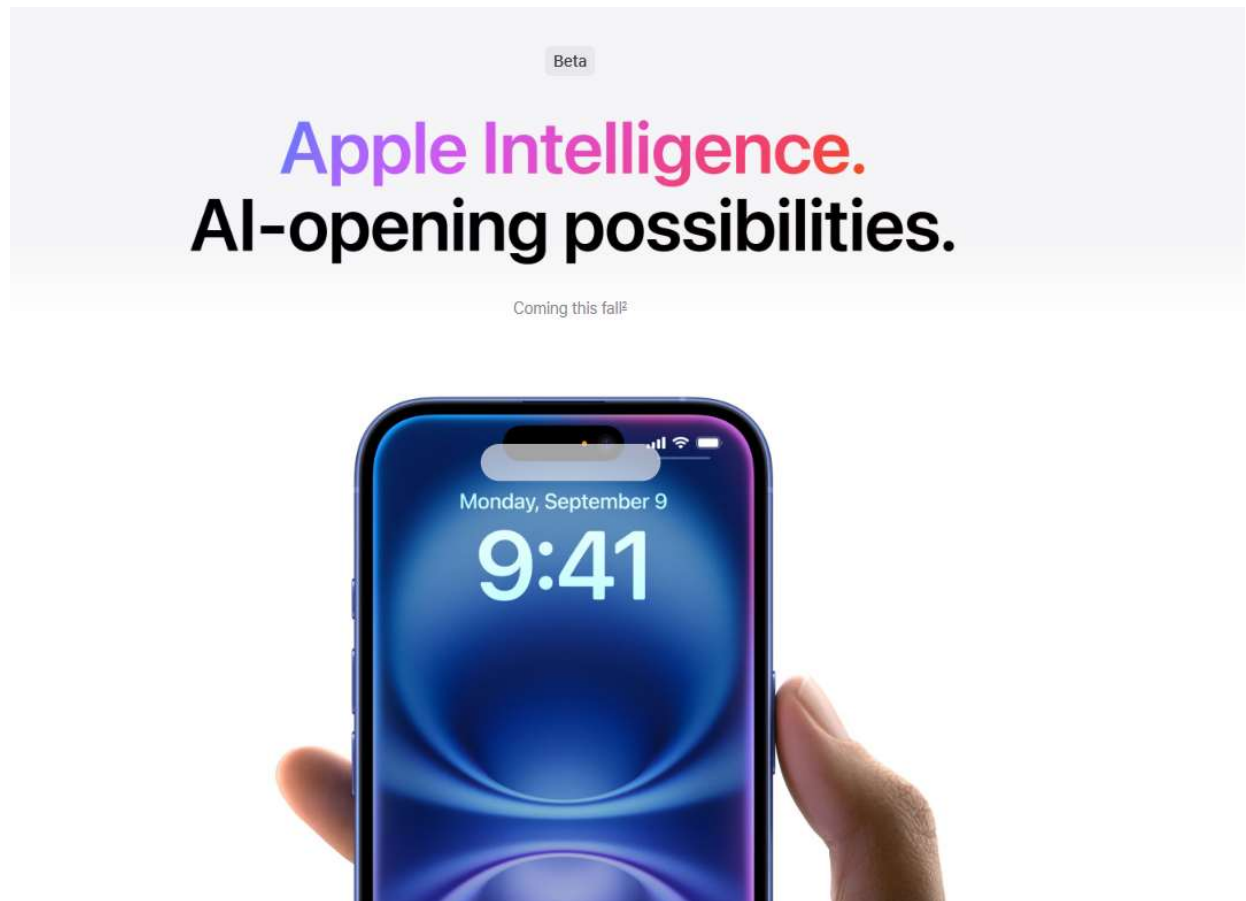

2 458. Following a flood of advertisements and media coverage, pre-orders for the Apple
3 Intelligence-enhanced iPhone 16 models, including the iPhone 16, iPhone 16 Plus, iPhone 16 Pro,
4 and iPhone 16 Pro Max, opened on Friday, September 13, 2024, and these iPhone models were
5 available for in-store purchase one week later.

6 459. The following advertisements appeared persistently on Apple’s website, social
7 media, YouTube, online, and/or in physical Apple retail stores/authorized re-sellers of Apple phones,
8 and/or during events & keynotes posted by Apple online:⁵⁹

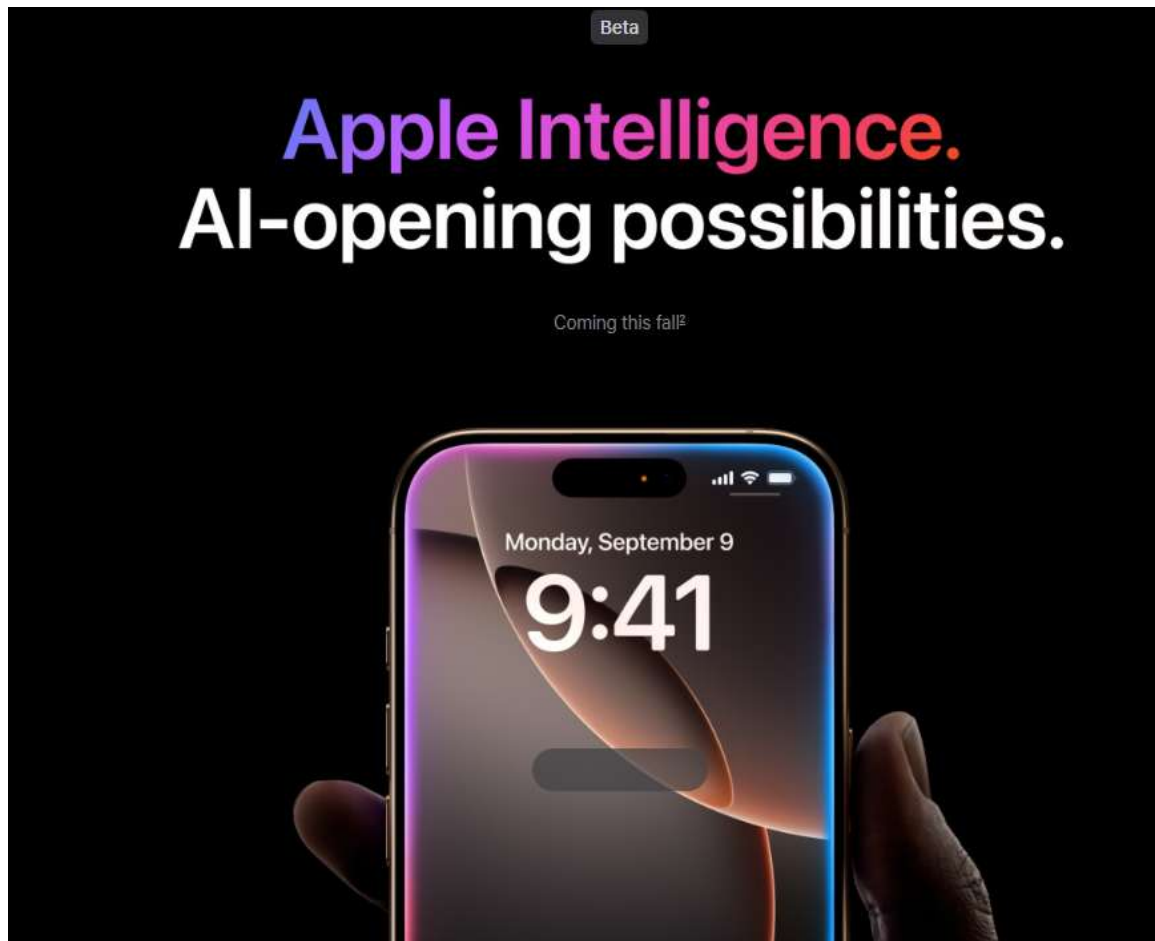

28 ⁵⁹ On around September 20, 2024, the line “available starting 9/20” or “coming this fall” changed to
“Apple Intelligence available now.”

[About ads and data use](#)

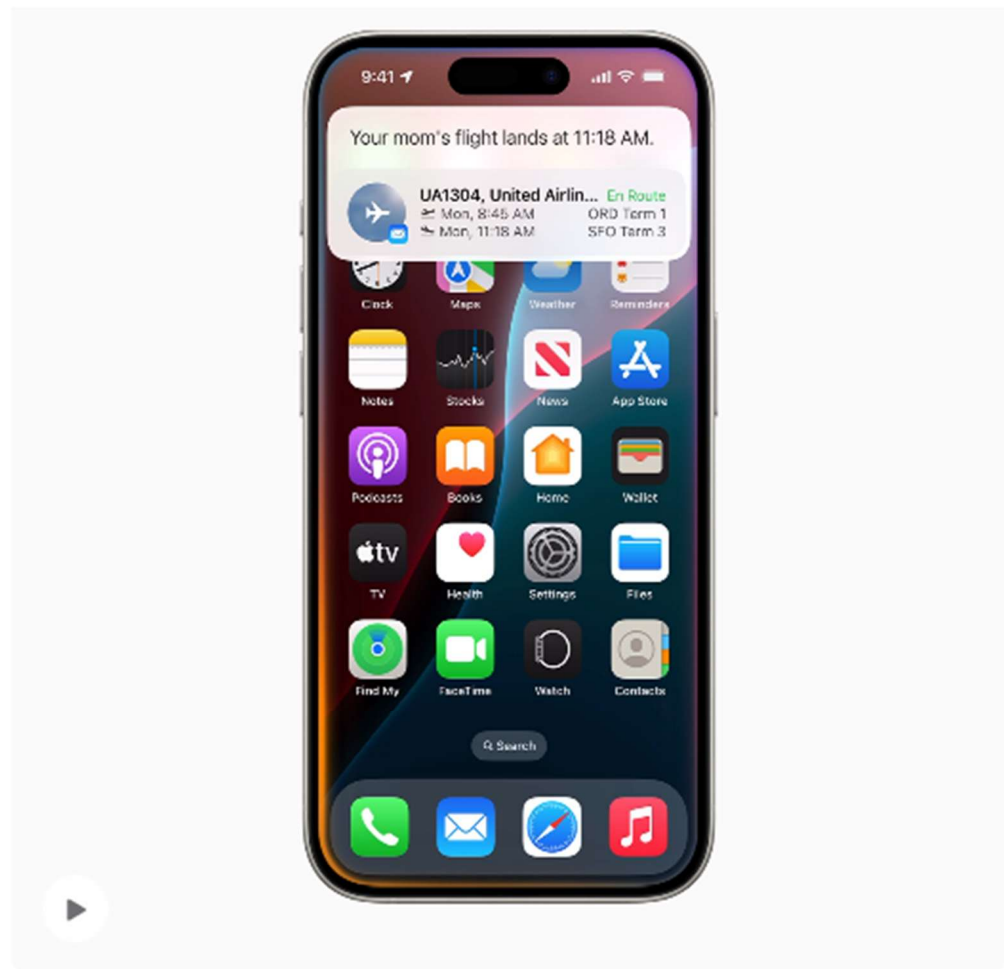

460. The leading headline across countless advertisements was “iPhone 16 Hello, Apple Intelligence,” “coming this fall [2024]” or “available now” Consistent with Apple’s otherwise pervasive campaign and product launch events, consumers reasonably understood this to mean that Siri had undergone its significant transformation, evolving from a basic voice prompt into a truly intelligent, contextually aware, and highly capable personal assistant.

461. Apple’s landing page for iPhone 16, under “Apple Intelligence. AI-opening possibilities” (in smaller font:) “coming this fall,” also contained a section dedicated to the “new era for Siri,” under which in bold, Apple represented “[w]ith all-new superpowers, Siri will be able to assist you like never before.”

1 462. The first image of the iPhone 16, appearing prominently on the “New Era for Siri”
2 section of the website for “Apple Intelligence” depicted Siri’s capabilities of recalling a mother’s
3 email where she said, “Hey honey, flight’s all set” and provided details, to let the Enhanced Siri user
4 know “Your mom’s flight is arriving on September 9th at 4:35 pm.” Under the depicted photograph
5 of the iPhone 16, Apple promised: “Awareness of your personal context enables Siri to help you in
6 ways that are unique to you. Need your passport number while booking a flight? Siri can help find
7 what you’re looking for, without compromising your privacy.”

463. Similar Siri capabilities appeared not only on Apple's "Apple Intelligence" page, but also across media campaigns, and in retail stores depicting Enhanced Siri's ability not only to recall your "mom's flight" but also check the flight data, and let you know that it was "En Route," it's arrival time, as well as the precise terminal.

Siri is able to deliver intelligence that's tailored to the user and their on-device information, like locating details on an upcoming flight or keeping track of a dinner reservation.

H. Purchasers Expressed Their Frustration While Apple Continued To Mislead The Public.

464. Starting approximately September 20, 2024, consumers began receiving their iPhone 16 series. After setting up their new iPhone 16s, or updating their iPhone 15 Pros, purchasers discovered advertised features did not exist. Disappointed, purchasers voiced surprise and frustration. For example:

1 “Just trade[d] in my iPhone 12 Pro Max for the 16 expecting it to have all the
2 features that were advertised with Apple Intelligence. But instead I got a phone
3 virtually the same as my 12 with a bit of a hardware upgrade.”⁶⁰

4 **“I would have never upgraded had I known this phone would not have
5 those features. I’m highly disappointed and feel like I was scammed”**⁶¹

6 “Every commercial on TV is broadcasting the 16 model with Apple Intelligence. I
7 understand Apple is not advertising it on their website that it’s available yet but
8 people don’t necessarily buy their phones by reading the fine print on the Apple
9 website. They are buying their phones through social media and television
10 commercials that are promoting the phone with this feature and it is not available
11 yet so it’s frustrating.”⁶²

12 465. On October 28, 2024, Apple responded by doubling down, announcing that Apple
13 Intelligence was now available on the Class Devices, stating, “Users can now tap into Apple
14 Intelligence to refine their writing; summarize notifications, mail, and messages; experience a more
15 natural and capable Siri; remove distracting objects from images with Clean Up; and more.”⁶³ This,
16 again, recreated an expectation that Enhanced Siri was available and would be delivered with the
17 iPhone 16 or software update for the iPhone 15 Pro. Again, however, the promised Siri never came.

18 466. In response to the October 29, 2024, release, the press again went abuzz with the
19 promise of Apple Intelligence landing on new iPhones, amplifying Apple’s fraud. Quoting Tim
20 Cook, *PCMag* reported that: “Apple Intelligence introduces a new era for iPhone, iPad, and Mac,
21 delivering brand-new experiences and tools that will transform what our users can accomplish” and
22 “Apple Intelligence builds on years of innovation in AI and machine learning to put Apple’s
23 generative models at the core of our devices, giving our users a personal intelligence system that is
24 easy to use.”⁶⁴

25 ⁶⁰ See, e.g., Apple Support Community, *Why is the Apple Intelligence not included on my iPhone*
26 *16?* APPLE (Oct. 2, 2024), <https://discussions.apple.com/thread/255784851?sortBy=rank>.

27 ⁶¹ *Id.* (comment dated Oct. 24, 2024).

28 ⁶² *Id.* (comment dated Oct. 25, 2025).

⁶³ Apple Newsroom, *supra* note 11.

⁶⁴ Emily Forlini, *Hands On With Apple Intelligence in iOS 18.1: Here's What You Get Right Now*,
PCMAG (Oct. 28, 2024), <https://www.pcmag.com/news/apple-intelligence-launches-with-ios-181-heres-what-you-get>.

467. Apple purchasers continued to rely on Apple’s promises regarding Apple Intelligence’s functionality, which enticed consumers to purchase new iPhones on the expectation that they would receive heavily-advertised features such as Enhanced Siri that, in truth, did not exist.

I. March 7, 2025 – Apple Finally Admits Its Deception

468. Unbeknownst to consumers, when Apple showcased its Apple Intelligence features at WWDC, subsequently at the iPhone 16 series launch, and otherwise through nationwide commercials, ad campaigns, and its website, Enhanced Siri did not exist. An early prototype was reportedly barely functional.

469. Siri’s Senior Director Robby Walker (“Walker”) recently acknowledged to Apple employees that the delays in delivering the promised functionality were particularly “ugly,” especially because Apple had already publicly showed off the features, including in the high-profile Ramsey Ad.⁶⁵ “This was not one of these situations where we get to show people our plan after it’s done,” he said. “We showed people before.”⁶⁶

470. According to *Bloomberg’s* Mark Gurman in March 2025, Apple executives had internally expressed strong concerns that the features didn’t work properly—or as advertised—in their own testing. Some in Apple’s AI division reportedly speculated that the AI features might have to be scrapped altogether, and that Apple may have to rebuild functions from scratch, including the highly-publicized Enhanced Siri.⁶⁷ The promised capabilities would therefore be even further delayed.⁶⁸

471. During an all hands meeting for the Siri division, Walker also warned of further delays, citing competing internal priorities: “We have other commitments across Apple to other projects . . . and we understand those are now potentially more timeline-urgent than the features that have been deferred.” He added, “[c]ustomers are not expecting only these new features, but they

⁶⁵ Mark Gurman, *Hands On With Apple’s Siri Chief Calls AI Delays Ugly and Embarrassing, Promises Fixes*, BLOOMBERG (Mar. 14, 2025), <https://www.bloomberg.com/news/articles/2025-03-14/apple-s-siri-chief-calls-ai-delays-ugly-and-embarrassing-promises-fixes?embedded-checkout=true>.

⁶⁶ *Id.*

⁶⁷ *Id.*

⁶⁸ *Id.*

1 also want a more fully rounded-out Siri,”⁷⁰ as had been promised and publicly demoed months
2 before.

3 472. Behind the scenes, by late March 2025, Apple had quietly undergone a significant
4 leadership change in response to Apple’s failure to deliver Enhanced Siri with the Class Devices.
5 Former AI head, John Giannandrea (“Giannandrea”) was sidelined and replaced by Apple Vision
6 Pro creator, Mike Rockwell (“Rockwell”).⁶⁹ According to Gurman, “Chief Executive Officer Tim
7 Cook has lost confidence in the ability of AI head John Giannandrea to execute on product
8 development.”⁷⁰ Rockwell was moved to report to Craig Federighi, the head of the software
9 department, completely removing Siri from Giannandrea’s command.⁷¹

10 473. This leadership change signaled Apple’s internal acknowledgement of its failure to
11 fulfill its promises on which purchasers of the Class Devices relied. The move “underscore[d] the
12 plight facing Apple: Its AI technology is severely lagging industry rivals, and the company has
13 shown little sign of catching up. The Apple Intelligence platform was late to arrive and largely a
14 flop, despite being the main selling point for the iPhone 16.”⁷²

15 474. On March 7, 2025, veteran Apple analyst Johnathan Gruber published a statement
16 from Apple spokeswoman Jacqueline Roy, in which Apple officially conceded that the AI-based
17 Siri features promised in 2024 would not be delivered until 2026, as follows:

18 “We’ve . . . been working on a more personalized Siri, giving it more
19 awareness of your personal context, as well as the ability to take
20 action for you within and across your apps. It’s going to take us
longer than we thought to deliver on these features and we anticipate
rolling them out in the coming year.”⁷³

28 ⁷³ John Gruber, *Apple Is Delaying the ‘More Personalized Siri’ Apple Intelligence Features*,
DARING FIREBALL (Mar. 7, 2025),
https://daringfireball.net/2025/03/apple_is_delaying_the_more_personalized_siri_apple_intelligence_features.

475. Gruber commented: “What Apple is saying here is that these ‘more personalized Siri’ features are being punted from this year’s OS cycle to next year’s: to iOS 19 and MacOS 16.”⁷⁴

476. On March 2, 2025, Bloomberg’s Gurman aptly captured the wide delta between Apple’s marketing claims and the truth. With respect to Enhanced Siri and the Ramsey Ad, he posted: “Just to provide some visual context on the disconnect between Apple marketing and the reality of the Apple AI. **This TV ad for Apple Intelligence was released 5 months ago. It still cannot do what is shown here.**”⁷⁵

477. Although the Ramsey Ad was eventually removed, Apple never formally retracted its other misleading iPhone 16 series claims, nor has it taken action that would adequately remedy consumers harmed by the Company’s widespread deception.

478. As iPhone 16 sales dropped in reaction to the truth, Wall Street analyst at Morgan Stanley, Erik Woodring explained: “‘Access to Advanced AI Features’ was listed as a top 5 driver of smartphone upgrades for the first time, and an ‘Upgraded Siri digital assistant’ was the Apple Intelligence feature prospective new model iPhone buyers (globally) were most interested in [.]”

479. On April 3, 2025, the *Wall Street Journal* aptly concluded: “**With ‘more personal’ Siri [. . .], the tech giant[] marketed features [it] ha[s] yet to deliver,**” and aptly concluded, “**They shouldn’t announce products until they’re sure they can deliver them.**”⁷⁶

⁷⁴ *Id.*

J. National Advertising Division Finds Apple’s AI Advertising Misleading, Recommends Discontinuing or Modifying AI Claims

480. The National Advertising Division (“NAD”) and the National Advertising Review Board (“NARB”), established in 1971, serve as the advertising industry’s independent system of self-regulation, aimed at fostering consumer trust and truth in advertising. NAD reviews national advertising across all platforms, acting on third-party challenges and through self-initiated inquiries.

481. As a part of its monitoring program, NAD *sua sponte* initiated a review of Apple’s promotional claims regarding Apple Intelligence, including Enhanced Siri. NAD challenged both express and implied representations concerning Siri and other unavailable AI features including the following:

- “Apple Intelligence. Available Now.”

...

- Siri Functionality:

“Apple Intelligence empowers Siri with onscreen awareness, so it can understand and take action with things on your screen.”

“Awareness of your personal context enables Siri to help in ways that are unique to you.”

“Siri can use its knowledge of the information on your device to help find what you’re looking for, without compromising your privacy.”

“Seamlessly take action in and across apps with Siri. You can make a request like “send the email I drafted to April and Lilly” and Siri knows which email you’re referencing and which app it’s in. And Siri can take actions across apps, so after you ask Siri to enhance a photo for you by saying “Make this photo pop,” you can ask Siri to drop it in a specific note in the Notes apps – without lifting a finger.”

482. After reviewing extensive evidence and rebuttal arguments from Apple, NAD issued its decision in April 2025. It concluded that Apple’s unqualified “Available Now” claim, featured prominently on the top of its Apple Intelligence webpages and paired with detailed AI feature descriptions, reasonably conveyed the message that these features, including Enhanced Siri, were fully available at launch. In reality, they were not.

483. With respect to several promised features, NAD held Apple's claims “were not supported at the time they were first made” and that “Apple did not adequately disclose that the features were not available[.]” As NAD further explained, “reasonable consumers could take away the messages that these features were available at the time these claims were first made, which they were not.” Consequently, NAD recommended that Apple cease making such claims to “avoid conveying the message that features are available when they are not.”

484. NAD also highlighted Apple’s heavy focus on promoting Enhanced Siri, stating that “much of Apple’s advertising focused on these new features, highlighting in particular, the anticipated updates to Siri functionality.” As NAD explained, the **“description of Siri’s updated functionality below Apple’s unqualified claim that Apple Intelligence is ‘available now’ also reasonably conveys the message that the updated Siri functionality was available as part of the iPhone 16 launch, which it was not.”** In so concluding, NAD did not find any disclosure as to timing, or other qualifier, persuasive.⁷⁷

485. Apple ultimately advised NAD that the enhancements to Siri were not going to be available as originally promised, and that Apple was “taking steps to update its promotional materials to reflect this change,” including the demonstration of an operable Enhanced Siri in the Ramsey Ad. According to NAD, “[t]he voluntarily discontinued claims will be treated for compliance purposes, as though NAD recommended their discontinuation and [Apple] agreed to comply.”⁷⁸

K. Apple’s Continued Delays Fuel Consumer Dissatisfaction

486. With the announcement of further delays, the Internet was flooded with complaints from consumers who purchased the Class Devices for Apple Intelligence and Enhanced Siri, but instead received an iPhone that is virtually identical to prior models:

⁷⁷ See *fn. 13, supra*, NAD Decision: “However, none of these disclosures was clear and conspicuous or in close proximity to the claims. Indeed, the press releases and technical support were on completely separate web pages with no link to where the claims were made. Further, these disclosures contradict the broad “available now” claim positioned prominently at the top of the page.”

⁷⁸ See *fn. 13, supra*, NAD Decision, p. 3.

1 “Well I already bough [sic] the 16 pro at launch after years of not upgrading,
2 for nothing! I’ve noticed zero difference between this and my 13 pro. Feel duped
big time.”⁷⁹

3 “I should have kept my 13. It was paid off. Need a new screen and perhaps fresh battery
4 but there’s literally nothing different with my 16.”⁸⁰

5 “So my ‘built for Apple Intelligence’ phone is only ‘intelligent’ enough to create
6 stupid emojis and generate insipid text slop in my notes app. Cool.”⁸¹

7 “I’m gutted to hear about this delay, this is one feature set I was looking forward
to using[.]”⁸²

8 “Garbage. iPhone 16, built for Apple Intelligence, was a scam. I now officially
9 feel ripped off.”⁸³

10 487. Aptly capturing widespread consumer sentiment with respect to the much-heralded
11 Enhanced Siri, one consumer asked: “So will iPhone 16 owners get some sort of compensation for
12 false advertising? **Going to 7 months without one of the main selling points this generation had
13 going for it.**”⁸⁴

14 **L. Apple’s 2025 WWDC Largely Avoids Spending Time on Enhanced Siri**

15 488. On June 9, 2025, Apple’s Senior Vice President of Software Engineering Craig
16 Federighi opened the company’s latest World Wide Developer’s Conference (“WWDC 2025”) with
17 a presentation addressing Apple Intelligence, stating “last year, we took the first steps on a journey
18 to bring you intelligence that’s most helpful and relevant for you.”⁸⁵ He listed features such as

⁸⁵ Apple, WWDC 2025, YOUTUBE (Jun. 9, 2025),
https://www.youtube.com/watch?v=0_DjDdfqtUE (quoted language at 4:08).

1 Writing Tools, Genmoji, Image Playground, Clean Up in Photos, among others, claiming Apple
2 delivered “while taking an extraordinary step forward in privacy with private cloud compute.”⁸⁶

3 489. Yet to the surprise and frustration of many consumers and investors, Apple failed to
4 meaningfully address the status or release timeline for Enhanced Siri, the very centerpiece of Apple
5 Intelligence announced at WWDC 2024. The glaring omission came amid growing calls from the
6 public for accountability, refunds, and transparency regarding the promised, but undelivered,
7 Enhanced Siri.

8 490. In stark contrast to the prior year’s WWDC, where Apple devoted considerable time
9 to Apple Intelligence, Federighi’s 2025 remarks on it lasted just three minutes and ten seconds. With
10 respect to Siri, Federighi represented vaguely that Apple “introduced enhancements that make Siri
11 more natural and more helpful.”⁸⁷

12 491. But, as Apple knew, this was a far cry from the personalized digital AI assistant it
13 promised would revolutionize smartphone use as the breakthrough innovation provided by the Class
14 Devices. So, to briefly address that glaring failure, Federighi added, “. . . We’re continuing our work
15 to deliver the features that make Siri even more personal. This work needed more time to reach our
16 high-quality bar, and we look forward to sharing more about it in the coming year.”⁸⁸

17 492. Federighi then quickly pivoted to a more optimistic future, claiming, “you’ll see new
18 Apple intelligence features that elevate your experiences across iPhone, Apple Watch, Apple Vision
19 Pro, and iPad.”⁸⁹ After highlighting other new features ultimately panned as unremarkable after the
20 event, Apple CEO Tim Cook reassured consumers in close that Apple is “[continuing] to advance
21 each of our platforms with more ways to harness the power of Apple Intelligence.”⁹⁰

22 493. Media outlets swiftly criticized Apple’s failure to deliver meaningful update on
23 Enhanced Siri. Several news outlets hosted interviews after the WWDC with Federighi and Apple’s
24 Senior Vice President of Worldwide Marketing Greg Joswiak (“Joz”) In one, Federighi discussed
25 Siri’s “V1” architecture displayed at the WWDC in 2024. He claimed that, at the time, Apple was

26 ⁸⁶ *Id.*

27 ⁸⁷ *Id.* at 5:09.

28 ⁸⁸ *Id.* at 5:14.

⁸⁹ *Id.* at 5:46.

⁹⁰ *Id.* at 1:28:37.

1 confident that Enhanced Siri could be delivered in December 2024, and at the latest, be available in
 2 the spring of 2025, but that the V1 architecture was ultimately discarded. According to Federighi, it
 3 would not perform as customers expected and was also not up to Apple's high standards.⁹¹

4 494. Pressed on why Apple promoted these features before they were ready, Federighi
 5 stated that Apple "knew the world wanted a really complete picture of what Apple [is] thinking about
 6 the implications of Apple Intelligence and where it [is] going."⁹² According to him, as soon as Apple
 7 realized Siri needed "V2" architecture to function properly, they let the world know.⁹³ But critically,
 8 this came long after the iPhone 16 and Apple Intelligence launch, and long after Apple had actively
 9 promoted, demonstrated, and sold the feature during the crucial post-launch months when most
 10 consumers make their purchase decisions.

11 495. As for the still-unreleased feature, Federighi confirmed Apple would no longer be
 12 able to commit to a release date for Enhanced Siri's new architecture and AI capabilities.⁹⁴ But he
 13 indicated that consumers could now expect the promised features **sometime in 2026**.⁹⁵ However,
 14 given internal commentary from Apple's senior executives like Robby Walker regarding, who cited
 15 competing corporate priorities and underperforming prototypes, there remains no guarantee the
 16 promised functionality will ever be delivered.^{96 97}

17 496. Following WWDC 2025, Apple's stocks dropped 2.5%, shedding \$75 billion in
 18 market capitalization.⁹⁸ Wall Street analysts including analysts from Wedbush, Barclays, Forrester

 14, 2025), <https://www.theverge.com/news/629940/apple-siri-robbey-walker-delayed-ai-features>.

⁹⁷ Chance Miller, *Bloomberg: Apple could have to scrap new Siri AI features and start over*,
 9TO5MAC (Mar. 7, 2025), <https://9to5mac.com/2025/03/07/apple-siri-ai-features-delayed-ios-19/>.

⁹⁸ *Apple's WWDC 2025: Investor Expectations and Stock Price Impact*, 360 MARKET IQ (June 9,
 2025), <https://360miq.com/blog/apples-wwdc-2025-investor-expectations-and-stock-price-impact/>.

1 and media outlets described Apple’s keynote as underwhelming, and many expressed concerns that
2 Apple risked falling further behind more aggressive AI competitors.⁹⁹

3 497. Wedbush Securities summed up the vibe of the WWDC 2025 succinctly: “Overall,
4 WWDC laid out the vision for developers but was void of any major Apple Intelligence progress as
5 Cupertino is playing it safe and close to the vest after the missteps last year.”¹⁰⁰

6 498. Dipanjan Chatterjee, Forrester vice president and principal analyst, likewise
7 commented that “the silence surrounding Siri was deafening.” “Apple continues to tweak its Apple
8 Intelligence features, **but no amount of text corrections or cute emojis can fill the yawning void**
9 **of an intuitive, interactive AI experience** that we know Siri will be capable of when ready,”
10 Chatterjee said in an email. “We just don’t know when that will happen.”¹⁰¹

11 499. Barclays expressed disappointment, albeit as they expected: “We were not expecting
12 much from the annual WWDC keynote, but were still slightly disappointed at the content and
13 features announced today. We view changes to all device Operating Systems and Apple Intelligence
14 as incremental, and not enough to drive any upgrade cycles.”¹⁰²

15 500. The *Wall Street Journal* also reported on Apple’s WWDC 2025. Columnist Dana
16 Gallagher wrote critically of the low expectations Apple faced coming into its development
17 conference this year, opining that even with scathing criticism from last year’s rollout, “[t]hat
18 [Apple] still failed to meet [those low expectations] says a lot about where the company is with
19 Artificial Intelligence.”¹⁰³

25 *major products*, CNN (June 9, 2025), <https://www.cnn.com/2025/06/09/tech/apple-wwdc-iphone-ai-what-to-expect>.

26 ¹⁰² Rani Molla, *Analysts: “We were not expecting much... but were still slightly disappointed” by*
27 *Apple*, SHERWOOD, (June 10, 2025) <https://sherwood.news/tech/analysts-show-muted-reactions-to-apples-developer-conference-wwdc/>.

28 ¹⁰³ Dana Gallagher, *Apple Fails to Clear a Low Bar on AI*, WALL STREET JOURNAL (Jun. 10, 2025),
https://www.wsj.com/tech/ai/apple-ai-strategy-wwdc-challenges-bdae4fb5?st=BS7qQ6&reflink=article_copyURL_share.

501. Similarly, *Bloomberg's* Mark Gurman wrote that the “company’s Siri team is aiming to bring the revamped voice assistant to market as part of an iOS 26.4 software update, according to people with knowledge of the matter.”¹⁰⁴ He noted that if the announced timing sticks, “**Apple will have gone nearly two years between announcing the new Siri and delivering it to customers.**”¹⁰⁵

502. Gurman further reported that internally, “Apple’s AI and marketing teams have pointed fingers at each other. The engineering side has blamed marketing for overhyping features, while marketing maintains it operated on timelines provided to them by the company’s AI teams, according to people with knowledge of the matter,” a clear divergence from the united front Federighi have portrayed to the public in recent interviews.¹⁰⁶

503. Apple’s vague promise to deliver Enhanced Siri in 2026 does little to console customers who, in deciding to upgrade or purchase the Class Devices, relied on Apple’s representations that the feature would be available with the launch of the Class Devices.

M. Apple Engaged in Deceptive Conduct to Obtain an Unfair Competitive Advantage

504. Beyond exploiting unsuspecting consumers, Apple also gained an unfair advantage over competitors in the market who do not tout non-existent AI features, or who actually deliver them as promised.

505. Due to the risks and proliferation of false AI-related advertising in the consumer market, the California Attorney General’s office issued a dedicated Legal Advisory to warn companies specifically that California consumer protection laws “prohibit false advertising regarding the capabilities, availabilities, and utility of AI products[.]”¹⁰⁷

506. Apple, founded and based in California, is intimately familiar with these consumer protection laws and prohibitions on anti-competitive behavior. But in the race for AI market share,

¹⁰⁴ Mark Gurman, *Apple Targets Spring 2026 for Release of Delayed Siri AI Upgrade*, BLOOMBERG (June 12, 2025), <https://www.bloomberg.com/news/articles/2025-06-12/apple-targets-spring-2026-for-release-of-delayed-siri-ai-upgrade?sref=4CbA7ZQa>.

¹⁰⁵ *Id.*

¹⁰⁶ *Id.*

¹⁰⁷ *California Attorney General’s Legal Advisory on the Application of Existing California Laws to Artificial Intelligence*, CALIFORNIA DEPARTMENT OF JUSTICE,

<https://oag.ca.gov/system/files/attachments/press-docs/Legal%20Advisory%20-%20Application%20of%20Existing%20CA%20Laws%20to%20Artificial%20Intelligence.pdf>

1 it violated them anyway, misleading consumers into believing the Class Devices possessed AI
 2 features, functions, and benefits the Class Devices do not have and, according to company and
 3 industry insiders, may never have.

4 507. As a result, millions of purchasers of the Class Devices paid an unlawful price
 5 premium for features they did not receive. Even if the promised features arrive years later, they may
 6 be available across competing technologies by then as well, further rendering Apple's early
 7 campaign of supposedly unique and innovative capabilities meaningless. Based on its historical
 8 production cadence, it is also likely that Apple will be marketing another new iPhone series this Fall,
 9 leaving consumers who bought into Apple's false promises for the 16 series stuck with outdated
 10 technology for which they also overpaid.

11 508. This is exactly the kind of calculated deception and market impact that consumer
 12 protection laws nationwide were designed to prevent. The NAD's decision condemning Apple's
 13 iPhone 16 advertising said it well: "As [AI] tools are quickly being announced and released into the
 14 market, it is important to ensure that claims about the capabilities of the AI tools meet the same truth
 15 in advertising and consumer protection standards as all other product claims."¹⁰⁸

16 VI. CLASS ACTION ALLEGATIONS

17 509. Pursuant to Federal Rules of Civil Procedure 23(a), (b)(2) and (b)(3), Plaintiffs bring
 18 this action individually and on behalf of the following class and subclasses (the "Class"):

19
 20 **NATIONWIDE CLASS:** All purchasers of the Class Devices (iPhone 16, iPhone 16e,
 21 iPhone 16 Plus, iPhone 16 Pro, iPhone 16 Pro Max, iPhone 15 Pro, or iPhone 15 Pro Max)
 22 who reside in the United States and purchased an Class Device in the United States for
 purposes other than resale, during the Class Period.

In the alternative:

23 **ALABAMA SUBCLASS:** All residents of Alabama who purchased an Class Device in the
 24 United States for purposes other than resale, (the "Alabama Subclass") during the Class
 Period.

25 **ALASKA SUBCLASS:** All residents of Alaska who purchased an Class Device in the
 26 United States for purposes other than resale, (the "Alaska Subclass") during the Class Period.

27
 28 ¹⁰⁸ See *fn. 13, supra*, NAD Decision, p. 3.

1 **ARIZONA SUBCLASS:** All residents of Arizona who purchased an Class Device in the
2 United States for purposes other than resale, (the “Arizona Subclass”) during the Class Period.

3 **CALIFORNIA SUBCLASS:** All residents of California who purchased an Class Device
4 for purposes other than resale (the “California Subclass”) during the Class Period.

5 **COLORADO SUBCLASS:** All residents of Colorado who purchased an Class Device for
6 purposes other than resale (the “Colorado Subclass”) during the Class Period.

7 **CONNECTICUT SUBCLASS:** All residents of Connecticut who purchased an Class
8 Device for purposes other than resale (the “Connecticut Subclass”) during the Class Period.

9 **FLORIDA SUBCLASS:** All residents of Florida who purchased an Class Device for
10 purposes other than resale (the “Florida Subclass”) during the Class Period.

11 **GEORGIA SUBCLASS:** All residents of Georgia who purchased an Class Device for
12 purposes other than resale (the “Georgia Subclass”) during the Class Period.

13 **ILLINOIS SUBCLASS:** All residents of Illinois who purchased an iPhone 16, iPhone 16e,
14 iPhone 16 Plus, iPhone 16 Pro, iPhone 16 Pro Max, iPhone 15 Pro, or iPhone 15 Pro Max,
15 for purposes other than resale (the “Illinois Subclass”) during the Class Period.

16 **INDIANA SUBCLASS:** All residents of Indiana who purchased an Class Device for
17 purposes other than resale (the “Indiana Subclass”) during the Class Period.

18 **IOWA SUBCLASS:** All residents of Iowa who purchased an iPhone 16, iPhone 16e, iPhone
19 16 Plus, iPhone 16 Pro, iPhone 16 Pro Max, iPhone 15 Pro, or iPhone 15 Pro Max, for
20 purposes other than resale (the “Iowa Subclass”) during the Class Period.

21 **KENTUCKY SUBCLASS:** All residents of Kentucky who purchased an Class Device for
22 purposes other than resale (the “Kentucky Subclass”) during the Class Period.

23 **MARYLAND SUBCLASS:** All residents of Maryland who purchased an Class Device for
24 purposes other than resale (the “Maryland Subclass”) during the Class Period.

25 **MASSACHUSETTS SUBCLASS:** All residents of Massachusetts who purchased an Class
26 Device for purposes other than resale (the “Massachusetts Subclass”) during the Class Period.

27 **MICHIGAN SUBCLASS:** All residents of Michigan who purchased an Class Device for
28 purposes other than resale (the “Michigan Subclass”) during the Class Period.

MINNESOTA SUBCLASS: All residents of Minnesota who purchased an Class Device for
purposes other than resale (the “Minnesota Subclass”) during the Class Period.

MISSISSIPPI SUBCLASS: All residents of Mississippi who purchased an Class Device
for purposes other than resale (the “Mississippi Subclass”) during the Class Period.

1 **MISSOURI SUBCLASS:** All residents of Missouri who purchased an Class Device for
2 purposes other than resale (the “Missouri Subclass”) during the Class Period.

3 **MONTANA SUBCLASS:** All residents of Montana who purchased an Class Device for
4 purposes other than resale (the “Montana Subclass”) during the Class Period.

5 **NEBRASKA SUBCLASS:** All residents of Nebraska who purchased an Class Device for
6 purposes other than resale (the “Nebraska Subclass”) during the Class Period.

7 **NEVADA SUBCLASS:** All residents of Nevada who purchased an Class Device for
8 purposes other than resale (the “Nevada Subclass”) during the Class Period.

9 **NEW HAMPSHIRE SUBCLASS:** All residents of New Hampshire who purchased an
10 Class Device for purposes other than resale (the “New Hampshire Subclass”) during the
11 Class Period.

12 **NEW JERSEY SUBCLASS:** All residents of New Jersey who purchased an Class Device
13 for purposes other than resale (the “New Jersey Subclass”) during the Class Period.

14 **NEW MEXICO SUBCLASS:** All residents of New Mexico who purchased an Class Device
15 for purposes other than resale (the “New Mexico Subclass”) during the Class Period.

16 **NEW YORK SUBCLASS:** All residents of New York who purchased an Class Device for
17 purposes other than resale (the “New York Subclass”) during the Class Period.

18 **NORTH CAROLINA SUBCLASS:** All residents of North Carolina who purchased an
19 Class Device for purposes other than resale (the “North Carolina Subclass”) during the Class
20 Period.

21 **OHIO SUBCLASS:** All residents of Ohio who purchased an Class Device for purposes
22 other than resale (the “Ohio Subclass”) during the Class Period.

23 **OKLAHOMA SUBCLASS:** All residents of Oklahoma who purchased an Class Device for
24 purposes other than resale (the “Oklahoma Subclass”) during the Class Period.

25 **OREGON SUBCLASS:** All residents of Oregon who purchased an Class Device for
26 purposes other than resale (the “Oregon Subclass”) during the Class Period.

27 **PENNSYLVANIA SUBCLASS:** All residents of Pennsylvania who purchased an Class
28 Device for purposes other than resale (the “Pennsylvania Subclass”) during the Class Period.

RHODE ISLAND SUBCLASS: All residents of Rhode Island who purchased an Class
 Device for purposes other than resale (the “Rhode Island Subclass”) during the Class Period.

SOUTH CAROLINA SUBCLASS: All residents of South Carolina who purchased an
 Class Device for purposes other than resale (the “South Carolina Subclass”) during the Class
 Period.

1 **TEXAS SUBCLASS:** All residents of Texas who purchased an Class Device for purposes
2 other than resale (the “Texas Subclass”) during the Class Period.

3 **UTAH SUBCLASS:** All residents of Utah who purchased an Class Device for purposes
4 other than resale (the “Utah Subclass”) during the Class Period.

5 **VIRGINIA SUBCLASS:** All residents of Virginia who purchased an Class Device for
6 purposes other than resale (the “Virginia Subclass”) during the Class Period.

7 **WASHINGTON SUBCLASS:** All residents of Washington who purchased an Class Device
8 for purposes other than resale (the “Washington Subclass”) during the Class Period.

9 **WEST VIRGINIA SUBCLASS:** All residents of West Virginia who purchased an Class
10 Device for purposes other than resale (the “West Virginia Subclass”) during the Class Period

11 **WISCONSIN SUBCLASS:** All residents of Wisconsin who purchased an Class Device for
12 purposes other than resale (the “Wisconsin Subclass”) during the Class Period.

13 510. The Class Period extends from June 10, 2024, to March 29, 2025.

14 511. Excluded from the Class and Subclasses are (i) Defendant, any entity in which a
15 Defendant has a controlling interest or which has a controlling interest in any Defendant, and
16 Defendant’s legal representatives, predecessors, successors and assigns; (ii) governmental entities;
17 (iii) Defendant’s employees, officers, directors, agents, and representatives and their family
18 members; and (iv) the Judge and staff to whom this case is assigned, and any member of the judge’s
19 immediate family.

20 512. Members of the Class are so numerous that joinder is impracticable. Apple sold
21 hundreds of thousands of Model 16, 16 Plus, 16 Pro, 16 Pro Max or 16e iPhones in the United States
22 during the Class Period, and Apple, and/or retailers, third-party vendors, or resellers, has records of
23 these sales and the owners.

24 513. There is a well-defined community of interest in the questions of law and fact
25 involved in this case. Questions of law and fact common to the members of the Class that
26 predominate over questions that may affect individual Class and Subclass Members include:

- 27 • Whether Apple’s advertising and other public statements about the iPhone 16 and
28 Enhanced Siri were false and misleading;
- Whether Apple misrepresented and/or failed to adequately disclose that Enhanced
Siri features would not be available when promised on the iPhone 16;

- 1 • Whether the cost of the iPhone 16 was inflated by the promised Enhanced Siri
- 2 functionality that either never materialized or was significantly delayed;
- 3 • Whether Apple’s conduct was unfair, deceptive, and/or misleading under applicable
- 4 law;
- 5 • Whether Apple has been unjustly enriched as a result of the unlawful, fraudulent, and
- 6 unfair conduct alleged in this Complaint such that it would be inequitable for it to retain the benefits
- 7 conferred upon Apple by Plaintiff and the Nationwide Members;
- 8 • Whether Apple breached its express and/or implied warranties to Plaintiff and the
- 9 Class and Subclass;
- 10 • Whether Plaintiff and the Class and Subclass have sustained damages with respect to
- 11 the claims asserted, and if so, the proper measure of their damages;
- 12 • Whether Apple made negligent representations with regards to the iPhone 16; and
- 13 • Whether Apple has violated the state consumer protection laws alleged in this
- 14 complaint.
- 15 • Plaintiff’s claims are typical of those of the Class because Plaintiff, like all members
- 16 of the Class, purchased and used Defendant’s iPhone 16 and Plaintiff sustained damages from
- 17 Defendant’s wrongful conduct.

18 514. Plaintiff will fairly and adequately protect the interests of the Class and have retained

19 counsel that is experienced in litigating complex consumer protection class actions. Plaintiff has no

20 interests which conflict with those of the Class or the Subclass.

21 515. A class action is superior to other available methods for the fair and efficient

22 adjudication of this controversy.

23 516. The prosecution of separate actions by members of the Class would create a risk of

24 establishing inconsistent rulings and/or incompatible standards of conduct for Defendant.

25 **VII. CHOICE OF LAW**

26 517. Apple is headquartered at 1 Apple Park Way in Cupertino, California, making

27 California the epicenter of this case. Indeed, it is in California where Apple’s high-level employees

28

1 and officers direct, control, and coordinate the corporation's activities, including its marketing,
2 software development, and major policy, financial, and legal decisions.

3 518. The wrongdoing at the heart of this lawsuit emanated from Apple's Cupertino,
4 California headquarters, where Apple employees and executives make, *inter alia*, marketing and
5 legal decisions.

6 519. Apple elected to have California govern all claims and disputes arising out of its
7 iPhone and iOS products that are the subject of this lawsuit.

8 520. Specifically, Apple's Software License Agreement for iOS 18 and iOS 18.1, the
9 software the iPhone 16 launched with, and the update released in October 2024, provides: "This
10 License will be governed by and construed in accordance with the laws of the State of California,
11 excluding its conflict of law principles."

12 521. Defendant's Apple Media Services Terms and Conditions, which governs
13 consumers' use of Apple services including the App Store, Apple News, Apple Podcasts, iTunes,
14 and more, contains similar language.

15 522. An iPhone cannot operate without iOS software, and consumers cannot meaningfully
16 use their iPhones without using Apple Media Services such as the App Store.

17 523. Thus, the relevant iOS Software Licensing Agreements and the Apple Media Services
18 Terms and Conditions are effective at the point of sale—as soon as the customers turn on their
19 iPhone—and are part of the benefit of the consumers' bargain.

20 524. By using their iPhones or doing basic tasks such as downloading applications,
21 consumers are informed that they agree to be bound by the laws of the state of California.

22 525. And in any event, California has a significant interest in regulating the conduct of
23 businesses operating within its borders—especially when that conduct includes one of California's
24 largest homegrown corporations. California has a particular interest in protecting the rights of
25 Californians and of residents and citizens across the nation from harmful and fraudulent conduct
26 emanating from a company headquartered and doing business in California.

27 526. For all of these reasons, the application of California law to all of the Class Members'
28 claims is fair and appropriate.

527. Under California’s choice of law principles, which are applicable to this action, the common law of California applies to the common law claims of all class members. Additionally, given California’s significant interest in regulating the conduct of businesses operating within its borders, California’s consumer protection laws may be applied to nonresident Class members.

VIII. CLAIMS FOR RELIEF

COUNT ONE

Violations of The California Consumers Legal Remedies Act, (Cal. Civ. Code §§ 1750, *Et Seq.*) (On Behalf of the Nationwide Class, or, in the Alternative, the California Subclass)

528. Plaintiffs incorporate by reference and re-allege all prior paragraphs of this complaint as though fully set forth herein.

529. Plaintiffs bring this claim on behalf of themselves and the Nationwide Class, or, in the alternative, the California Plaintiffs identified above bring this claim on behalf of the California Subclass.

530. The California Consumer Legal Remedies Act (“CLRA”), Cal. Civ. Code §§ 1750, *et seq.*, makes unlawful certain “unfair methods of competition and unfair or deceptive acts or practices . . . undertaken by any person in a transaction intended to result or that results in the sale or lease of goods or service to any consumer.” *Id.* § 1770(a)

531. Plaintiffs and the Nationwide Class Members are “consumers” who purchased “goods” in the form of the Class Devices within the meaning of Cal. Civ. Code § 1761(a) & (d).

532. Apple is a “person” within the meaning of Cal. Civ. Code § 1761(c).

533. In selling or leasing the Class Devices to Plaintiff and Class Members, Defendant made an express or implied promise to provide future software development, and software updates for the iPhone 16, “built for Apple Intelligence” and advertised to include Enhanced Siri capabilities, and other work or labor that constitutes “services” under the CLRA. *Id.* § 1761(b).

534. The CLRA is a comprehensive statutory scheme that is to be liberally construed to protect consumers against unfair and deceptive business practices in connection with the conduct of businesses providing goods, property, or services to consumers primarily for personal, family, or household use.

535. The application of the CLRA to the putative Nationwide Class in this action is appropriate because Defendant's wrongful conduct alleged herein, includes but is not limited to Defendant's deceptive marketing of the Class Devices in the state of California.

536. The CLRA, Cal. Civ. Code §1770(a)(5), (7), & (9) provide, in part, as follows:

537. The unfair methods of competition and unfair or deceptive acts or practices listed in this subdivision undertaken by any person in a transaction intended to result or that results in the sale or lease of goods or services to any consumer are unlawful:

...

(5) Representing that goods or services have sponsorship, approval, characteristics, ingredients, uses, benefits or quantities which they do not have . . .;

...

(7) Representing that goods or services are of a particular standard, quality, or grade, or that goods are of a particular style or model, if they are of another.

...

(9) Advertising goods or services with intent not to sell them as advertised.

538. Apple violated CLRA, sections 1770(a)(5) & (9), *inter alia*, by representing that the Class Devices have characteristics, uses or benefits, which they does not have, and/or Civil Code section 1770(a)(7) by representing that the Class Devices are of a particular standard, quality, or grade, even though they are of another. Such conduct includes, among other things:

a. Marketing the Class Devices as having abilities, features, or attributes, including but not limited to Enhanced Siri, that they do not have;

b. Marketing and selling the Class Devices when they were not merchantable for the purposes they were advertised for;

c. Marketing and selling the Class Devices while concealing material facts from Plaintiff and Class Members regarding the abilities, features, or attributes of the Class Devices;

d. Concealing from Class Members that Defendant was in breach and intended to breach its contractual obligations as set forth in this complaint;

1 e. Concealing from Class Members that Defendant was in breach and intended
2 to breach its warranty obligations as set forth in this complaint; and

3 f. Violating additional laws and regulations as set forth herein.

4 539. Defendant's wrongful acts, practices, and conduct alleged herein—including but not
5 limited to their false, misleading, and deceptive marketing, representations, and omissions regarding
6 the present and likely future abilities, limitations, flaws, and value of the promised Enhanced Siri
7 features and related technology were a substantial factor in Plaintiffs' and Class Members' decisions
8 to purchase or lease the Class Devices, and their decisions to pay hundreds of dollars more for
9 upgrades or new phones with the promised technology.

10 540. Apple's uniform and material representations regarding AI within the Class Devices
11 were likely to deceive consumers, and Apple knew or should have known its representations were
12 false. Apple did not have a functional prototype capable of being integrated into millions phones to
13 function in the way it was advertised. In fact, the advertised technology will not be available for
14 years, if ever.

15 541. Apple conducts its own market research and is aware of consumers' desire for that
16 reason, Apple made its "Apple Intelligence" and specifically, Enhanced Siri, the centerpiece of its
17 marketing campaign.

18 542. As reported by Morgan Stanley's November 2024 survey, Apple's artificial
19 intelligence was the catalyst of consumers' purchasing decisions. As reported by Woodring, the
20 Upgraded Siri Digital assistant was the Apple Intelligence feature prospective new model iPhone
21 buyers globally were most interested in. That's why, when Apple began announcing delays in
22 delivering the promised AI features, 50% of iPhone owners that did not upgrade to an iPhone 16
23 acknowledged that the delayed Apple Intelligence rollout had an impact on their decision not to
24 upgrade.

25 543. Plaintiffs Peter Landsheft, Tyshaun Butler, and Lauren Norman, on behalf of
26 themselves and other similarly-situated consumers, sent CLRA notices of violation and demand
27 letters to Defendant Apple on or about March 19, 2025, April 9, 2025, and April 22, 2025.

1 544. As a result of Defendant's CLRA violations and the harm caused thereby, Plaintiffs
2 and Nationwide Class Members are entitled to and seek: (a) all monetary and non-monetary relief
3 allowed by law, including damages and punitive damages; (c) an award of reasonable attorneys' fees
4 under Cal. Civ. Code § 1780(e), Cal. Code Civ. Proc. § 1021.5, and any other applicable law; and
5 (d) all other available relief prayed for below.

6 545. Defendant's unfair, fraudulent, and unlawful conduct described herein constitutes
7 malicious, oppressive, and/or fraudulent conduct warranting an award of punitive damages as
8 permitted by law. Defendant's misconduct is malicious as Defendant acted with the intent to cause
9 Plaintiffs and consumers to pay for the products that they were not, in fact, receiving – and did not
10 have the promised AI capabilities.

11 546. Defendant willfully and knowingly disregarded Plaintiffs and Class Members' rights
12 as it was aware of its fraudulent conduct and deliberately failed to avoid misleading consumers.
13 Specifically, as discussed above, Defendant did not have a functioning prototype of the advertised
14 features – the AI-powered digital assistant Siri. Yet, it advertised its new Class Devices as having
15 the capabilities that were merely a concept, and were not capable of being timely introduced to the
16 market with the Class Devices. Now, over a year after Defendant launched its advertising campaign
17 around Enhanced Siri, Enhanced Siri is yet to be developed and is not anticipated to be developed
18 until 2026, if ever. Thus, Defendant's misconduct is oppressive and subjected Plaintiffs and
19 consumers to unjust hardship, and knowingly disregarded their rights.

20 547. Defendant's misconduct is fraudulent because Defendant intentionally
21 misrepresented and concealed material facts with the intent to deceive Plaintiffs and consumers. The
22 wrongful conduct constituting malice, oppression, and/or fraud was committed, authorized, adopted,
23 approved, and/or ratified by officers, directors, and/or managing agents of Defendant.

COUNT TWO**Unlawful, Unfair, and Fraudulent Business Acts and Practices****(Cal. Bus. & Prof. Code §§ 17200, *et seq.*)****(on behalf of the Nationwide Class, or, in the alternative, the California Subclass)**

548. Plaintiffs incorporate by reference and re-allege all prior paragraphs of this complaint as though fully set forth herein.

549. Plaintiffs bring this claim on behalf of themselves and the Nationwide Class, or, in the alternative, the California Plaintiffs identified above bring this claim on behalf of the California Subclass.

550. California's Unfair Competition Law (Cal. Bus. & Prof. Code §§ 17200, *et seq.*, "UCL") is designed to protect consumers from unlawful, unfair, or fraudulent business acts or practices, including the use of any deception, fraud, false pretense, misrepresentation, or the concealment, suppression, or omission of any material fact.

551. In accordance with the liberal application and construction of the UCL, application of the UCL to all Class Members is appropriate, given that Apple's conduct as described herein originated from California, the Class Devices, Apple Intelligence, Enhanced Siri, and related iOS software were designed and originated in California, and Apple's uniform iOS Software License Agreement provides that California law shall apply.

552. Apple's uniform iOS software License Agreement governs the reach of the Nationwide Class's claims because Apple's violations of the UCL, FAL, and CLRA were caused, in part, by the installation of certain operating software containing Apple Intelligence features, which were advertised to include Enhanced Siri.

553. Apple is a "person" as defined by Cal. Bus. & Prof. Code § 17201.

554. Apple's acts and practices constitute unlawful, unfair, and fraudulent business practices in violation of California's UCL. The application of California's Unfair Competition Law to the putative Class in this action is appropriate because Apple's wrongful conduct alleged herein includes, but is not limited, to Apple's deceptive and fraudulent marketing of the Class Devices in the State of California.

1 555. Defendant engaged in fraudulent and/or “unfair” business practices in violation of
2 the UCL by, among other things:

- 3 a. Marketing the Class Devices as having abilities, features, or attributes, including
4 Enhanced Siri, that they do not have;
- 5 b. Marketing and selling the Class Devices when they were not merchantable for the
6 purposes they were advertised for;
- 7 c. Marketing and selling the Class Devices while concealing material facts from
8 Plaintiff and Class Members regarding the abilities, features, or attributes of the
9 Class Devices;
- 10 d. Concealing from Class Members that Defendant was in breach and intended to
11 breach its contractual obligations as set forth in this complaint;
- 12 e. Concealing from Class Members that Defendant was in breach and intended to
13 breach its warranty obligations as set forth in this complaint; and
- 14 f. Violating additional laws and regulations as set forth herein.

15 556. Defendant engaged in this conduct to gain an unfair commercial advantage over its
16 competitors, seeking to avoid public knowledge of the true features (or lack thereof) included with
17 its Class Devices and Apple Intelligence software suite, to avoid damage to its sales or reputation. It
18 withheld critical and material information from Plaintiffs and Class Members, competitors, and the
19 marketplace—all to its unfair competitive advantage.

20 557. **Balancing Test.** Some courts conduct a balancing test to decide if a challenged
21 activity amounts to unfair conduct under California Business and Professions Code Section 17200.
22 They “weigh the utility of the defendant’s conduct against the gravity of the harm to the alleged
23 victim.” *Davis v. HSBC Bank Nevada, N.A.*, 691 F.3d 1152, 1169 (9th Cir. 2012).

24 558. **No Utility.** Here, Defendant’s conduct of advertising the Class Devices as having
25 Enhanced Siri, which simply does not exist, serves no legitimate purpose. This conduct provides
26 zero benefit to consumers or society at large. It only serves to benefit Defendant and increase its
27 profits. Meanwhile, consumers suffered and continue to suffer real financial harm, rendering any
28 claimed utility vastly outweighed by the gravity of the harm inflicted.

1 559. **Legislative Declared Policy.** Some courts require that “unfairness must be tethered
2 to some legislative declared policy or proof of some actual or threatened impact on competition.”
3 *Lozano v. AT&T Wireless Servs. Inc.*, 504 F. 3d 718, 735 (9th Cir. 2007). Defendant’s deceptive
4 practices directly undermine California’s strong public policy against false advertising and consumer
5 deception, striking at the very heart of consumer protection statutes.

6 560. **Unfair Conduct.** Defendant’s advertising and marketing of the Class Devices was
7 deceptive, unreasonable, and entirely unjustifiable especially given that Apple did not have a
8 functioning prototype ready to be implemented – and to provide consumers with the advertised
9 Enhanced Siri.

10 561. Defendant also violated the Unfair Competition Law because the utility of its conduct
11 as described in this Complaint is outweighed by the gravity of the consequences to Plaintiffs and
12 Nationwide Class Members and because Defendant’s conduct as described in this Complaint is
13 immoral, unethical, oppressive, unscrupulous or substantially injurious to Plaintiff and Nationwide
14 Class Members.

15 562. Defendant has also engaged in “unlawful” business practices by violating multiple
16 laws, including the California False Advertising Law, Cal. Bus. & Prof. Code §§ 17500, *et*
17 *seq.*, (“FAL”), the CLRA, Cal. Civ. Code §§ 1780, *et seq.*, and California and other state common
18 law.

19 563. Defendant has also engaged in fraudulent conduct because it made representations
20 regarding availability of AI features that did not exist, were not available, and could not have been
21 delivered to consumers. Given that Apple knew that AI features are the primary driver of the
22 purchase decisions – and made these unavailable features the centerpiece of its marketing campaign
23 – it knew that the misrepresentations were likely to mislead consumers into purchasing the products
24 because they are material to the average, ordinary, and reasonable consumer.

25 564. As a direct and proximate result of Defendant’s unfair, unlawful, and fraudulent acts
26 and practices, Plaintiffs and Nationwide Class Members were damaged and lost money or property,
27 including from not receiving the benefit of their bargain in purchasing the Class Devices.
28

1 565. Defendant's conduct and the harm it caused was not reasonably avoidable by Plaintiff
2 and the Nationwide Class Members. Defendant knew or had reason to know that Plaintiffs and the
3 Nationwide Class Members could not have reasonably known or discovered the existence of Apple
4 Intelligence and Enhanced Siri software development delays, or that the advertised Enhanced Siri
5 features do not exist at all.

6 566. Had Plaintiffs and the Nationwide Class Members known that the Class Devices did
7 not include the promised Enhanced Siri features, they would not have purchased Class Devices
8 promising that functionality, or would have paid less for them.

9 567. Plaintiffs, on behalf of himself and Nationwide Class Members, have suffered injury
10 in the form of lost money and property, including but not limited to a diminishment in the value of
11 the Class Devices, as a direct and proximate result of Defendant's fraudulent, unlawful, and unfair
12 business practices.

13 568. Pursuant to Cal. Bus. & Prof. Code § 17203, Plaintiffs and Nationwide Class
14 Members seek all monetary and non-monetary relief allowed by law. In addition Plaintiff and
15 Nationwide Class Members seek an order: (a) requiring Apple to restore to Plaintiffs and the Class
16 Members any money acquired by means of the deceptive and unfair business practices, including
17 restitution of all profits stemming from Apple's unfair, unlawful, and fraudulent business practices;
18 and (b) awarding reasonable costs and attorneys' fees pursuant to Cal. Civ. Code § 1021.5; and
19 (d) any other appropriate equitable relief.

20 569. Plaintiffs and the Class are entitled to equitable relief as no adequate remedy at law
21 exists.

22 570. The scope of actionable misconduct under the unfair prong of the UCL is broader
23 than the other causes of action. It includes, for example, Apple's overall unfair marketing scheme to
24 promote and brand the Class Devices within the challenged representations, across a multitude of
25 media platforms. This could present a straightforward claim, which could be easier to prove, as
26 opposed to claims for damages. The UCL also creates a cause of action for violations of law (such
27 as statutory or regulatory requirements and court orders related to similar representations made on
28 the type of products at issue). Thus, Class may be entitled to restitution under the UCL, while not

entitled to damages under other causes of actions that may require additional elements. For example, FAL requires actual or constructive knowledge of the falsity.

571. No class has been certified yet. No expert discovery has commenced. The completion of fact/non-expert and expert discovery, as well as the certification of this case as a class action, are necessary to finalize and determine the adequacy and availability of all remedies, including legal and equitable, for Plaintiffs' individual claims and any certified class or subclass.

COUNT THREE
Violation of California False Advertising Law,
Cal. Bus. & Prof. Code §§ 17500, *et seq.*
(on behalf of the Nationwide Class, or, in the alternative, the California Subclass)

572. Plaintiffs incorporate by reference and re-allege all prior paragraphs of this complaint as though fully set forth herein.

573. Plaintiffs bring this claim on behalf of themselves and the Nationwide Class, or, in the alternative, the California Plaintiffs identified above bring this claim on behalf of the California Subclass.

574. Defendant's conduct alleged herein violates California's False Advertising Law ("FAL"), Cal. Bus. & Prof. Code §§ 17500, *et seq.*, which makes it unlawful for a business to make, disseminate, or cause to be made or disseminated to the public "any statement, concerning . . . personal property . . . which is untrue or misleading, and which is known, or which by the exercise of reasonable care should be known, to be untrue or misleading." *Id.* § 17500.

575. Each of the above deceptive and misleading advertising practices of Defendant set forth above constitutes untrue or misleading advertising under the California FAL.

576. The Class Devices and the Enhanced Siri software functionality are "personal property" as governed by Cal. Bus. & Prof. Code § 17500.

577. At all material times, Defendant's statements, marketing and advertising materials misrepresented or omitted material facts regarding the abilities, features, or attributes of the Class Devices as set forth in this Complaint. Defendant disseminated statements, marketing, and advertising concerning the features and useability of its Class Devices that are unfair, untrue, deceptive, or misleading within the meaning of the California FAL.

1 578. Defendant made, disseminated, or caused to be made or disseminated such public
2 statements in numerous forums, including but not limited to Apple's website and product pages,
3 keynote presentations, calls and other public statements to investors, developers, conferences and
4 other public events, television, radio, podcasts, and other publicly available media (whether print,
5 video, audio, or other format) that republished such representations and omissions.

6 579. Defendant's acts and practices have deceived and/or are likely to continue to deceive
7 Plaintiffs, members of the Nationwide Class, and the public. As set forth above, Defendant's Apple
8 Enhanced Siri claims are deceptive and misleading to reasonable consumers because the advertised
9 features simply do not exist. Defendant did not disclose any of this information to consumers.

10 580. In making and disseminating the statements alleged herein, Defendant knew or
11 should have known its advertisements were deceptive and misleading. As discussed above,
12 Defendant advertised the Class Devices as having AI capabilities, including Enhanced Siri, that had
13 not yet been built or developed, and it had no reason to believe that Enhanced Siri would be
14 developed by the launch date of the Class Devices, or at any point thereafter. Defendant presented
15 its concept of what it hopes that Siri will be one day as the actual capabilities that were available on
16 all Class Device models. Defendant knew its representations were false and misleading and yet,
17 despite lacking a functional prototype of Enhanced Siri, it turned Enhanced Siri into the centerpiece
18 of its prominent marketing campaign to trigger consumers' excitement and purchases of the new
19 iPhone. Plaintiffs and members of the Nationwide Class based their decisions to purchase and use
20 Defendant's Class Devices on Defendant's misrepresentations and omissions of material facts.

21 581. Apple made hundreds of millions of dollars based upon Class Device models whose
22 sales were attributable to false and misleading advertisements. Plaintiffs and Class Members were
23 injured in fact and lost money and property as a result.

24 582. As a result of Defendant's FAL violations and the harm caused thereby, Plaintiffs
25 and Nationwide Class Members lost money and are entitled to and seek (a) restitution of the full
26 value of all monies and other consideration that Plaintiffs and Class Members paid Defendant for
27 the purchase or lease of Apple Intelligence software or the Class Devices, which Defendant
28 continues to wrongfully retain, including any diminished value of Plaintiffs' and Class Members'

Class Devices and disgorgement of the profits Defendant derived from their wrongful conduct; (b) an award of reasonable attorneys' fees under Cal. Code Civ. Proc. § 1021.5 and any other applicable law; and (c) all other available relief prayed for below.

COUNT FOUR

Violation of The Song-Beverly Consumer Warranty Act, Cal. Civ. Code §§ 1790, *et seq.*

(on behalf of the Nationwide Class, or, in the alternative, the California Subclass)

583. Plaintiffs incorporate by reference and re-allege all prior paragraphs of this complaint as though fully set forth herein.

584. Plaintiffs bring this claim on behalf of themselves and the Nationwide Class, or, in the alternative, the California Plaintiffs identified above bring this claim on behalf of the California Subclass.

585. Defendant violated the Song-Beverly Consumer Warranty Act by, among other things, violating the implied warranties of merchantability by knowingly selling the Class Devices, which are unsuitable for their expected and advertised use in violation of sections 1791.1 and 1791.2, and were therefore not fit for the ordinary purpose for which the goods were intended to be sold.

586. Plaintiffs and Nationwide Class Members have complied with all obligations under the warranty or otherwise have been excused from performance of said obligations as a result of Defendant's conduct described herein.

587. Plaintiffs seek restitution and damages as a result of Defendant's unlawful conduct, as well as attorneys' fees and costs of suit.

COUNT FIVE

Fraud

(on behalf of Plaintiffs and the Nationwide Class, or, in the alternative, the Subclasses)

588. The Plaintiffs identified above incorporate by reference and re-allege each and every allegation set forth above as though fully set forth herein.

589. Plaintiffs bring this claim on behalf of the Nationwide Class under California law, or, in the alternative, on behalf of the respective state Plaintiffs under their respective state law.

590. At the time Plaintiffs and Nationwide Class Members decided to purchase an Class Devices, the Defendant misrepresented the real capabilities of the Class Devices and Apple

1 Intelligence, failed to disclose that they will not be available for years to come, and concealed
2 material information regarding the AI features – including the fact that Enhanced Siri was merely a
3 concept, as opposed to a real feature that was available on the iPhone 16 or 15 Pro series.

4 591. As detailed above, the Defendant represented to Plaintiffs and the Class that the Class
5 Devices would be equipped with, or be promptly upgraded to include, Apple Intelligence software
6 capable of powerfully upgrading Apple’s software-based virtual assistant, Siri, into Enhanced Siri—
7 a personal assistant capable of quickly and accurately analyzing data across a variety of applications,
8 and applying that data to solve everyday problems.

9 592. Apple’s representations were false – the advertised Enhanced Siri was not ready, as
10 Apple knew, including because the AI features were not working properly in their personal testing

11 593. Apple knew, or should have known, that the representations were false when they
12 made them. When Apple began its pervasive marketing campaign starting from the summer of 2024
13 at the WWDC 2024, then releasing the Ramsey Ad and other advertisements touting the nonexistent
14 Enhanced Siri features, in September 2024, Apple knew that the iPhone 16, released that same
15 month, and iPhone 15 Pro, already released, would not be equipped with the advertised features.
16 Apple further knew that the features would not be included in the iOS 18.1 software launched in
17 October 2024, or in any then-currently-planned iOS launch. Apple nonetheless made false and
18 misleading representations, at minimum, recklessly and without regard for the truth of what was
19 being represented.

20 594. Defendant also knew that the omissions and misrepresentations regarding features,
21 abilities, and capabilities of the Class Devices were material, and that a reasonable consumer would
22 rely upon Defendant’s representations (and corresponding omissions) in making the decision to
23 falsely and misleadingly advertise the Class Devices.

24 595. Defendant in fact intended to deceive Plaintiffs and Nationwide Class Members.

25 596. Plaintiffs and Nationwide Class Members did not know, nor could they have known
26 through reasonable diligence, that Defendant’s representations were false and misleading.

1 bargain and created an express warranty that the goods would conform to the stated promise.
2 Plaintiffs and Nationwide Class Members placed importance on Defendant's claims.

3 615. All conditions precedent to Defendant's liability under this contract have been
4 performed by Plaintiffs and the Nationwide Class Members.

5 616. Defendant breached the terms of the contract, including the express warranties, with
6 Plaintiff and the Nationwide Class Members, by not providing Class Devices that conform to the
7 advertising and marketing claims.

8 617. As a result of Defendant's breach of contract, Plaintiffs and Nationwide Class
9 Members have been damaged in an amount to be determined at trial.

10 **COUNT EIGHT**

11 **Breach of the Implied Warranty of Merchantability**
12 **(on behalf of Plaintiffs and the Nationwide Class, or in the alternative, the Subclasses)**

13 618. The Plaintiffs identified above incorporate by reference and re-allege each and every
14 allegation set forth above as though fully set forth herein.

15 619. Plaintiffs bring this claim on behalf of the Nationwide Class under California law, or,
16 in the alternative, on behalf of the respective state Plaintiffs under their respective state law.

17 620. Unless excluded or modified, a warranty that a good shall be merchantable is implied
18 in a contract for their sale, if the seller is a merchant with respect to goods of that kind.

19 621. Defendant is a merchant with respect to products such as the Class Devices at issue.

20 622. In order to be merchantable, goods must conform to the promises or affirmations of
21 fact made in the advertising of the product.

22 623. Defendant breached the implied warranty of merchantability to Plaintiffs and Class
23 Members in its representations that the Class Devices contained the Enhanced Siri capabilities
24 advertised, when those representations were actually false.

25 624. As a result of Defendant's misleading conduct, Plaintiffs and Class Members did not
26 receive merchantable goods as impliedly warranted by Defendant.

27 625. Defendant did not exclude or modify the Class Devices' implied warranty
28 of merchantability.

626. As a proximate result of Defendant's breach of its implied warranty, Plaintiffs and Class Members incurred damages.

627. Plaintiffs and Class Members were damaged as a result of Defendant's failure to comply with its obligations under the implied warranty, since Plaintiffs and the Class paid for the Class Devices that did not have the promised quality and nature, paid a premium for the Class Devices, when they could have instead purchased other less expensive smartphones or other products, and Plaintiffs and Class Members lost the opportunity to purchase similar products that provided the capabilities advertised.

628. As a result of Defendant's breach of contract, Plaintiffs and the Class Members have been damaged in an amount to be determined at trial.

COUNT NINE

Breach of the Express Warranty of Merchantability (on behalf of Plaintiffs and the Nationwide Class, or in the alternative, the Subclasses)

629. The Plaintiffs identified above incorporate by reference and re-allege each and every allegation set forth above as though fully set forth herein.

630. Plaintiffs bring this claim on behalf of the Nationwide Class under California law, or, in the alternative, on behalf of the respective state Plaintiffs under their respective state law.

631. Defendant was at all relevant times a merchant involved in the manufacturing, distributing, warranting, and/or selling of the Class Devices.

632. Plaintiffs and the Nationwide Class formed contracts with Defendant at the time they purchased their Class Devices. The terms of that contract include that the Class Devices would be free from "defects in materials and workmanship"¹⁰⁹ and moreover include Defendant's claims that the iPhone 16s were "built for Apple Intelligence," rather than "coded" for Apple Intelligence, and had the Enhanced Siri features, as described above. This product advertising constitutes express warranties, became part of the basis of the bargain, and is part of a standardized contract between Plaintiff and the members of the Class, on the one hand, and Defendant, on the other.

¹⁰⁹ *Apple One (1) Year Limited Warranty*, APPLE (Mar. 1, 2023) <https://www.apple.com/legal/warranty/products/warranty-emea-english.html>, last accessed July 16, 2025.

633. Defendant breached the terms of these contracts, including the express warranties, by failing to provide Class Devices that provided the benefits advertised by Defendant—namely, Class Devices were “built for Apple Intelligence” and had the advertised Enhanced Siri capabilities.

634. Any attempt by Defendant to disclaim or limit its express warranties is unconscionable and unenforceable under the circumstances here. Defendant knew or should have known that the Class Devices did not and would not have the represented capabilities; Defendant had unequal bargaining power and misrepresented the reliability, quality, performance, and qualities of the Class Devices; and any limited remedies unreasonably favor Defendant and fail Plaintiffs’ reasonable expectations concerning product performance.

635. Any purported warranty limitations excluding or limiting (a) labor and costs of labor and (b) incidental and consequential damages, are also procedurally and substantively unconscionable and thus fail under UCC § 2-302 and relevant state law.

636. Plaintiffs and the Class members have complied with all obligations under the warranty, or otherwise have been excused from performance of said obligations as a result of Apple’s conduct described herein. Plaintiffs and the Class members were not required to notify Apple of the breach because it would have been futile.

637. As a direct and proximate cause of Apple’s breach, Plaintiffs and Class members bought Class Devices they otherwise would not have, overpaid for the Class Devices, did not receive the benefit of their bargain, and their Class Devices suffered a diminution in value and Apple has not offered an adequate remedy.

COUNT TEN

Unjust Enrichment

(on behalf of Plaintiffs and the Nationwide Class, or, in the alternative, the Subclasses)

638. The Plaintiffs identified above incorporate by reference and re-allege each and every allegation set forth above as though fully set forth herein.

639. Plaintiffs bring this claim on behalf of the Nationwide Class under California law, or, in the alternative, on behalf of the respective state Plaintiffs under their respective state law.

640. To the extent required by law, this cause of action is alleged in the alternative to legal claims, as permitted under Fed. R. Civ. P. 8.

641. Plaintiffs and Class Members paid Defendant for, as advertised by Defendant, Class Devices fully functional with Enhanced Siri at the time of purchase or lease, or within a reasonably short period thereafter.

642. In exchange, Defendant provided Plaintiffs and Class Members with Class Devices without promised Enhanced Siri features that could not meet Plaintiffs' and National Class Members' reasonable expectations created by Defendant's marketing, labelling, and other representations.

643. Defendant knew or should have known that the Class Devices, lacking Enhanced Siri, could not meet Plaintiffs' and Nationwide Class Members' reasonable expectations created by Defendant's marketing, labelling, and/or other representations.

644. Plaintiffs and Class members conferred monetary benefits on Defendant by purchasing the Class Devices. Defendant's profits are funded entirely from their generated revenues – payments made by or on behalf of Plaintiffs and Class Members. As such, a portion of these payments was attributable to Defendant's misrepresentations regarding Enhanced Siri.

645. As a direct and proximate result of Defendant's unjust enrichment, Plaintiffs and National Class Members have suffered and continue to suffer economic and other harms.

646. Because Defendant's retention of the non-gratuitous benefits conferred on it by Plaintiffs and Nationwide Class Members is unjust and inequitable, Defendant must pay restitution to Plaintiffs and Nationwide Class Members for its unjust enrichment, as ordered by the Court.

COUNT ELEVEN
Alabama Deceptive Trade Practices Act
Ala. Code §§ 8-19-1, *et seq.*
(on behalf of the Alabama Subclass)

647. The Alabama Plaintiff, Shaun Carroll, identified above ("Plaintiff," for purposes of this Count), individually and on behalf of the Alabama Subclass, repeats and alleges all Paragraphs above, as if fully alleged herein.

648. Plaintiff brings this claim on behalf of himself and the Alabama Subclass.

649. Apple is a "person" as defined by Ala. Code § 8-19-3(10).

1 650. Plaintiff and Alabama Subclass members are “consumers” as defined by Ala. Code
2 § 8-19-3(4).

3 651. Apple received notice pursuant to Ala. Code § 8-19-10(e) concerning its wrongful
4 conduct as alleged herein by Plaintiff and Alabama Subclass members. However, sending pre-suit
5 notice pursuant to Ala. Code § 8-19-10(e) would have been an exercise in futility for Plaintiff, as
6 Apple has already been informed of the allegedly unfair and unlawful conduct as described herein
7 as of the date of the first-filed lawsuit on March 19, 2025, and has yet to offer class members remedy
8 in accordance with similar consumer protection statutes.

9 652. Apple advertised, offered, or sold goods or services in Alabama, and engaged in trade
10 or commerce directly or indirectly affecting the people of Alabama.

11 653. Apple engaged in deceptive acts and practices in the conduct of trade or commerce,
12 in violation of the Alabama Deceptive Trade Practices Act, Ala. Code § 8-19-5, including:

- 13 a. Representing that goods or services have sponsorship, approval, characteristics,
14 ingredients, uses, benefits, or qualities that they do not have;
15 b. Representing that goods or services are of a particular standard, quality, or grade,
16 or that goods are of a particular style or model, if they are of another; and
17 c. Engaging in any other unconscionable, false, misleading, or deceptive act or
18 practice in the conduct of trade or commerce.

19 654. Apple’s representations and omissions were material because they were likely to
20 deceive reasonable consumers.

21 655. Apple intended to mislead Plaintiff and Alabama Subclass members and induce them
22 to rely on its misrepresentations and omissions.

23 656. Apple misrepresented to Plaintiff and Alabama Subclass members the capabilities of
24 the Class Devices with regard to Enhanced Siri. Plaintiff and the Alabama Subclass members acted
25 reasonably in relying on Apple’s misrepresentations and omissions, the truth of which they could
26 not have discovered.

27 657. Apple acted intentionally, knowingly, and maliciously to violate the Alabama
28 Deceptive Trade Practices Act, and recklessly disregarded Plaintiff and Alabama Subclass members’

rights. Apple’s knowledge that the Apple Intelligence and Enhanced Siri features did not exist and put it on notice that the Class Devices were not as advertised.

658. As a direct and proximate result of Apple’s deceptive acts and practices, Plaintiff and Alabama Subclass members have suffered and will continue to suffer injury, ascertainable losses of money or property, and monetary and non-monetary damages, including from not receiving the benefit of their bargain in purchasing their Class Devices.

659. Apple’s deceptive acts and practices caused substantial injury to Plaintiff and Alabama Subclass members, which they could not reasonably avoid, and which outweighed any benefits to consumers or to competition.

660. Plaintiff and the Alabama Subclass seek all monetary and non-monetary relief allowed by law, including the greater of (a) actual damages or (b) statutory damages of \$100; treble damages; attorneys’ fees, costs, and any other relief that is just and proper.

COUNT TWELVE
Alaska Consumer Protection Act
Alaska Stat. §§ 45.50.471, *et seq.*
(on behalf of the Alaska Subclass)

661. The Alaska Plaintiff, Gary Rasmussen, identified above (“Plaintiff,” for purposes of this Count), individually and on behalf of the Alaska Subclass, repeats and alleges all Paragraphs above, as if fully alleged herein.

662. Plaintiff brings this claim on behalf of himself and the Alaska Subclass.

663. Apple advertised, offered, or sold goods or services in Alaska and engaged in trade or commerce directly or indirectly affecting the people of Alaska.

664. Alaska Subclass members are “consumers” as defined by Alaska Stat. § 45.50.561(4).

665. Apple received notice pursuant to Alaska Stat. § 45.50.535 concerning its wrongful conduct as alleged herein by Plaintiff and Alaska Subclass members. However, sending pre-suit notice pursuant to Alaska Stat. § 45.50.535 is an exercise in futility for Plaintiff, as Apple has already been informed of the allegedly unfair and unlawful conduct as described herein as of the date of the first-filed lawsuit on March 19, 2025, and has yet to offer class members remedy in accordance with similar consumer protection statutes.

1 666. Apple engaged in unfair or deceptive acts and practices in the conduct of trade or
2 commerce, in violation Alaska Stat. § 45.50.471, including:

- 3 a. Representing that goods or services have sponsorship, approval, characteristics,
4 ingredients, uses, benefits, or qualities that they do not have;
5 b. Representing that goods or services are of a particular standard, quality, or grade,
6 when they are of another;
7 c. Advertising goods or services with intent not to sell them as advertised;
8 d. Engaging in any other conduct creating a likelihood of confusion or of
9 misunderstanding and which misleads, deceives, or damages a buyer in
10 connection with the sale or advertisements of its goods or services; and
11 e. Using or employing deception, fraud, false pretense, false promise,
12 misrepresentation, or knowingly concealing, suppressing, or omitting a material
13 fact with intent that others rely upon the concealment, suppression, or omission
14 in connection with the sale or advertisement of its goods or services whether or
15 not a person was in fact misled, deceived, or damaged.

16 667. Apple's representations and omissions were material because they were likely to
17 deceive reasonable consumers.

18 668. Apple intended to mislead Plaintiff and Alaska Subclass members and induce them
19 to rely on its misrepresentations and omissions.

20 669. Apple acted intentionally, knowingly, and maliciously to violate Alaska's Consumer
21 Protection Act, and recklessly disregarded Plaintiff and Alaska Subclass members' rights. Apple's
22 knowledge of that the advertised Enhanced Siri features did not exist put it on notice that the Class
23 Devices were not as advertised.

24 670. As a direct and proximate result of Apple's unfair and deceptive acts and practices,
25 Plaintiff and Alaska Subclass members have suffered and will continue to suffer injury, ascertainable
26 losses of money or property, and monetary and non-monetary damages, including from not receiving
27 the benefit of their bargain in purchasing their Class Devices.
28

671. Plaintiff and the Alaska Subclass seek all monetary and non-monetary relief allowed by law, including the greater of (a) three times their actual damages or (b) statutory damages in the amount of \$500; punitive damages; reasonable attorneys' fees and costs; and any other relief that is necessary and proper.

COUNT THIRTEEN
Arizona Consumer Fraud Act
A.R.S. §§ 44-1521, *et seq.*
(on behalf of The Arizona Subclass)

672. The Arizona Plaintiff, Kiana Schlessner, identified above ("Plaintiff," for purposes of this Count), individually and on behalf of the Arizona Subclass, repeats and alleges all Paragraphs above, as if fully alleged herein.

673. Plaintiff brings this claim on behalf of herself and the Arizona Subclass.

674. Apple is a "person" as defined by A.R.S. § 44-1521(6).

675. Apple advertised, offered, or sold goods or services in Arizona and engaged in trade or commerce directly or indirectly affecting the people of Arizona.

676. Apple engaged in deceptive and unfair acts and practices, misrepresentation, and the concealment, suppression, and omission of material facts affecting the people of Arizona in connection with the sale and advertisement of "merchandise" (as defined in Arizona Consumer Fraud Act, A.R.S. § 44-1521(5)) in violation of A.R.S. § 44-1522(A)

677. Apple's representations and omissions were material because they were likely to deceive reasonable consumers.

678. Apple intended to mislead Plaintiff and Arizona Subclass members and induce them to rely on its misrepresentations and omissions.

679. Apple misrepresented to Plaintiff and Arizona Subclass members the capabilities of the Class Devices with regard to Enhanced Siri. Plaintiff and the Arizona Subclass members acted reasonably in relying on Apple's misrepresentations and omissions, the truth of which they could not have discovered.

680. Apple acted intentionally, knowingly, and maliciously to violate Arizona's Consumer Fraud Act, and recklessly disregarded Plaintiff and Arizona Subclass members' rights. Apple's

1 knowledge that the advertised Enhanced Siri features did not exist put it on notice that the Class
2 Devices were not as it advertised.

3 681. As a direct and proximate result of Apple's unfair and deceptive acts and practices,
4 Plaintiff and Arizona Subclass members have suffered and will continue to suffer injury,
5 ascertainable losses of money or property, and monetary and non-monetary damages, including from
6 not receiving the benefit of their bargain in purchasing their Class Devices.

7 682. Plaintiff and Arizona Subclass members seek all monetary and non-monetary relief
8 allowed by law, including compensatory damages; disgorgement; punitive damages; and reasonable
9 attorneys' fees and costs.

10 **COUNT FOURTEEN**
11 **Colorado Consumer Protection Act**
12 **Colo. Rev. Stat. §§ 6-1-101, *et seq.***
(on behalf of the Colorado Subclass)

13 683. The Colorado Plaintiff, Jacob Anderson, ("Plaintiff," for purposes of this Count),
14 individually and on behalf of the Colorado Subclass, repeats and alleges all Paragraphs above, as if
15 fully alleged herein.

16 684. Plaintiff brings this claim on behalf of himself and the Colorado Subclass.

17 685. Apple is a "person" as defined by Colo. Rev. Stat. § 6-1-102(6).

18 686. Apple engaged in "sales" as defined by Colo. Rev. Stat. § 6-1-102(10).

19 687. Plaintiff and Colorado Subclass members, as well as the general public, are actual or
20 potential consumers of the products and services offered by Apple or successors in interest to actual
21 consumers.

22 688. Apple engaged in deceptive trade practices in the course of its business, in violation
23 of Colo. Rev. Stat. § 6-1-105(1), including:

- 24 a. Knowingly making a false representation as to the characteristics of products and
25 services;
- 26 b. Representing that services are of a particular standard, quality, or grade, though
27 Apple knew or should have known that there were or another;
- 28 c. Advertising services with intent not to sell them as advertised; and

1 d. Failing to disclose material information concerning its services which was known
2 at the time of an advertisement or sale when the failure to disclose the information
3 was intended to induce the consumer to enter into the transaction.

4 689. Apple's representations and omissions were material because they were likely to
5 deceive reasonable consumers.

6 690. Apple intended to mislead Plaintiff and Colorado Subclass members and induce them
7 to rely on its misrepresentations and omissions.

8 691. Apple misrepresented to Plaintiff and Colorado Subclass members the capabilities of
9 the Class Devices with regard to Enhanced Siri. Plaintiff and the Colorado Subclass members acted
10 reasonably in relying on Apple's misrepresentations and omissions, the truth of which they could
11 not have discovered.

12 692. Apple acted intentionally, knowingly, and maliciously to violate Colorado's
13 Consumer Protection Act, and recklessly disregarded Plaintiff and Subclass members' rights.
14 Apple's knowledge that the advertised Enhanced Siri features did not exist put it on notice that the
15 Class Devices were not as it advertised.

16 693. As a direct and proximate result of Apple's deceptive trade practices, Colorado
17 Subclass members suffered injuries to their legally protected interests.

18 694. Apple's deceptive trade practices significantly impact the public, because Apple is
19 one of the largest cell phone manufacturers in the world, with hundreds of thousands of sales of the
20 Class Devices to Colorado consumers.

21 695. Plaintiff and Colorado Subclass members seek all monetary and non-monetary relief
22 allowed by law, including the greater of: (a) actual damages, or (b) \$500, or (c) three times actual
23 damages (for Apple's bad faith conduct); and reasonable attorneys' fees and costs.

COUNT FIFTEEN
Connecticut Unfair Trade Practices Act
C.G.S.A. §§ 42-110a, Et Seq.
(on behalf of the Connecticut Subclass)

696. The Connecticut Plaintiff, Russell Crafts, (“Plaintiff,” for purposes of this Count), individually and on behalf of the Connecticut Subclass, repeats and alleges all Paragraphs above, as if fully alleged herein.

697. Plaintiff brings this claim on behalf of himself and the Connecticut Subclass.

698. Apple is a “person” as defined by C.G.S.A. § 42-110a(3).

699. Apple is engaged in “trade” or “commerce” as those terms are defined by C.G.S.A. § 42-110a(4).

700. Plaintiff will send notice to the Attorney General and Commissioner of Consumer Protection pursuant to C.G.S.A. § 42-110g(c). Plaintiff will provide a file-stamped copy of the Complaint to the Attorney General and Commissioner of Consumer Protection.

701. Apple advertised, offered, or sold goods or services in Connecticut, and engaged in trade or commerce directly or indirectly affecting the people of Connecticut.

702. Apple engaged in deceptive acts and practices and unfair acts and practices in the conduct of trade or commerce, in violation of the C.G.S.A. § 42-110b by, *inter alia*, misrepresenting to Plaintiff and Connecticut Subclass members the capabilities of the Class Devices with regard to Enhanced Siri. Plaintiff and the Connecticut Subclass members acted reasonably in relying on Apple’s misrepresentations and omissions, the truth of which they could not have discovered.

703. Apple’s representations and omissions were material because they were likely to deceive reasonable consumers.

704. Apple intended to mislead Plaintiff and Connecticut Subclass members and induce them to rely on its misrepresentations and omissions.

705. Apple acted intentionally, knowingly, and maliciously to violate the Connecticut Unfair Trade Practices Act, and recklessly disregarded Plaintiff and Connecticut Subclass members’ rights. Apple’s knowledge that the advertised Enhanced Siri features did not exist put it on notice that the Class Devices were not as it advertised.

1 716. Apple misrepresented to Plaintiffs and Florida Subclass members the capabilities of
2 the Class Devices with regard to Enhanced Siri. Plaintiffs and the Florida Subclass members acted
3 reasonably in relying on Apple's misrepresentations and omissions, the truth of which they could
4 not have discovered.

5 717. As a direct and proximate result of Apple's unconscionable, unfair, and deceptive
6 acts and practices, Plaintiffs and Florida Subclass members have suffered and will continue to suffer
7 injury, ascertainable losses of money or property, and monetary and non-monetary damages,
8 including from not receiving the benefit of their bargain in purchasing their Class Devices.

9 718. Plaintiffs and Florida Subclass members seek all monetary and non-monetary relief
10 allowed by law, including actual or nominal damages under Fla. Stat. § 501.21; and reasonable
11 attorneys' fees and costs, under Fla. Stat. § 501.2105(1); and any other relief that is just and proper.

12 **COUNT SEVENTEEN**

13 **Georgia Uniform Deceptive Trade Practices Act**

14 **Ga. Code §§ 10-1-370, *et seq.***

15 **(on behalf of the Georgia Subclass)**

16 719. The Georgia Plaintiffs, Kristopher Huggins, and Steven Geisel, ("Plaintiffs," for
17 purposes of this Count), individually and on behalf of the Georgia Subclass, repeat and allege all
Paragraphs above, as if fully alleged herein.

18 720. Plaintiffs bring this claim on behalf of themselves and the Georgia Subclass.

19 721. Plaintiffs and Defendant are both is a "persons" as defined by Ga.
20 Code § 10-1-371(5).

21 722. Apple engaged in deceptive trade practices in the conduct of its business, in violation
22 of Ga. Code § 10-1-372, including:

- 23 a. Representing that goods or services have sponsorship, approval, characteristics,
- 24 ingredients, uses, benefits, or quantities that they do not have;
- 25 b. Representing that goods or services are of a particular standard, quality, or grade
- 26 or that goods are of a particular style or model, if they are of another;
- 27 c. Advertising goods or services with intent not to sell them as advertised; and
- 28

d. Engaging in any other conduct which similarly creates a likelihood of confusion or of misunderstanding.

723. Apple's deceptive trade practices include:

- a. Knowingly designing, developing, manufacturing, advertising, and selling the Class Devices despite the Class Devices not having the Enhanced Siri capabilities as intended, represented, or advertised;
- b. Concealing material information from consumers regarding its Class Devices and Enhanced Siri so that consumers were unable to make informed choices when purchasing the Class Devices;
- c. Using uniform, deceptive business practices such as misleading advertisements, enticing consumers to spend additional money on new Class Devices that did not include all functions and capabilities advertised.

724. Apple misrepresented to Plaintiffs and Georgia Subclass members the capabilities of the Class Devices with regard to Enhanced Siri. Plaintiffs and the Georgia Subclass members acted reasonably in relying on Apple's misrepresentations and omissions, the truth of which they could not have discovered.

725. Apple intended to mislead Plaintiffs and Georgia Subclass members and induce them to rely on its misrepresentations and omissions.

726. Apple's representations and omissions were material because they were likely to deceive reasonable consumers.

727. Apple acted intentionally, knowingly, and maliciously to violate Georgia's Uniform Deceptive Trade Practices Act, and recklessly disregarded Plaintiffs and Georgia Subclass members' rights. Apple's knowledge that the advertised Enhanced Siri features did not exist put it on notice that the Class Devices were not as it advertised.

728. As a direct and proximate result of Apple's deceptive trade practices, Plaintiffs and Georgia Subclass members have suffered ascertainable losses of money or property, and monetary and non-monetary damages, including from not receiving the benefit of their bargain in purchasing their Class Devices.

COUNT EIGHTEEN

730. The Georgia Plaintiffs, Kristopher Huggins, and Steven Geisel, (“Plaintiffs” for purposes of this Count), individually and on behalf of the Georgia Subclass, repeat and allege all Paragraphs above, as if fully alleged herein.

732. Each Plaintiff is a “consumer” who engaged in a “consumer transaction” in the form of the purchase of the Class Devices from Defendant, who is a “person” as defined by Ga. Code § 10-1-392(6), (10) & (24).

733. Apple received notice pursuant to Ga. Code § 10-1-399 concerning its wrongful conduct as alleged herein by Plaintiffs and Georgia Subclass members. However, sending pre-suit notice pursuant to Ga. Code § 10-1-399 is an exercise in futility for Plaintiffs, as Apple has already been informed of the allegedly unfair and unlawful conduct as described herein as of the date of the first-filed lawsuit on March 19, 2025, and has yet to offer class members remedy in accordance with similar consumer protection statutes. Moreover, the Georgia state legislature has passed amendments repealing Ga. Code § 10-1-399 in its entirety effective July 1, 2025.

734. Apple engaged in deceptive trade practices in the conduct of its business, in violation of Ga. Code § 10-1-393, including:

- a. Engaging in unfair or deceptive acts or practices in the conduct of consumer transactions;
- b. Representing that goods or services are of a particular standard, quality, or grade if they are of another; and
- c. Advertising goods or services with intent not to sell them as advertised.

1 735. Apple's deceptive trade practices include:

- 2 a. Knowingly designing, developing, manufacturing, advertising, and selling the
3 Class Devices despite the Class Devices not having the Enhanced Siri capabilities
4 as intended, represented, or advertised;
- 5 b. Concealing material information from consumers regarding its Class Devices and
6 Enhanced Siri so that consumers were unable to make informed choices when
7 purchasing the Class Devices;
- 8 c. Using uniform, deceptive business practices such as misleading advertisements,
9 enticing consumers to spend additional money on the Class Devices that did not
10 include all functions and capabilities advertised.

11 736. In the course of its business, Apple acted intentionally, knowingly, and maliciously
12 to violate Georgia's Uniform Deceptive Trade Practices Act, and recklessly disregarded Plaintiffs
13 and Georgia Subclass members' rights. Apple's knowledge that the advertised Enhanced Siri
14 features did not exist put it on notice that the Class Devices were not as it advertised.

15 737. Apple intended to mislead Plaintiffs and Georgia Subclass members and induce them
16 to rely on its misrepresentations and omissions.

17 738. Apple's representations and omissions were material because they were likely to
18 deceive reasonable consumers.

19 739. Apple misrepresented to Plaintiffs and Georgia Subclass members the capabilities of
20 the Class Devices with regard to Enhanced Siri. Plaintiffs and the Georgia Subclass members acted
21 reasonably in relying on Apple's misrepresentations and omissions, the truth of which they could
22 not have discovered.

23 740. As a direct and proximate result of Apple's deceptive trade practices, Plaintiffs and
24 Georgia Subclass members have suffered and will continue to suffer injury, ascertainable losses of
25 money or property, and monetary and non-monetary damages, including from not receiving the
26 benefit of their bargain in purchasing their Class Devices.

27 741. Plaintiffs and Georgia Subclass members seek all relief allowed by law, including
28 reasonable attorneys' fees and costs.

COUNT NINETEEN**Illinois Consumer Fraud And Deceptive Business Practices Act
815 ILCS §§ 505, *et seq.*****(on behalf of the Illinois Subclass)**

742. The Illinois Plaintiffs, Michael Hopkins, David Campos, and Scott Domek, (“Plaintiffs,” for purposes of this Count), individually and on behalf of the Illinois Subclass, repeat and allege all Paragraphs above, as if fully alleged herein.

743. Plaintiffs bring this claim on behalf of themselves and the Illinois Subclass.

744. Apple is a “person” as defined by 815 ILCS § 505/1(c).

745. Plaintiffs and Illinois Subclass members are “consumers” as defined by 815 ILCS § 505/1(e).

746. Apple’s conduct as described herein was in the conduct of “trade” or “commerce” as defined by 815 ILCS § 505/1(f). Apple’s conduct is described in full detail above.

747. Apple’s engaged in unfair methods of competition and unfair or deceptive acts or practices, including but not limited to the use or employment of any deception, fraud, false pretense, false promise, misrepresentation or the concealment, suppression or omission of any material fact, with intent that others rely upon the concealment, suppression or omission of such material fact in violation of 815 ILCS § 505/2.

748. Apple’s representations and omissions were material because they were likely to deceive reasonable consumers.

749. Apple intended to mislead Plaintiffs and Illinois Subclass members and induce them to rely on its misrepresentations and omissions.

750. The above unfair and deceptive practices and acts by Apple were immoral, unethical, oppressive, and unscrupulous. These acts caused substantial injury that these consumers could not reasonably avoid; this substantial injury outweighed any benefit to consumers or to competition.

751. Apple acted intentionally, knowingly, and maliciously to violate Illinois’s Consumer Fraud Act, and recklessly disregarded Plaintiffs and Illinois Subclass members’ rights. Apple’s knowledge that the advertised Enhanced Siri features did not exist put it on notice that the Class Devices were not as it advertised.

752. As a direct and proximate result of Apple's unfair, unlawful, and deceptive acts and practices, Plaintiffs and Illinois Subclass members have suffered and will continue to suffer injury, ascertainable losses of money or property, and monetary and non-monetary damages, including from not receiving the benefit of their bargain in purchasing their Class Devices.

753. Plaintiffs and Illinois Subclass members seek all monetary and non-monetary relief allowed by law, including damages, restitution, punitive damages, and reasonable attorneys' fees and costs.

COUNT TWENTY
Illinois Uniform Deceptive Trade Practices Act
815 ILCS §§ 510/1, *et seq.*
(on behalf of the Illinois Subclass)

754. The Illinois Plaintiffs, Michael Hopkins, David Campos, and Scott Domek, ("Plaintiffs," for purposes of this Count), individually and on behalf of the Illinois Subclass, repeat and allege all Paragraphs above, as if fully alleged herein.

755. Plaintiffs bring this claim on behalf of themselves and the Illinois Subclass.

756. Apple is a "person" as defined by 815 ILCS § 510/1(5).

757. Apple engaged in deceptive trade practices in the conduct of its business, in violation of 815 ILCS § 510/2(a), including:

- a. Representing that goods or services have characteristics that they do not have;
- b. Representing that goods or services are of a particular standard, quality, or grade if they are of another;
- c. Advertising goods or services with intent not to sell them as advertised; and
- d. Engaging in other conduct that creates a likelihood of confusion or misunderstanding.

758. Apple's representations and omissions were material because they were likely to deceive reasonable consumers.

759. The above unfair and deceptive practices and acts by Apple were immoral, unethical, oppressive, and unscrupulous. These acts caused substantial injury to Plaintiffs and Illinois Subclass members that they could not reasonably avoid; this substantial injury outweighed any benefits to consumers or to competition.

760. As a direct and proximate result of Apple's unfair, unlawful, and deceptive trade practices, Plaintiffs and Illinois Subclass members have suffered and will continue to suffer injury, ascertainable losses of money or property, and monetary and non-monetary damages, including from not receiving the benefit of their bargain in purchasing their Class Devices.

761. Plaintiffs and Illinois Subclass members seek all monetary and non-monetary relief allowed by law, including reasonable attorney's fees.

COUNT TWENTY-ONE

Indiana Deceptive Consumer Sales Act

Ind. Code §§ 24-5-0.5-1, *et seq.*

(on behalf of the Indiana Subclass)

762. The Indiana Plaintiff Krystal Rodriguez and Colby J. Stafford identified above ("Plaintiffs," for purposes of this Count), individually and on behalf of the Indiana Subclass, repeats and alleges all Paragraphs above, as if fully alleged herein.

763. Plaintiffs bring this claim on behalf of themselves and the Indiana Subclass.

764. Apple is a "person" as defined by Ind. Code § 24-5-0.5-2(a)(2).

765. Apple is a "supplier" as defined by § 24-5-0.5-2(a)(3)(A), because it regularly engages in or solicits "consumer transactions" within the meaning of § 24-5-0.5-2(a)(1).

766. Apple engaged in unfair, abusive, and deceptive acts, omissions, and practices in connection with consumer transactions, in violation of Ind. Code § 24-5-0.5-3(a).

767. Apple's representations and omissions include both implicit and explicit representations and were carried out as a scheme or artifice to defraud.

768. Apple's acts and practices were "unfair" because they were likely to and did mislead consumers.

769. The injury to consumers from Apple's conduct was and is substantial because it was non-trivial and non-speculative; and involved a monetary injury. Plaintiffs and the Indiana Subclass would not have bought the Class Devices, or would have paid less for it, had they known they did not include the advertised Enhanced Siri.

770. Consumers could not have reasonably avoided injury because Apple's business acts and practices unreasonably created or took advantage of an obstacle to the free exercise of consumer

1 decision-making. By withholding important information from consumers about the existence (or
2 non-existence) of advertised Apple Intelligence features including Enhanced Siri, Apple created an
3 asymmetry of information between it and consumers that precluded consumers from taking action
4 to avoid or mitigate injury.

5 771. Apple's business practices, in concealing material information or misrepresenting the
6 qualities, characteristics, and performance of the Class Devices, had no countervailing benefit to
7 consumers or to competition.

8 772. Apple's acts and practices were "abusive" for numerous reasons, including:

- 9 a. Because they materially interfered with consumers' ability to understand a term
10 or condition in a consumer transaction, interfering with consumers' decision-
11 making.
- 12 b. Because they took unreasonable advantage of consumers' lack of understanding
13 or insight into the existence (or non-existence) of advertised Apple Intelligence
14 features including Enhanced Siri.
- 15 c. Because they took unreasonable advantage of consumers' inability to protect their
16 own interests; consumers could not protect their interests due to the asymmetry
17 in information between them and Apple concerning the Class Devices, Apple
18 Intelligence, and Enhanced Siri.
- 19 d. Because Apple took unreasonable advantage of consumers' reasonable reliance
20 that it was providing truthful and accurate information about the Class Devices,
21 Apple Intelligence, and Enhanced Siri.

22 773. Apple also engaged in "deceptive" acts and practices in violation of Indiana Code
23 § 24-5-0.5-3(a) and § 24-5-0.5-3(b), including:

- 24 e. Misrepresenting that the subject of a consumer transaction has sponsorship,
25 approval, performance, characteristics, accessories, uses, or benefits it does not
26 have which the supplier knows or should reasonably know it does not have; and
- 27 f. Misrepresenting that the subject of a consumer transaction is of a particular
28 standard, quality, grade, style, or model, if it is not and if the supplier knows or

1 should reasonably know that it is not; and

2 774. Apple intended to mislead Plaintiffs and Indiana Subclass members and induce them
3 to rely on its misrepresentations and omissions.

4 775. Apple's representations and omissions were material because they were likely to
5 deceive reasonable consumers.

6 776. Apple misrepresented to Plaintiffs and Indiana Subclass members the capabilities of
7 the Class Devices with regard to Enhanced Siri. Plaintiffs and the Indiana Subclass members acted
8 reasonably in relying on Apple's misrepresentations and omissions, the truth of which they could
9 not have discovered.

10 777. Apple had a duty to disclose the above-described facts due to the circumstances of
11 this case, as well as its:

- 12 a. Possession of exclusive knowledge regarding the true features of the Class
13 Devices and Apple Intelligence, which did not include the advertised Enhanced
14 Siri;
- 15 b. Active concealment of the true features of the Class Devices and Apple
16 Intelligence, which did not include the advertised Enhanced Siri;
- 17 c. Incomplete representations about the true features of the Class Devices and Apple
18 Intelligence, while purposefully withholding material facts from Plaintiff and the
19 Indiana Subclass that contradicted these representations.

20 778. Apple acted intentionally, knowingly, and maliciously to violate Indiana's Deceptive
21 Consumer Sales Act, and recklessly disregarded Plaintiffs and Indiana Subclass members' rights.
22 Apple's knowledge that the advertised Enhanced Siri features did not exist put it on notice that the
23 Class Devices were not as it advertised.

24 779. Apple received notice pursuant to Ind. Code § 24-5-0.5-5 concerning its wrongful
25 conduct as alleged herein by Plaintiffs and Indiana Subclass members. Apple has had constructive
26 notice of Plaintiff's demand for relief for the Indiana Subclass pursuant to Ind. Code § 24-5-0.5-5
27 since the filing of the first case, which contained substantially similar allegations. Accordingly,
28 sending pre-suit notice pursuant to Ind. Code § 24-5-0.5-5 is an exercise in futility for Plaintiffs, as

1 Apple has not cured its unfair, abusive, and deceptive acts and practices, or its violations of Indiana
2 Deceptive Consumer Sales Act were incurable.

3 780. Apple's conduct includes incurable deceptive acts that Apple engaged in as part of a
4 scheme, artifice, or device with intent to defraud or mislead, under Ind. Code § 24-5-0.5-2(a)(8).

5 781. As a direct and proximate result of Apple's uncured or incurable unfair, abusive, and
6 deceptive acts or practices, Plaintiffs and Indiana Subclass members have suffered and will continue
7 to suffer injury, ascertainable losses of money or property, and monetary and non-monetary
8 damages, including from not receiving the benefit of their bargain in purchasing their Class Devices.

9 782. Plaintiffs and Indiana Subclass members seek all monetary and non-monetary relief
10 allowed by law, including the greater of actual damages or \$500 for each non-willful violation; the
11 greater of treble damages or \$1,000 for each willful violation; restitution; reasonable attorneys' fees
12 and costs; and punitive damages.

13 **COUNT TWENTY-TWO**

14 **Iowa Private Right of Action for Consumer Frauds Act** 15 **Iowa Code § 714H.1, *et seq.*** **(on behalf of the Iowa Subclass)**

16 783. The Iowa Plaintiffs Susan Rizzo and Matthew Karadshesh identified above
17 ("Plaintiffs" for purposes of this Count), individually and on behalf of the Iowa Subclass, repeat and
18 allege all Paragraphs above, as if fully alleged herein.

19 784. Plaintiffs bring this claim on behalf of themselves and the Iowa Subclass.

20 785. Apple, Plaintiffs, and the Iowa Subclass are "persons" as defined by Iowa
21 Code § 714H.2(7).

22 786. Plaintiffs and Iowa Subclass members are "consumers" as defined by Iowa
23 Code § 714H.2(3).

24 787. Apple's conduct described herein related to the "sale" or "advertisement" of
25 "merchandise" as defined by Iowa Code §§ 714H.2(2), (6), & (8).

26 788. Apple engaged in unfair, deceptive, and unconscionable trade practices, in violation
27 of the Iowa Private Right of Action for Consumer Frauds Act, as described throughout and herein.
28

1 807. Plaintiffs bring this claim on behalf of themselves and the Maryland Subclass.

2 808. Apple is a person as defined by Md. Comm. Code § 13-101(h).

3 809. Apple's conduct as alleged herein related to "sales," "offers for sale," or "bailment"
4 as defined by Md. Comm. Code § 13-101(i) and § 13-303.

5 810. Maryland Subclass members are "consumers" as defined by Md. Comm. Code § 13-
6 101(c).

7 811. Apple advertises, offers, or sell "consumer goods" or "consumer services" as defined
8 by Md. Comm. Code § 13-101(d).

9 812. Apple advertised, offered, or sold goods or services in Maryland and engaged in trade
10 or commerce directly or indirectly affecting the people of Maryland.

11 813. Apple engaged in unfair and deceptive trade practices, in violation of Md. Comm.
12 Code § 13-301, including:

- 13 a. False or misleading oral or written representations that have the capacity,
14 tendency, or effect of deceiving or misleading consumers;
- 15 b. Representing that consumer goods or services have a characteristic that they do
16 not have;
- 17 c. Representing that consumer goods or services are of a particular standard, quality,
18 or grade that they are not;
- 19 d. Failing to state a material fact where the failure deceives or tends to deceive;
- 20 e. Advertising or offering consumer goods or services without intent to sell, lease,
21 or rent them as advertised or offered;
- 22 f. Deception, fraud, false pretense, false premise, misrepresentation, or knowing
23 concealment, suppression, or omission of any material fact with the intent that a
24 consumer rely on the same in connection with the promotion or sale of consumer
25 goods or services or the subsequent performance with respect to an agreement,
26 sale lease or rental.

815. Apple's representations and omissions were material because they were likely to deceive reasonable consumers.

816. Apple intended to mislead Plaintiffs and Maryland Subclass members and induce them to rely on its misrepresentations and omissions.

817. Apple misrepresented to Plaintiffs and Maryland Subclass members the capabilities of the Class Devices with regard to Enhanced Siri. Plaintiffs and the Maryland Subclass members acted reasonably in relying on Apple's misrepresentations and omissions, the truth of which they could not have discovered.

818. Apple acted intentionally, knowingly, and maliciously to violate Maryland's Consumer Protection Act, and recklessly disregarded Plaintiffs and Maryland Subclass members' rights. Apple's knowledge that the advertised Enhanced Siri features did not exist put it on notice that the Class Devices were not as it advertised.

819. As a direct and proximate result of Apple's unfair and deceptive acts and practices, Plaintiffs and Maryland Subclass members have suffered and will continue to suffer injury, ascertainable losses of money or property, and monetary and non-monetary damages, including from not receiving the benefit of their bargain in purchasing their Class Devices.

820. Plaintiffs and Maryland Subclass members seek all monetary and non-monetary relief allowed by law, including damages, disgorgement, and attorneys' fees and costs.

COUNT TWENTY-FIVE

Massachusetts Regulation of Business and Consumer Protection Act
Mass. Gen. Laws Ch. 93A, §§ 1, *et seq.*
(on behalf of the Massachusetts Subclass)

821. The Massachusetts Plaintiff Lily Biagini identified above (“Plaintiff,” for purposes of this Count), individually and on behalf of the Massachusetts Subclass, repeats and alleges all Paragraphs above, as if fully alleged herein.

822. Plaintiff brings this claim on behalf of herself and the Massachusetts Subclass.

1 823. Apple and Massachusetts Subclass members are “persons” as meant by Mass. Gen.
2 Laws Ch. 93A, § 1(a).

3 824. Apple operates in “trade or commerce” as meant by Mass. Gen. Laws Ch.
4 93A, § 1(b).

5 825. Apple advertised, offered, or sold goods or services in Massachusetts and engaged in
6 trade or commerce directly or indirectly affecting the people of Massachusetts, as defined by Mass.
7 Gen. Laws Ch. 93A, § 1(b).

8 826. Demand for relief in a form substantially similar to that required by Mass. Gen. Laws
9 Ch. 93A § 9(3) was sent to Apple upon the commencement of the original lawsuit in this matter;
10 however, Apple did not remedy its unfair and deceptive acts and practices, nor did it offer relief to
11 the class members by way of settlement or judgment. Apple received supplemental notice pursuant
12 to Mass. Gen. Laws Ch. 93A § 9(3) concerning its wrongful conduct as alleged herein by Plaintiff
13 and Massachusetts Subclass members, but this and any additional demand are and would be futile.

14 827. Apple engaged in unfair methods of competition and unfair and deceptive acts and
15 practices in the conduct of trade or commerce, in violation of Mass. Gen. Laws Ch. 93A, § 2(a).

16 828. Apple’s acts and practices were “unfair” because they were likely to and indeed did
17 mislead consumers.

18 829. Consumers could not have reasonably avoided injury because Apple’s business acts
19 and practices unreasonably created or took advantage of an obstacle to the free exercise of consumer
20 decision-making. By disseminating false, and withholding accurate, information about the
21 capabilities of the Class Devices and Apple Intelligence, Apple created an asymmetry of information
22 between it and consumers that precluded consumers from taking action to avoid or mitigate injury.

23 830. Apple’s practices, omissions, and misrepresentations had no countervailing benefit
24 to consumers or to competition.

25 831. Apple intended to mislead Plaintiff and Massachusetts Subclass members and induce
26 them to rely on its misrepresentations and omissions. Apple’s representations and omissions were
27 material because they were likely to deceive reasonable consumers.

832. Apple acted intentionally, knowingly, and maliciously to violate Massachusetts's Consumer Protection Act, and recklessly disregarded Plaintiff and Massachusetts Subclass members' rights. Apple's knowledge that the advertised Enhanced Siri features did not exist put it on notice that the Class Devices were not as it advertised.

833. As a direct and proximate result of Apple's unfair and deceptive practices, Plaintiff and Massachusetts Subclass members have suffered and will continue to suffer injury, ascertainable losses of money or property, and monetary and non-monetary damages, including from not receiving the benefit of their bargain in purchasing their Class Devices.

834. Plaintiff and Massachusetts Subclass members seek all monetary and non-monetary relief allowed by law, including actual damages, double or treble damages, and attorneys' fees and costs.

COUNT TWENTY-SIX
Michigan Consumer Protection Act
Mich. Comp. Laws §§ 445.901, *et seq.*
(on behalf of the Michigan Subclass)

835. The Michigan Plaintiff, Hunter Morgan identified above ("Plaintiff," for purposes of this Count), individually and on behalf of the Michigan Subclass, repeats and alleges all Paragraphs above, as if fully alleged herein.

836. Plaintiff brings this claim on behalf of himself and the Michigan Subclass.

837. Plaintiff, Apple, and Michigan Subclass members are "persons" as defined by Mich. Comp. Laws § 445.902(d).

838. Apple advertised, offered, or sold goods or services in Michigan and engaged in trade or commerce directly or indirectly affecting the people of Michigan, as defined by Mich. Comp. Laws § 445.902(g).

839. Apple engaged in unfair, unconscionable, and deceptive practices in the conduct of trade and commerce, in violation of Mich. Comp. Laws § 445.903(1), including:

- a. Representing that its goods and services have characteristics, uses, and benefits that they do not have, in violation of Mich. Comp. Laws § 445.903(1)(c);
- b. Representing that its goods and services are of a particular standard or quality if they are of another in violation of Mich. Comp. Laws § 445.903(1)(e);

- 1 c. Making a representation or statement of fact material to the transaction such that
2 a person reasonably believes the represented or suggested state of affairs to be
3 other than it actually is, in violation of Mich. Comp. Laws § 445.903(1)(bb); and
4 d. Failing to reveal facts that are material to the transaction in light of
5 representations of fact made in a positive matter, in violation of Mich. Comp.
6 Laws § 445.903(1)(cc).

7 840. Apple's representations and omissions were material because they were likely to
8 deceive reasonable consumers.

9 841. Apple intended to mislead Plaintiff and Michigan Subclass members and induce them
10 to rely on its misrepresentations and omissions.

11 842. Apple acted intentionally, knowingly, and maliciously to violate Michigan's
12 Consumer Protection Act, and recklessly disregarded Plaintiff and Michigan Subclass members'
13 rights. Apple's knowledge that the advertised Enhanced Siri features did not exist put it on notice
14 that the Class Devices were not as it advertised.

15 843. As a direct and proximate result of Apple's unfair, unconscionable, and deceptive
16 practices, Plaintiff and Michigan Subclass members have suffered and will continue to suffer injury,
17 ascertainable losses of money or property, and monetary and non-monetary damages, including from
18 not receiving the benefit of their bargain in purchasing their Class Devices.

19 844. Plaintiff and Michigan Subclass members seek all monetary and non-monetary relief
20 allowed by law, including the greater of actual damages or \$250, and any other relief that is just and
21 proper.

22 **COUNT TWENTY-SEVEN**
23 **Minnesota False Statement in Advertisement Act**
24 **Minn. Stat. § 325F.67 and Minn. Stat. § 8.31**
(on behalf of the Minnesota Subclass)

25 845. The Minnesota Plaintiffs Lloyd Hagemo, Jared Bukovich, and Michael Abata
26 identified above ("Plaintiffs," for purposes of this Count), individually and on behalf of the
27 Minnesota Subclass, repeat and allege all Paragraphs above, as if fully alleged herein.

28 846. Plaintiffs bring this claim on behalf of themselves and the Minnesota Subclass.

847. Apple's representations and omissions were material because they were likely to deceive reasonable consumers.

848. Apple intended to mislead Plaintiffs and Minnesota Subclass members and induce them to rely on its misrepresentations and omissions.

849. Apple's fraudulent, misleading, and deceptive practices affected the public interest, including millions of Minnesotans who purchased an Class Devices.

850. As a direct and proximate result of Apple’s fraudulent, misleading, and deceptive practices, Plaintiffs and Minnesota Subclass members have suffered and will continue to suffer injury, ascertainable losses of money or property, and monetary and non-monetary damages, including from not receiving the benefit of their bargain in purchasing the Class Devices.

851. Apple made and published, and/or caused to be made and published, advertisements in the State of Minnesota containing material assertions, representations, or statements of fact which are untrue, deceptive, or misleading with intent to sell merchandise in violation of Minn. Stat. § 325F.67, as described herein.

852. Plaintiffs and Minnesota Subclass members seek all monetary and non-monetary relief allowed by law, including damages, or other equitable relief, and attorneys' fees, disbursements, and costs.

COUNT TWENTY-EIGHT

**Minnesota Prevention of Consumer Fraud Act
Minn. Stat. §§ 325F.68, *et seq.*, and Minn. Stat. § 8.31
(on behalf of the Minnesota Subclass)**

853. The Minnesota Plaintiffs identified above (“Plaintiffs,” for purposes of this Count), individually and on behalf of the Minnesota Subclass, repeat and allege all Paragraphs above, as if fully alleged herein.

854. Plaintiffs bring this claim on behalf of themselves and the Minnesota Subclass.

855. Apple, Plaintiffs, and members of the Minnesota Subclass are each a “person” as defined by Minn. Stat. § 325F.68(3).

856. Apple goods, services, commodities, and intangibles are “merchandise” as defined by Minn. Stat. § 325F.68(2).

1 857. Apple engaged in “sales” as defined by Minn. Stat. § 325F.68(4).

2 858. Apple engaged in fraud, false pretense, false promise, misrepresentation, misleading
3 statements, and deceptive practices in connection with the sale of merchandise, in violation of Minn.
4 Stat. § 325F.69, subd. 1, as described herein.

5 859. Apple’s representations and omissions were material because they were likely to
6 deceive reasonable consumers.

7 860. Apple intended to mislead Plaintiffs and Minnesota Subclass members and induce
8 them to rely on its misrepresentations and omissions.

9 861. Apple’s fraudulent, misleading, and deceptive practices affected the public interest,
10 including millions of Minnesotans who purchased and/or used Apple’s Class Devices.

11 862. As a direct and proximate result of Apple’s fraudulent, misleading, and deceptive
12 practices, Plaintiffs and Minnesota Subclass members have suffered and will continue to suffer
13 injury, ascertainable losses of money or property, and monetary and non-monetary damages,
14 including from not receiving the benefit of their bargain in purchasing their Class Devices.

15 863. Plaintiffs and Minnesota Subclass members seek all monetary and non-monetary
16 relief allowed by law, including damages, and attorneys’ fees, disbursements, and costs.

17
18 **COUNT TWENTY-NINE**

19 **Minnesota Unlawful Trade Practices Act**
20 **Minn. Stat. §§ 325D.09, *Et Seq.*, And Minn. Stat. § 8.31**
21 **(on behalf of the Minnesota Subclass)**

22 864. The Minnesota Plaintiffs identified above (“Plaintiffs,” for purposes of this Count),
23 individually and on behalf of the Minnesota Subclass, repeat and allege all Paragraphs above, as if
24 fully alleged herein.

25 865. Plaintiffs bring this claim on behalf of themselves and the Minnesota Subclass.

26 866. Apple, Plaintiffs, and members of the Minnesota Subclass are each a “person” as
27 defined by Minn. Stat. § 325D.10(a).

28 867. Apple engaged in “sales” as defined by Minn. Stat. § 325D.10(c).

868. Apple engaged in the “sale of merchandise at retail” as defined by Minn.
Stat. § 325D.10(d).

870. As a direct and proximate result of Apple’s fraudulent, misleading, and deceptive practices, Plaintiffs and Minnesota Subclass members have suffered and will continue to suffer injury, ascertainable losses of money or property, and monetary and non-monetary damages, including from not receiving the benefit of their bargain in purchasing the Class Devices.

871. Plaintiffs and Minnesota Subclass members seek all monetary and non-monetary relief allowed by law, including damages or other equitable relief.

Minnesota Uniform Deceptive Trade Practices Act
Minn. Stat. §§ 325D.43, *et seq.*, and Minn. Stat. § 8.31
(on behalf of the Minnesota Subclass)

872. The Minnesota Plaintiffs identified above (“Plaintiffs,” for purposes of this Count), individually and on behalf of the Minnesota Subclass, repeat and allege all Paragraphs above, as if fully alleged herein.

873. Plaintiffs bring this claim on behalf of themselves and the Minnesota Subclass.

874. By engaging in deceptive trade practices in the course of its business and vocation, directly or indirectly affecting the people of Minnesota, Apple violated Minn. Stat. § 325D.44, including the following provisions: representing that its goods and services had characteristics, uses, and benefits that they did not have, in violation of Minn. Stat. § 325D.44(1)(5); representing that goods and services are of a particular standard or quality when they are of another, in violation of Minn. Stat. § 325D.44(1)(7); advertising goods and services with intent not to sell them as advertised, in violation of Minn. Stat. § 325D.44(1)(9); engaging in unfair or unconscionable acts or practices, in violation of Minn. Stat. § 325D.44(1)(13); and engaging in other conduct which similarly creates a likelihood of confusion or misunderstanding, in violation of Minn. Stat. § 325D.44(1)(14).

875. Apple's representations and omissions were material because they were likely to deceive reasonable consumers.

876. Apple intended to mislead Plaintiffs and Minnesota Subclass members and induce them to rely on its misrepresentations and omissions.

877. Apple misrepresented to Plaintiffs and Minnesota Subclass members the capabilities of the Class Devices with regard to Enhanced Siri. Plaintiff and the Minnesota Subclass members acted reasonably in relying on Apple's misrepresentations and omissions, the truth of which they could not have discovered.

878. Apple acted intentionally, knowingly, and maliciously to violate Minnesota's Uniform Deceptive Trade Practices Act, and recklessly disregarded Plaintiffs and Minnesota Subclass members' rights. Apple's knowledge that the advertised Enhanced Siri features did not exist put it on notice that the Class Devices were not as it advertised.

879. As a direct and proximate result of Apple's deceptive trade practices, Plaintiffs and Minnesota Subclass members have suffered and will continue to suffer injury, ascertainable losses of money or property, and monetary and non-monetary damages, including from not receiving the benefit of their bargain in purchasing their Class Devices.

880. Plaintiffs and Minnesota Subclass members seek all monetary and non-monetary relief allowed by law, including attorneys' fees and costs.

COUNT THIRTY-ONE
Mississippi Consumer Protection Act
Miss. Code §§ 75-24-1, *et seq.*
(on behalf of the Mississippi Subclass)

881. The Mississippi Plaintiff Olivia Joy Mitton identified above (“Plaintiff,” for purposes of this Count), individually and on behalf of the Mississippi Subclass, repeats and alleges all Paragraphs above, as if fully alleged herein.

882. Plaintiff brings this claim on behalf of herself and the Mississippi Subclass.

883. Apple is a “person,” as defined by Miss. Code § 75-24-3(a).

884. Apple advertised, offered, or sold goods or services in Mississippi and engaged in trade or commerce directly or indirectly affecting the people of Mississippi, as defined by Miss. Code § 75-24-3(b).

1 885. Prior to filing suit, Plaintiff made reasonable attempts to resolve Plaintiff's claims via
2 informal dispute resolution processes; however, such processes were unsuccessful.

3 886. The above-described conduct violated Miss. Code § 75-24-5(2), including:
4 representing that goods or services have sponsorship, approval, characteristics, ingredients, uses,
5 benefits, or quantities that they do not have; representing that goods or services are of a particular
6 standard, quality, or grade, or that goods are of a particular style or model, if they are of another;
7 and advertising goods or services with intent not to sell them as advertised.

8 887. Apple intended to mislead Plaintiff and Mississippi Subclass members and induce
9 them to rely on its misrepresentations and omissions.

10 888. Apple's representations and omissions were material because they were likely to
11 deceive reasonable consumers.

12 889. Apple misrepresented to Plaintiff and Mississippi Subclass members the capabilities
13 of the Class Devices with regard to Enhanced Siri. Plaintiff and the Mississippi Subclass members
14 acted reasonably in relying on Apple's misrepresentations and omissions, the truth of which they
15 could not have discovered.

16 890. Apple had a duty to disclose the above-described facts due to the circumstances of
17 this case. Apple's duty to disclose arose from its: possession of exclusive knowledge regarding the
18 existence (or non-existence) of Apple Intelligence features including Enhanced Siri on the Class
19 Devices; active concealment of the non-existence of Enhanced Siri; and incomplete representations
20 about the Class Devices, Apple Intelligence, and Enhanced Siri.

21 891. Apple acted intentionally, knowingly, and maliciously to violate Mississippi's
22 Consumer Protection Act, and recklessly disregarded Plaintiff and Mississippi Subclass members'
23 rights. Apple's knowledge that the advertised Enhanced Siri features did not exist put it on notice
24 that the Class Devices were not as it advertised.

25 892. As a direct and proximate result of Apple's unfair and deceptive acts or practices and
26 Plaintiff and Mississippi Subclass members' purchase of goods or services primarily for personal,
27 family, or household purposes, Plaintiff and Mississippi Subclass members have suffered and will
28

1 continue to suffer injury, ascertainable losses of money or property, and monetary and non-monetary
2 damages, including from not receiving the benefit of their bargain in purchasing their Class Devices.

3 893. Plaintiff and Mississippi Subclass members seek all monetary and non-monetary
4 relief allowed by law, including actual damages, restitution and other relief under Miss. Code § 75-
5 24-11, punitive damages, and reasonable attorneys' fees and costs.

6 **COUNT THIRTY-TWO**
7 **Missouri Merchandising Practices Act**
8 **Mo. Rev. Stat. §§ 407.05, *et seq.***
9 **(on behalf of the Missouri Subclass)**

10 894. The Missouri Plaintiffs, David Freeman, Ronald Zemke, Michael Wood, and Mark
11 Adams, identified above ("Plaintiffs," for purposes of this Count), individually and on behalf of the
12 Missouri Subclass, repeat and allege all Paragraphs above, as if fully alleged herein.

13 895. Plaintiffs bring this claim on behalf of themselves and the Missouri Subclass.

14 896. Apple is a "person" as defined by Mo. Rev. Stat. § 407.010(5).

15 897. Apple advertised, offered, or sold goods or services in Missouri and engaged in trade
16 or commerce directly or indirectly affecting the people of Missouri, as defined by Mo. Rev. Stat.
17 § 407.010(4), (6) and (7).

18 898. Plaintiffs and Missouri Subclass members purchased or leased goods or services
19 primarily for personal, family, or household purposes.

20 899. Apple engaged in unlawful, unfair, and deceptive acts and practices, in connection
21 with the sale or advertisement of merchandise in trade or commerce, in violation of Mo. Rev. Stat.
22 § 407.020[1], as described herein.

23 900. Apple's representations and omissions were material because they were likely to
24 deceive reasonable consumers.

25 901. Apple intended to mislead Plaintiffs and Missouri Subclass members and induce
26 them to rely on its misrepresentations and omissions.

27 902. Apple acted intentionally, knowingly, and maliciously to violate Missouri's
28 Merchandise Practices Act, and recklessly disregarded Plaintiffs and Missouri Subclass members'

1 rights. Apple's knowledge that the advertised Enhanced Siri features did not exist put it on notice
2 that the Class Devices were not as it advertised.

3 903. As a direct and proximate result of Apple's unlawful, unfair, and deceptive acts and
4 practices, Plaintiffs and Missouri Subclass members have suffered and will continue to suffer injury,
5 ascertainable losses of money or property, and monetary and non-monetary damages, including from
6 not receiving the benefit of their bargain in purchasing their Class Devices.

7 904. Plaintiffs and Missouri Subclass members seek all monetary and non-monetary relief
8 allowed by law, including actual damages, punitive damages, attorneys' fees and costs, and any other
9 appropriate relief.

10 **COUNT THIRTY-THREE**

11 **Montana Unfair Trade Practices And Consumer Protection Act**
12 **Mont. Code §§ 30-14-101, *et seq.***
13 **(on behalf of the Montana Subclass)**

14 905. The Montana Plaintiff, Jennifer Conway identified above ("Plaintiff," for purposes
15 of this Count), individually and on behalf of the Montana Subclass, repeats and alleges all Paragraphs
16 above, as if fully alleged herein.

17 906. Plaintiff brings this claim on behalf of herself and the Montana Subclass.

18 907. Apple is a "person" as defined by Mont. Code § 30-14-102(6).

19 908. Plaintiff and Montana Subclass members are "consumers" as defined by Mont.
20 Code § 30-14-102(1).

21 909. Apple advertised, offered, or sold goods or services in Montana and engaged in trade
22 or commerce directly or indirectly affecting the people of Montana, as defined by Mont. Code § 30-
23 14-102(8).

24 910. Apple engaged in unfair and deceptive acts and practices in the conduct of trade or
25 commerce, in violation Mont. Code § 30-14-103, as described herein.

26 911. Apple's representations and omissions were material because they were likely to
27 deceive reasonable consumers.
28

1 912. Apple misrepresented to Plaintiff and Montana Subclass members the capabilities of
2 the Class Devices with regard to Enhanced Siri. Plaintiff and the Montana Subclass members acted
3 reasonably in relying on Apple's misrepresentations and omissions, the truth of which they could
4 not have discovered.

5 913. Apple's acts described above are unfair and offend public policy; they are immoral,
6 unethical, oppressive, unscrupulous, and substantially injurious to consumers.

7 914. Apple acted intentionally, knowingly, and maliciously to violate Montana's Unfair
8 Trade Practices and Consumer Protection Act, and recklessly disregarded Plaintiff and Montana
9 Subclass members' rights. Apple's knowledge that the advertised Enhanced Siri features did not
10 exist put it on notice that the Class Devices were not as it advertised.

11 915. As a direct and proximate result of Apple's unfair methods of competition and unfair
12 and deceptive acts and practices in the conduct of trade or commerce, Plaintiff and Montana Subclass
13 members have suffered and will continue to suffer injury, ascertainable losses of money or property,
14 and monetary and non-monetary damages, including from not receiving the benefit of their bargain
15 in purchasing their Class Devices.

16 916. Plaintiff and Montana Subclass members seek all monetary and non-monetary relief
17 allowed by law, including the greater of (a) actual damages or (b) statutory damages of \$500, treble
18 damages, restitution, attorneys' fees and costs, and other relief that the Court deems appropriate.

19 **COUNT THIRTY-FOUR**
20 **Nebraska Consumer Protection Act**
21 **Neb. Rev. Stat. §§ 59-1601, *et seq.***
 (on behalf of the Nebraska Subclass)

22 917. The Nebraska Plaintiff, Mary L. Ryan identified above ("Plaintiff," for purposes of
23 this Count), individually and on behalf of the Nebraska Subclass, repeats and alleges all Paragraphs
24 above, as if fully alleged herein.

25 918. Plaintiff brings this claim on behalf of herself and the Nebraska Subclass.

26 919. Apple and Nebraska Subclass members are each a "person" as defined by Neb. Rev.
27 Stat. § 59-1601(1).
28

1 930. Apple engaged in deceptive trade practices in the course of its business, in violation
2 of Neb. Rev. Stat. §§ 87-302(a)(5), (8), and (10), including: represented that goods and services have
3 characteristics, uses, benefits, or qualities that they do not have; represented that goods and services
4 are of a particular standard, quality, or grade if they are of another; and advertised its goods and
5 services with intent not to sell them as advertised and in a manner calculated or tending to mislead
6 or deceive.

7 931. Apple's representations and omissions were material because they were likely to
8 deceive reasonable consumers.

9 932. Apple intended to mislead Plaintiff and Nebraska Subclass members and induce them
10 to rely on its misrepresentations and omissions.

11 933. Apple misrepresented to Plaintiff and Nebraska Subclass members the capabilities of
12 the Class Devices with regard to Enhanced Siri. Plaintiff and the Nebraska Subclass members acted
13 reasonably in relying on Apple's misrepresentations and omissions, the truth of which they could
14 not have discovered.

15 934. Apple acted intentionally, knowingly, and maliciously to violate Nebraska's Uniform
16 Deceptive Trade Practices Act, and recklessly disregarded Plaintiff and Nebraska Subclass
17 members' rights. Apple's knowledge that the advertised Enhanced Siri features did not exist put it
18 on notice that the Class Devices were not as it advertised.

19 935. As a direct and proximate result of Apple's deceptive trade practices, Plaintiff and
20 Nebraska Subclass members have suffered and will continue to suffer injury, ascertainable losses of
21 money or property, and monetary and non-monetary damages, including from not receiving the
22 benefit of their bargain in purchasing their Class Devices.

23 936. Apple's deceptive trade practices complained of herein affected consumers at large,
24 including the large percentage of Nebraskans who purchased Class Devices.

25 937. Plaintiff and Nebraska Subclass members seek all monetary and non-monetary relief
26 allowed by law, including any equitable relief, civil penalties, and attorneys' fees and costs.

COUNT THIRTY-SIX**Nevada Deceptive Trade Practices Act
Nev. Rev. Stat. §§ 598.0903, *et seq.*
(on behalf of the Nevada Subclass)**

938. The Nevada Plaintiffs, Michael Accardi and John Wells, identified above (“Plaintiffs,” for purposes of this Count), individually and on behalf of the Nevada Subclass, repeat and allege all Paragraphs above, as if fully alleged herein.

939. Plaintiffs bring this claim on behalf of themselves and the Nevada Subclass.

940. Apple advertised, offered, or sold goods or services in Nevada and engaged in trade or commerce directly or indirectly affecting the people of Nevada.

941. Apple engaged in deceptive trade practices in the course of its business or occupation, in violation of Nev. Rev. Stat. §§ 598.0915 and 598.0923, including:

- a. Knowingly making a false representation as to the characteristics, uses, and benefits of goods or services for sale in violation of Nev. Rev. Stat. § 598.0915(5);
- b. Representing that goods or services for sale are of a particular standard, quality, or grade when Apple knew or should have known that they are of another standard, quality, or grade in violation of Nev. Rev. Stat. § 598.0915(7);
- c. Advertising goods or services with intent not to sell them as advertised in violation of Nev. Rev. Stat. § 598.0915(9);
- d. Failing to disclose a material fact in connection with the sale of goods or services in violation of Nev. Rev. Stat. § 598.0923(1)(b); and
- e. Violating state and federal statutes or regulations relating to the sale of goods or services in violation of Nev. Rev. Stat. § 598.0923(1)(c).

942. Apple’s representations and omissions were material because they were likely to deceive reasonable consumers.

943. Apple misrepresented to Plaintiffs and Nevada Subclass members the capabilities of the Class Devices with regard to Enhanced Siri. Plaintiffs and the Nevada Subclass members acted reasonably in relying on Apple’s misrepresentations and omissions, the truth of which they could not have discovered.

946. Plaintiffs and Nevada Subclass members seek all monetary and non-monetary relief allowed by law, including damages, punitive damages, and attorneys' fees and costs.

947. The New Hampshire Plaintiff, William Passmore, identified above (“Plaintiff,” for purposes of this Count), individually and on behalf of the New Hampshire Subclass, repeats and alleges all Paragraphs above, as if fully alleged herein.

949. Apple is a “person” as defined by N.H. Rev. Stat. § 358-A:1(I).

951. Apple engaged in unfair and deceptive acts or practices in the ordinary conduct of its trade or business, in violation of N.H. Rev. Stat. § 358-A § 358-A:2(II), including:

- a. Representing that its goods or services have characteristics, uses, or benefits that they do not have in violation of N.H. Rev. Stat. § 358-A:2(V);
- b. Representing that its goods or services are of a particular standard or quality if they are of another in violation of N.H. Rev. Stat. § 358-A:2(VII); and

c. Advertising its goods or services with intent not to sell them as advertised in violation of N.H. Rev. Stat. § 358-A:2(IX).

952. Apple's representations and omissions were material because they were likely to deceive reasonable consumers.

953. Apple acted intentionally, knowingly, and maliciously to violate New Hampshire's Consumer Protection Act, and recklessly disregarded Plaintiff and New Hampshire Subclass members' rights. Apple's knowledge that the advertised Enhanced Siri features did not exist put it on notice that the Class Devices were not as it advertised. Apple's acts and practices went beyond the realm of strictly private transactions.

954. As a direct and proximate result of Apple's unfair and deceptive acts and practices, Plaintiff and New Hampshire Subclass members have suffered and will continue to suffer injury, ascertainable losses of money or property, and monetary and non-monetary damages, including from not receiving the benefit of their bargain in purchasing their Class Devices.

955. Plaintiff and New Hampshire Subclass members seek all monetary and non-monetary relief allowed by law, including actual damages, punitive damages, equitable relief, restitution, civil penalties, and attorneys' fees and costs.

COUNT THIRTY-EIGHT
New Jersey Consumer Fraud Act
N.J. Stat. §§ 56:8-1, *et seq.*
(on behalf of the New Jersey Subclass)

956. The New Jersey Plaintiffs, Esther Woory Choi, Drew Franklin, Marc Case, Grace Kim, Amanda Marrocco, and Sam Leone, identified above ("Plaintiffs," for purposes of this Count), individually and on behalf of the New Jersey Subclass, repeat and allege all Paragraphs above, as if fully alleged herein.

957. Plaintiffs bring this claim on behalf of themselves and the New Jersey Subclass.

958. Apple is a "person," as defined by N.J. Stat. § 56:8-1(d).

959. Apple sells "merchandise," as defined by N.J. Stat. § 56:8-1(c) & (e).

960. The New Jersey Consumer Fraud Act, N.J. Stat. §§ 56:8-1, *et seq.*, prohibits unconscionable commercial practices, deception, fraud, false pretense, false promise,

misrepresentation, as well as the knowing concealment, suppression, or omission of any material fact with the intent that others rely on the concealment, omission, or fact, in connection with the sale or advertisement of any merchandise.

961. Apple's representations and omissions were material because they were likely to deceive reasonable consumers.

962. Apple intended to mislead Plaintiffs and New Jersey Subclass members and induce them to rely on its misrepresentations and omissions.

963. Apple acted intentionally, knowingly, and maliciously to violate New Jersey's Consumer Fraud Act, and recklessly disregarded Plaintiffs and New Jersey Subclass members' rights. Apple's knowledge that the advertised Enhanced Siri features did not exist put it on notice that the Class Devices were not as it advertised.

964. As a direct and proximate result of Apple's unconscionable and deceptive practices, Plaintiffs and New Jersey Subclass members have suffered and will continue to suffer injury, ascertainable losses of money or property, and monetary and non-monetary damages, including from not receiving the benefit of their bargain in purchasing their Class Devices.

965. Plaintiffs and New Jersey Subclass members seek all monetary and non-monetary relief allowed by law, including any equitable relief, actual damages, treble damages, restitution, and attorneys' fees, filing fees, and costs.

COUNT THIRTY-NINE

New Mexico Unfair Practices Act

N.M. Stat. §§ 57-12-1, *et seq.*

(on behalf of the New Mexico Subclass)

966. The New Mexico Plaintiff, Derrick Wallace, identified above ("Plaintiff," for purposes of this Count), individually and on behalf of the New Mexico Subclass, repeats and alleges all Paragraphs above, as if fully alleged herein.

967. Plaintiff brings this claim on behalf of himself and the New Mexico Subclass.

968. Apple is a "person" as meant by N.M. Stat. § 57-12-2(A).

969. Apple was engaged in "trade" and "commerce" as meant by N.M. Stat. § 57-12-2(C) when engaging in the conduct alleged.

1 970. The New Mexico Unfair Practices Act, N.M. Stat. §§ 57-12-2, *et seq.*, prohibits both
2 unfair or deceptive trade practices and unconscionable trade practices in the conduct of any trade or
3 commerce.

4 971. Apple engaged in unconscionable, unfair, and deceptive acts and practices in
5 connection with the sale of goods or services in the regular course of its trade or commerce, including
6 the following:

- 7 a. Knowingly representing that its goods and services have characteristics, benefits,
8 or qualities that they do not have, in violation of N.M. Stat. § 57-12-2(D)(5);
- 9 b. Knowingly representing that its goods and services are of a particular standard or
10 quality when they are of another in violation of N.M. Stat. § 57-12-2(D)(7);
- 11 c. Knowingly using exaggeration, innuendo, or ambiguity as to a material fact or
12 failing to state a material fact where doing so deceives or tends to deceive in
13 violation of N.M. Stat. § 57-12-2(D)(14);
- 14 d. Taking advantage of the lack of knowledge, experience, or capacity of its
15 consumers to a grossly unfair degree to Plaintiff's and the New Mexico Subclass'
16 detriment in violation of N.M. Stat. § 57-2-12(E)(1); and
- 17 e. Performing these acts and practices in a way that results in a gross disparity
18 between the value received by Plaintiff and the New Mexico Subclass and the
19 price paid, to their detriment, in violation of N.M. Stat. § 57-2-12(E)(2).

20 972. Apple's representations and omissions were material because they were likely to
21 deceive reasonable consumers.

22 973. Apple intended to mislead Plaintiff and New Mexico Subclass members and induce
23 them to rely on its misrepresentations and omissions.

24 974. Apple acted intentionally, knowingly, and maliciously to violate New Mexico's
25 Unfair Practices Act, and recklessly disregarded Plaintiff and New Mexico Subclass members'
26 rights. Apple's knowledge that the advertised Enhanced Siri features did not exist put it on notice
27 that the Class Devices were not as it advertised.
28

1 975. As a direct and proximate result of Apple’s unfair, deceptive, and unconscionable
 2 trade practices, Plaintiff and New Mexico Subclass members have suffered and will continue to
 3 suffer injury, ascertainable losses of money or property, and monetary and non-monetary damages,
 4 including from not receiving the benefit of their bargain in purchasing their Class Devices.

5 976. Plaintiff and New Mexico Subclass members seek all monetary and non-monetary
 6 relief allowed by law, including actual damages or statutory damages of \$100 (whichever is greater),
 7 treble damages or statutory damages of \$300 (whichever is greater), and reasonable attorneys’ fees
 8 and costs.

9 **COUNT FORTY**
 10 **New York General Business Law**
 11 **N.Y. Gen. Bus. Law §§ 349 and 350**
 12 **(on behalf of the New York Subclass)**

13 977. The New York Plaintiffs, Christian Varbanovski, Brian Beach, Mario Silva, and
 14 Margot Robinson, identified above (“Plaintiffs,” for purposes of this Count), individually and on
 15 behalf of the New York Subclass, repeat and allege all Paragraphs above, as if fully alleged herein.

16 978. Plaintiffs bring this claim on behalf of themselves and the New York Subclass.

17 979. Apple engaged in deceptive acts or practices in the conduct of its business, trade, and
 18 commerce or furnishing of services, in violation of N.Y. Gen. Bus. Law § 349, as described herein.

19 980. Apple engaged in false advertising in the conduct of its business, trade, and
 20 commerce or furnishing of services, in violation of N.Y. Gen. Bus. Law § 350, as described herein.

21 981. By the acts and conduct alleged herein, Defendant has committed unfair or deceptive
 22 acts and practices by making false representations and omissions regarding the iPhone.

23 982. The foregoing deceptive acts and practices were directed at consumers.

24 983. The foregoing deceptive acts and practices are misleading in a material way because
 25 the Class Devices did not in fact include the abilities, features and attributes that Defendant
 26 advertised.

27 984. Plaintiffs and members of the New York Subclass were injured as a result because
 28 (a) they would not have purchased and used the Class Devices had they known the truth; (b) they
 overpaid for the Class Devices on account of Defendant’s misrepresentations and omissions; and

1 (c) their Class Devices have experienced a significant loss in use and value because of Defendant's
2 misrepresentations and omissions.

3 985. On behalf of himself and other members of the New York Subclass, Plaintiffs seek
4 to enjoin the unlawful acts and practices described herein, to recover his actual damages and/or three
5 times actual damages, and reasonable attorneys' fees and costs of suit.

6 986. Apple's representations and omissions were material because they were likely to
7 deceive reasonable consumers.

8 987. Apple acted intentionally, knowingly, and maliciously to violate New York's General
9 Business Law, and recklessly disregarded Plaintiffs and New York Subclass members' rights.
10 Apple's knowledge that the advertised Enhanced Siri features did not exist put it on notice that the
11 Class Devices were not as it advertised.

12 988. As a direct and proximate result of Apple's deceptive and unlawful acts and practices,
13 Plaintiffs and New York Subclass members have suffered and will continue to suffer injury,
14 ascertainable losses of money or property, and monetary and non-monetary damages, including from
15 not receiving the benefit of their bargain in purchasing their Class Devices.

16 989. Apple's deceptive and unlawful acts and practices complained of herein affected the
17 public interest and consumers at large, including the millions of New Yorkers who purchased Apple
18 Class Devices.

19 990. The above deceptive and unlawful practices and acts by Apple caused substantial
20 injury to Plaintiffs and New York Subclass members that they could not reasonably avoid.

21 991. Plaintiffs and New York Subclass members seek all monetary and non-monetary
22 relief allowed by law, including actual damages or statutory damages of \$50 (whichever is greater),
23 treble damages, and attorney's fees and costs.

COUNT FORTY-ONE**North Carolina Unfair and Deceptive Trade Practices Act****N.C. Gen. Stat. §§ 75-1.1, *et seq.*****(on behalf of the North Carolina Subclass)**

992. The North Carolina Plaintiffs, Mariah L. Nelson, and Frank Gray Stevenson, Jr. identified above (“Plaintiffs,” for purposes of this Count), individually and on behalf of the North Carolina Subclass, repeat and allege all Paragraphs above, as if fully alleged herein.

993. Plaintiffs bring this claim on behalf of themselves and the North Carolina Subclass.

994. Apple advertised, offered, or sold goods or services in North Carolina and engaged in trade or commerce directly or indirectly affecting the people of North Carolina, as defined by N.C. Gen. Stat. § 75-1.1(b).

995. Apple engaged in unfair and deceptive acts and practices in or affecting commerce, in violation of N.C. Gen. Stat. § 75-1.1, as described herein.

996. Apple’s representations and omissions were material because they were likely to deceive reasonable consumers.

997. Apple intended to mislead Plaintiffs and North Carolina Subclass members and induce them to rely on its misrepresentations and omissions.

998. Apple misrepresented to Plaintiffs and North Carolina Subclass members the capabilities of the Class Devices with regard to Enhanced Siri. Plaintiffs and the North Carolina Subclass members acted reasonably in relying on Apple’s misrepresentations and omissions, the truth of which they could not have discovered.

999. Apple acted intentionally, knowingly, and maliciously to violate North Carolina’s Unfair Trade Practices Act, and recklessly disregarded Plaintiffs and North Carolina Subclass members’ rights. Apple’s knowledge that the advertised Enhanced Siri features did not exist put it on notice that the Class Devices were not as it advertised.

1000. As a direct and proximate result of Apple’s unfair and deceptive acts and practices, Plaintiffs and North Carolina Subclass members have suffered and will continue to suffer injury, ascertainable losses of money or property, and monetary and non-monetary damages, including from not receiving the benefit of their bargain in purchasing their Class Devices.

1001. Apple's conduct as alleged herein was continuous, such that after the first violations of the provisions pled herein, each week that the violations continued constitute separate offenses pursuant to N.C. Gen. Stat. § 75-8.

1002. Plaintiffs and North Carolina Subclass members seek all monetary and non-monetary relief allowed by law, including actual damages, treble damages, and attorneys' fees and costs.

COUNT FORTY-TWO
Ohio Consumer Sales Practices Act
Ohio Rev. Code §§ 1345.01, *et seq.*
(on behalf of the Ohio Subclass)

1003. The Ohio Plaintiffs, Daniel Ruiz, and Ryan Bulcher identified above ("Plaintiffs," for purposes of this Count), individually and on behalf of the Ohio Subclass, repeat and allege all Paragraphs above, as if fully alleged herein.

1004. Plaintiffs bring this claim on behalf of themselves and the Ohio Subclass.

1005. Plaintiffs and Ohio Subclass members are "persons," as defined by Ohio Rev. Code § 1345.01(B).

1006. Apple was a "supplier" engaged in "consumer transactions," as defined by Ohio Rev. Code §§ 1345.01(A) & (C).

1007. Apple advertised, offered, or sold goods or services in Ohio and engaged in trade or commerce directly or indirectly affecting the people of Ohio.

1008. Apple engaged in unfair and deceptive acts and practices in connection with a consumer transaction, in violation of Ohio Rev. Code §§ 1345.02, including:

- a. Apple represented that its goods, services, and intangibles had performance characteristics, uses, and benefits that it did not have, in violation of Ohio Rev. Code § 1345.02(B)(1); and
- b. Apple represented that its goods, services, and intangibles were of a particular standard or quality when they were not, in violation of Ohio Rev. Code § 1345(B)(2).

1 1009. Apple engaged in unconscionable acts and practices in connection with a consumer
2 transaction, in violation of Ohio Rev. Code Ann. § 1345.03, including:

- 3 a. Knowingly taking advantage of the inability of Plaintiffs and the Ohio Subclass
4 to reasonably protect their interest because of their ignorance of the issues
5 discussed herein (Ohio Rev. Code Ann. § 1345.03(B)(1)); and
6 b. Requiring Plaintiff and the Ohio Subclass to enter into a consumer transaction on
7 terms that Apple knew were substantially one-sided in favor of Apple (Ohio Rev.
8 Code Ann. § 1345.03(B)(5)).

9 1010. Apple's representations and omissions were material because they were likely to
10 deceive reasonable consumers.

11 1011. Apple intended to mislead Plaintiffs and Ohio Subclass members and induce them to
12 rely on its misrepresentations and omissions.

13 1012. Apple acted intentionally, knowingly, and maliciously to violate Ohio's Consumer
14 Sales Practices Act, and recklessly disregarded Plaintiffs and Ohio Subclass members' rights.
15 Apple's knowledge that the advertised Enhanced Siri features did not exist put it on notice that the
16 Class Devices were not as it advertised.

17 1013. Apple's unfair, deceptive, and unconscionable acts and practices complained of
18 herein affected the public interest, including the millions of Ohioans who purchased Class Devices.

19 1014. As a direct and proximate result of Apple's unfair, deceptive, and unconscionable
20 acts and practices, Plaintiffs and Ohio Subclass members have suffered and will continue to suffer
21 injury, ascertainable losses of money or property, and monetary and non-monetary damages,
22 including from not receiving the benefit of their bargain in purchasing their Class Devices.

23 1015. Plaintiffs and the Ohio Subclass members seek all monetary and non-monetary relief
24 allowed by law, including any declaratory, the greater of actual and treble damages or statutory
25 damages, attorneys' fees and costs, and any other appropriate relief.

COUNT FORTY-THREE
Ohio Deceptive Trade Practices Act
Ohio Rev. Code §§ 4165.01, *et seq.*
(on behalf of the Ohio Subclass)

1016. The Ohio Plaintiffs, Daniel Ruiz, and Ryan Bulcher identified above (“Plaintiffs,” for purposes of this Count), individually and on behalf of the Ohio Subclass, repeat and allege all Paragraphs above, as if fully alleged herein.

1017. Plaintiffs bring this claim on behalf of themselves and the Ohio Subclass.

1018. Apple, Plaintiffs, and Ohio Subclass members are “person[s],” as defined by Ohio Rev. Code § 4165.01(D).

1019. Apple advertised, offered, or sold goods or services in Ohio and engaged in trade or commerce directly or indirectly affecting the people of Ohio.

1020. Apple engaged in deceptive trade practices in the course of its business and vocation, in violation of Ohio Rev. Code § 4165.02, including:

- a. Representing that its goods and services have characteristics, uses, benefits, or qualities that they do not have, in violation of Ohio Rev. Code § 4165.02(A)(7);
- b. Representing that its goods and services are of a particular standard or quality when they are of another, in violation of Ohio Rev. Code § 4165.02(A)(9); and
- c. Advertising its goods and services with intent not to sell them as advertise, in violation of Ohio Rev. Code § 4165.02(A)(11).

1021. Apple’s representations and omissions were material because they were likely to deceive reasonable consumers.

1022. Apple intended to mislead Plaintiffs and Ohio Subclass members and induce them to rely on its misrepresentations and omissions.

1023. Apple acted intentionally, knowingly, and maliciously to violate Ohio’s Deceptive Trade Practices Act, and recklessly disregarded Plaintiffs and Ohio Subclass members’ rights. Apple’s knowledge that the advertised Enhanced Siri features did not exist put it on notice that the Class Devices were not as it advertised.

1024. As a direct and proximate result of Apple's deceptive trade practices, Plaintiffs and Ohio Subclass members have suffered and will continue to suffer injury, ascertainable losses of money or property, and monetary and non-monetary damages, including from not receiving the benefit of their bargain in purchasing their Class Devices.

1025. Plaintiffs and Ohio Subclass members seek all monetary and non-monetary relief allowed by law, including actual damages, attorneys' fees, and any other relief that is just and proper.

COUNT FORTY-FOUR
Oklahoma Consumer Protection Act
Okla. Stat. Tit. 15, §§ 751, *et seq.*
(on behalf of the Oklahoma Subclass)

1026. The Oklahoma Plaintiffs, Lindsey K. Williams and Christian Hackelman identified above ("Plaintiffs," for purposes of this Count), individually and on behalf of the Oklahoma Subclass, repeat and allege all Paragraphs above, as if fully alleged herein.

1027. Plaintiffs bring this claim on behalf of themselves and the Oklahoma Subclass.

1028. Apple is a "person," as meant by Okla. Stat. tit. 15, § 752(1).

1029. Apple's advertisements, offers of sales, sales, and distribution of goods, services, and other things of value constituted "consumer transactions" as meant by Okla. Stat. tit. 15, § 752(2).

1030. Apple, in the course of its business, engaged in unlawful practices in violation of Okla. Stat. tit. 15, § 753, including the following:

- a. Making false representations, knowingly or with reason to know, as to the characteristics, uses, and benefits of the subjects of its consumer transactions, in violation of Okla. Stat. tit. 15, § 753(5);
- b. Representing, knowingly or with reason to know, that the subjects of its consumer transactions were of a particular standard when they were of another, in violation of Okla. Stat. tit 15, § 753(8);
- c. Advertising, knowingly or with reason to know, the subjects of its consumer transactions with intent not to sell as advertised, in violation of Okla. Stat. tit 15, § 753(9);

1 d. Committing unfair trade practices that offend established public policy and are
2 immoral, unethical, oppressive, unscrupulous, and substantially injurious to
3 consumers as defined by section 752(14), in violation of Okla. Stat. tit. 15,
4 § 753(21); and

5 e. Committing deceptive trade practices that deceived or could reasonably be
6 expected to deceive or mislead a person to the detriment of that person as defined
7 by section 752(13), in violation of Okla. Stat. tit. 15, § 753(21).

8 1031. Apple's representations and omissions were material because they were likely to
9 deceive reasonable consumers.

10 1032. Apple intended to mislead Plaintiffs and Oklahoma Subclass members and induce
11 them to rely on its misrepresentations and omissions.

12 1033. Apple misrepresented to Plaintiffs and Oklahoma Subclass members the capabilities
13 of the Class Devices with regard to Enhanced Siri. Plaintiffs and the Oklahoma Subclass members
14 acted reasonably in relying on Apple's misrepresentations and omissions, the truth of which they
15 could not have discovered.

16 1034. The above unlawful practices and acts by Apple were immoral, unethical, oppressive,
17 unscrupulous, and substantially injurious. These acts caused substantial injury to Plaintiff and
18 Oklahoma Subclass members.

19 1035. Apple acted intentionally, knowingly, and maliciously to violate Oklahoma's
20 Consumer Protection Act, and recklessly disregarded Plaintiffs and Oklahoma Subclass members'
21 rights. Apple's knowledge that the advertised Enhanced Siri features did not exist put it on notice
22 that the Class Devices were not as it advertised.

23 1036. As a direct and proximate result of Apple's unlawful practices, Plaintiffs and
24 Oklahoma Subclass members have suffered and will continue to suffer injury, ascertainable losses
25 of money or property, and monetary and non-monetary damages, including from not receiving the
26 benefit of their bargain in purchasing their Class Devices.

27 1037. Plaintiffs and Oklahoma Subclass members seek all monetary and non-monetary
28 relief allowed by law, including actual damages, civil penalties, and attorneys' fees and costs.

COUNT FORTY-FIVE
Oregon Unlawful Trade Practices Act
Or. Rev. Stat. §§ 646.605, *et seq.*
(on behalf of the Oregon Subclass)

1038. The Oregon Plaintiffs, Kaitlin Goodman, and Taylor E. Oldfield-Zepeda identified above, (“Plaintiffs,” for purposes of this Count), individually and on behalf of the Oregon Subclass, repeat and allege all Paragraphs above, as if fully alleged herein.

1039. Plaintiffs bring this claim on behalf of themselves and the Oregon Subclass.

1040. Apple is a “person,” as defined by Or. Rev. Stat. § 646.605(4).

1041. Apple engaged in the sale of “goods and services,” as defined by Or. Rev. Stat. § 646.605(6)(a).

1042. Apple sold “goods or services,” as defined by Or. Rev. Stat. § 646.605(6)(a).

1043. Apple advertised, offered, or sold goods or services in Oregon and engaged in trade or commerce directly or indirectly affecting the people of Oregon.

1044. Apple engaged in unlawful practices in the course of its business and occupation, in violation of Or. Rev. Stat. § 646.608, included the following:

- a. Representing that its goods and services have approval, characteristics, uses, benefits, and qualities that they do not have, in violation of Or. Rev. Stat. § 646.608(1)(e);
- b. Representing that its goods and services are of a particular standard or quality if they are of another, in violation of Or. Rev. Stat. § 646.608(1)(g);
- c. Advertising its goods or services with intent not to provide them as advertised, in violation of Or. Rev. Stat. § 646.608(1)(i); and
- d. Concurrent with tender or delivery of its goods and services, failing to disclose any known material defect, in violation of Or. Rev. Stat. § 646.608(1)(t).

1045. Apple’s representations and omissions were material because they were likely to deceive reasonable consumers.

1046. Apple intended to mislead Plaintiffs and Oregon Subclass members and induce them to rely on its misrepresentations and omissions.

1 1055. Apple engaged in unfair methods of competition and unfair or deceptive acts or
2 practices in the conduct of its trade and commerce in violation of 73 Pa. Cons. Stat. § 201-3,
3 including the following:

- 4 a. Representing that its goods and services have characteristics, uses, benefits, and
5 qualities that they do not have (73 Pa. Stat. § 201-2(4)(v));
6 b. Representing that its goods and services are of a particular standard or quality if
7 they are another (73 Pa. Stat. § 201-2(4)(vii)); and
8 c. Advertising its goods and services with intent not to sell them as advertised (73
9 Pa. Stat. § 201-2(4)(ix)).

10 1056. Apple's representations and omissions were material because they were likely to
11 deceive reasonable consumers.

12 1057. Apple intended to mislead Plaintiffs and Pennsylvania Subclass members and induce
13 them to rely on its misrepresentations and omissions.

14 1058. Apple misrepresented to Plaintiffs and Pennsylvania Subclass members the
15 capabilities of the Class Devices with regard to Enhanced Siri. Plaintiffs and the Pennsylvania
16 Subclass members acted reasonably in relying on Apple's misrepresentations and omissions, the
17 truth of which they could not have discovered.

18 1059. Apple acted intentionally, knowingly, and maliciously to violate Pennsylvania Unfair
19 Trade Practices and Consumer Protection Law, and recklessly disregarded Plaintiffs and
20 Pennsylvania Subclass members' rights. Apple's knowledge that the advertised Enhanced Siri
21 features did not exist put it on notice that the Class Devices were not as it advertised.

22 1060. As a direct and proximate result of Apple's unfair methods of competition and unfair
23 or deceptive acts or practices and Plaintiffs' and the Pennsylvania Subclass' reliance on them,
24 Plaintiffs and Pennsylvania Subclass members have suffered and will continue to suffer injury,
25 ascertainable losses of money or property, and monetary and non-monetary damages, including from
26 not receiving the benefit of their bargain in purchasing their Class Devices.

1061. Plaintiffs and Pennsylvania Subclass members seek all monetary and non-monetary relief allowed by law, including actual damages or statutory damages of \$100 (whichever is greater), treble damages, attorneys' fees and costs, and any additional relief the Court deems necessary or proper.

COUNT FORTY-SEVEN
Rhode Island Deceptive Trade Practices Act
R.I. Gen. Laws §§ 6-13.1, *et seq.*
(on behalf of the Rhode Island Subclass)

1062. The Rhode Island Plaintiff, Luke Grave, identified above ("Plaintiff," for purposes of this Count), individually and on behalf of the Rhode Island Subclass, repeats and alleges all Paragraphs above, as if fully alleged herein.

1063. Plaintiff brings this claim on behalf of him and the Rhode Island Subclass.

1064. Plaintiff and Rhode Island Subclass members are each a "person," as defined by R.I. Gen. Laws § 6-13.1-1(3).

1065. Plaintiff and Rhode Island Subclass members purchased goods and services for personal, family, or household purposes.

1066. Apple advertised, offered, or sold goods or services in Rhode Island and engaged in trade or commerce directly or indirectly affecting the people of Rhode Island, as defined by R.I. Gen. Laws § 6-13.1-1(5).

1067. Apple engaged in unfair and deceptive acts and practices, in violation of R.I. Gen. Laws § 6-13.1-2, including:

- a. Representing that its goods and services have characteristics, uses, and benefits that they do not have (R.I. Gen. Laws § 6-13.1-52(6)(v));
- b. Representing that its goods and services are of a particular standard or quality when they are of another (R.I. Gen. Laws § 6-13.1-52(6)(vii));
- c. Advertising goods or services with intent not to sell them as advertised (R.I. Gen. Laws § 6-13.1-52(6)(ix));
- d. Engaging in any other conduct that similarly creates a likelihood of confusion or misunderstanding (R.I. Gen. Laws § 6-13.1-52(6)(xii));

- e. Engaging in any act or practice that is unfair or deceptive to the consumer (R.I. Gen. Laws § 6-13.1-52(6)(xiii)); and
- f. Using other methods, acts, and practices that mislead or deceive members of the public in a material respect (R.I. Gen. Laws § 6-13.1-52(6)(xiv)).

1068. Apple's representations and omissions were material because they were likely to deceive reasonable consumers.

1069. Apple intended to mislead Plaintiff and Rhode Island Subclass members and induce them to rely on its misrepresentations and omissions.

1070. Apple acted intentionally, knowingly, and maliciously to violate Rhode Island's Deceptive Trade Practices Act, and recklessly disregarded Plaintiff and Rhode Island Subclass members' rights. Apple's knowledge that the advertised Enhanced Siri features did not exist put it on notice that the Class Devices were not as it advertised.

1071. As a direct and proximate result of Apple's unfair and deceptive acts, Plaintiff and Rhode Island Subclass members have suffered and will continue to suffer injury, ascertainable losses of money or property, and monetary and non-monetary damages, including from not receiving the benefit of their bargain in purchasing their Class Devices.

1072. Plaintiff and Rhode Island Subclass members seek all monetary and non-monetary relief allowed by law, including actual damages or statutory damages of \$500 per Subclass Member (whichever is greater), punitive damages, any equitable relief, and attorneys' fees and costs.

COUNT FORTY-EIGHT

South Carolina Unfair Trade Practices Act S.C. Code Ann. §§ 39-5-10, *et seq.* (on behalf of the South Carolina Subclass)

1073. The South Carolina Plaintiffs, Adam Ragsdale and Orlando Roddy identified above ("Plaintiffs," for purposes of this Count), individually and on behalf of the South Carolina Subclass, repeat and allege all Paragraphs above, as if fully alleged herein.

1074. Plaintiffs bring this claim on behalf of themselves and the South Carolina Subclass.

1075. Apple is a "person," as defined by S.C. Code Ann. § 39-5-10(a).

1 1076. South Carolina’s Unfair Trade Practices Act (SC UTPA) prohibits “unfair or
2 deceptive acts or practices in the conduct of any trade or commerce.” S.C. Code Ann. § 39-5-20.

3 1077. Apple advertised, offered, or sold goods or services in South Carolina and engaged
4 in trade or commerce directly or indirectly affecting the people of South Carolina, as defined by S.C.
5 Code Ann. § 39-5-10(b).

6 1078. Apple’s acts and practices had, and continue to have, the tendency or capacity
7 to deceive.

8 1079. Apple’s representations and omissions were material because they were likely to
9 deceive reasonable consumers.

10 1080. Apple intended to mislead Plaintiffs and South Carolina Subclass members and
11 induce them to rely on its misrepresentations and omissions.

12 1081. Apple misrepresented to Plaintiffs and South Carolina Subclass members the
13 capabilities of the Class Devices with regard to Enhanced Siri. Plaintiff and the South Carolina
14 Subclass members acted reasonably in relying on Apple’s misrepresentations and omissions, the
15 truth of which they could not have discovered.

16 1082. Apple had a duty to disclose the above-described facts due to the circumstances of
17 this case. Apple’s duty to disclose also arose from its:

- 18 a. Possession of exclusive knowledge regarding the true features of the Class
19 Devices and Apple Intelligence, which did not include the advertised Enhanced
20 Siri;
21 b. Active concealment or misrepresentations regarding the true features of the Class
22 Devices and Apple Intelligence, which did not include the advertised Enhanced
23 Siri; and
24 c. Incomplete representations about the Class Devices and Enhanced Siri, while
25 purposefully withholding material facts from Plaintiff and the South Carolina
26 Subclass that contradicted these representations.

27 1083. Apple’s business acts and practices offend an established public policy, or are
28 immoral, unethical, or oppressive.

1 1084. Apple's unfair and deceptive acts or practices adversely affected the public interest
2 because such acts or practices have the potential for repetition; Apple engages in such acts or
3 practices as a general rule; and such acts or practices impact the public at large, including millions
4 of South Carolina Subclass members that purchased the Class Devices.

5 1085. Apple unfair and deceptive acts or practices have the potential for repetition because
6 the same kinds of actions occurred in the past, as described herein, thus making it likely that these
7 acts or practices will continue to occur if left undeterred. Additionally, Apple's policies and
8 procedures create the potential for recurrence of the complained-of business acts and practices.

9 1086. Apple intended to mislead Plaintiffs and South Carolina Subclass members and
10 induce them to rely on its misrepresentations and omissions.

11 1087. Apple acted intentionally, knowingly, and maliciously to violate South Carolina's
12 Unfair Trade Practices Act, and recklessly disregarded Plaintiffs and South Carolina Subclass
13 members' rights. Apple's knowledge that the advertised Enhanced Siri features did not exist put it
14 on notice that the Class Devices were not as it advertised. In light of this conduct, punitive damages
15 would serve the interest of society in punishing and warning others not to engage in such conduct
16 and would deter Apple and others from committing similar conduct in the future.

17 1088. As a direct and proximate result of Apple's unfair and deceptive acts or practices,
18 Plaintiffs and South Carolina Subclass members have suffered and will continue to suffer injury,
19 ascertainable losses of money or property, and monetary and non-monetary damages, including from
20 not receiving the benefit of their bargain in purchasing their Class Devices.

21 1089. Plaintiffs and South Carolina Subclass members seek all monetary and non-monetary
22 relief allowed by law, including damages for their economic losses, treble damages, punitive
23 damages, and reasonable attorneys' fees and costs.

COUNT FORTY-NINE**Texas Deceptive Trade Practices—Consumer Protection Act
Texas Bus. & Com. Code §§ 17.41, *et seq.*
(on behalf of the Texas Subclass)**

1090. The Texas Plaintiffs, Matthew Floyd and Michael Dallas Gotschall identified above, (“Plaintiffs” for the purposes of this count) individually and on behalf of the Texas Subclass, repeat and allege all Paragraphs above, as if fully alleged herein.

1091. Plaintiffs bring this claim on behalf of themselves and the Texas Subclass.

1092. Apple is a “person,” as defined by Tex. Bus. & Com. Code § 17.45(3).

1093. Plaintiffs and the Texas Subclass members are “consumers,” as defined by Tex. Bus. & Com. Code § 17.45(4).

1094. Apple advertised, offered, or sold goods or services in Texas and engaged in trade or commerce directly or indirectly affecting the people of Texas, as defined by Tex. Bus. & Com. Code § 17.45(6).

1095. Apple engaged in false, misleading, or deceptive acts and practices, in violation of Tex. Bus. & Com. Code § 17.46(b), including:

- a. Representing that goods or services have sponsorship, approval, characteristics, ingredients, uses, benefits or quantities that they do not have;
- b. Representing that goods or services are of a particular standard, quality or grade, if they are of another; and
- c. Advertising goods or services with intent not to sell them as advertised.

1096. Apple intended to mislead Plaintiffs and Texas Subclass members and induce them to rely on its misrepresentations and omissions.

1097. Apple’s representations and omissions were material because they were likely to deceive reasonable consumers.

1098. Apple misrepresented to Plaintiffs and Texas Subclass members the capabilities of the Class Devices with regard to Enhanced Siri. Plaintiffs and the Texas Subclass members acted reasonably in relying on Apple’s misrepresentations and omissions, the truth of which they could not have discovered.

1 1099. Apple had a duty to disclose the above facts due to the circumstances of this case.
2 Apple's duty to disclose arose from its:

- 3 a. Possession of exclusive knowledge regarding the true features of the Class
4 Devices and Apple Intelligence, which did not include the advertised Enhanced
5 Siri;
6 b. Active concealment or misrepresentations regarding the true features of the Class
7 Devices and Apple Intelligence, which did not include the advertised Enhanced
8 Siri; and
9 c. Incomplete representations about the Class Devices and Enhanced Siri, while
10 purposefully withholding material facts from Plaintiff and the Texas Subclass that
11 contradicted these representations.

12 1100. Apple engaged in unconscionable actions or courses of conduct, in violation of Tex.
13 Bus. & Com. Code Ann. § 17.50(a)(3). Apple engaged in acts or practices which, to consumers'
14 detriment, took advantage of consumers' lack of knowledge, ability, experience, or capacity to a
15 grossly unfair degree.

16 1101. Consumers, including Plaintiffs and Texas Subclass members, lacked knowledge
17 about the above business practices, omissions, and misrepresentations because this information was
18 known exclusively by Apple.

19 1102. Apple intended to take advantage of consumers' lack of knowledge, ability,
20 experience, or capacity to a grossly unfair degree, with reckless disregard of the unfairness that
21 would result. The unfairness resulting from Apple's conduct is glaringly noticeable, flagrant,
22 complete, and unmitigated.

23 1103. Apple acted intentionally, knowingly, and maliciously to violate Texas's Deceptive
24 Trade Practices-Consumer Protection Act, and recklessly disregarded Plaintiff and Texas Subclass
25 members' rights. Apple's knowledge that the advertised Enhanced Siri features did not exist put it
26 on notice that the Class Devices were not as it advertised.

1104. As a direct and proximate result of Apple's unconscionable and deceptive acts or practices, Plaintiffs and Texas Subclass members have suffered and will continue to suffer injury, ascertainable losses of money or property, and monetary and non-monetary damages, including from not receiving the benefit of their bargain in purchasing their Class Devices. Apple's unconscionable and deceptive acts or practices were a producing cause of Plaintiffs' and Texas Subclass members' injuries, ascertainable losses, economic damages, and non-economic damages.

1105. Plaintiffs and the Texas Subclass seek all monetary and non-monetary relief allowed by law, including economic damages, damages for mental anguish, treble damages for each act committed intentionally or knowingly, court costs, reasonable and necessary attorneys' fees, and any other relief which the court deems proper.

COUNT FIFTY
Utah Consumer Sales Practices Act
Utah Code §§ 13-11-1, *et seq.*
(on behalf of the Utah Subclass)

1106. The Utah Plaintiffs Skyler Vincent Mamone Feldt, Devon Simmons, and Mukesh Jethwani, identified above ("Plaintiffs" for the purposes of this count), individually and on behalf of the Utah Subclass, repeat and allege all Paragraphs above, as if fully alleged herein.

1107. Plaintiffs bring this claim on behalf of themselves and the Utah Subclass.

1108. Apple is a "person," as defined by Utah Code § 13-11-3(5).

1109. Apple is a "supplier," as defined by Utah Code § 13-11-3(6), because it regularly solicits, engages in, or enforces "consumer transactions," as defined by Utah Code § 13-11-3(2).

1110. Apple engaged in deceptive and unconscionable acts and practices in connection with consumer transactions, in violation of Utah Code § 13-11-4 and Utah Code § 13-11-5, as described herein.

1111. Apple intended to mislead Plaintiffs and Utah Subclass members and induce them to rely on its misrepresentations and omissions.

1112. Apple's representations and omissions were material because they were likely to deceive reasonable consumers.

1 1113. Apple misrepresented to Plaintiffs and Utah Subclass members the capabilities of the
2 Class Devices with regard to Enhanced Siri. Plaintiffs and the Utah Subclass members acted
3 reasonably in relying on Apple's misrepresentations and omissions, the truth of which they could
4 not have discovered.

5 1114. Apple had a duty to disclose the above facts due to the circumstances of this case.
6 Apple's duty to disclose arose from its:

- 7 a. Possession of exclusive knowledge regarding the true features of the Class
8 Devices and Apple Intelligence, which did not include the advertised Enhanced
9 Siri;
10 b. Active concealment or misrepresentations regarding the true features of the Class
11 Devices and Apple Intelligence, which did not include the advertised Enhanced
12 Siri; and
13 c. Incomplete representations about the Class Devices and Enhanced Siri, while
14 purposefully withholding material facts from Plaintiff and the Utah Subclass that
15 contradicted these representations.

16 1115. Apple intentionally or knowingly engaged in deceptive acts or practices, violating
17 Utah Code § 13-11-4(2) by:

- 18 a. Indicating that the subject of a consumer transaction has sponsorship, approval,
19 performance characteristics, accessories, uses, or benefits, if it has not;
20 b. Indicating that the subject of a consumer transaction is of a particular standard,
21 quality, grade, style, or model, if it is not;
22 c. Indicating that the subject of a consumer transaction has been supplied in
23 accordance with a previous representation, if it has not;
24 d. Indicating that the subject of a consumer transaction will be supplied in greater
25 quantity (*e.g.*, more data security) than the supplier intends.

26 1116. Apple engaged in unconscionable acts and practices that were oppressive and led to
27 unfair surprise, as shown in the setting, purpose, and effect of those acts and practices.
28

1 1123. The Virginia Consumer Protection Act prohibits “[u]sing any . . . deception, fraud,
2 false pretense, false promise, or misrepresentation in connection with a consumer transaction.” Va.
3 Code Ann. § 59.1-200(14).

4 1124. Apple is a “person” as defined by Va. Code Ann. § 59.1-198.

5 1125. Apple is a “supplier,” as defined by Va. Code Ann. § 59.1-198.

6 1126. Apple engaged in the complained-of conduct in connection with “consumer
7 transactions” with regard to “goods” and “services,” as defined by Va. Code Ann. § 59.1-198. Apple
8 advertised, offered, or sold goods or services used primarily for personal, family or household
9 purposes.

10 1127. Apple engaged in deceptive acts and practices by using deception, fraud, false
11 pretense, false promise, and misrepresentation in connection with consumer transactions,
12 described herein.

13 1128. Apple intended to mislead Plaintiff and Virginia Subclass members and induce them
14 to rely on its misrepresentations and omissions.

15 1129. Apple’s representations and omissions were material because they were likely to
16 deceive reasonable consumers.

17 1130. Apple misrepresented to Plaintiff and Virginia Subclass members the capabilities of
18 the Class Devices with regard to Enhanced Siri. Plaintiff and the Virginia Subclass members acted
19 reasonably in relying on Apple’s misrepresentations and omissions, the truth of which they could
20 not have discovered.

21 1131. Apple had a duty to disclose these facts due to the circumstances of this case. Apple’s
22 duty to disclose also arose from its:

- 23 a. Possession of exclusive knowledge regarding the true features of the Class
24 Devices and Apple Intelligence, which did not include the advertised Enhanced
25 Siri;
26 b. Active concealment or misrepresentations regarding the true features of the Class
27 Devices and Apple Intelligence, which did not include the advertised Enhanced
28 Siri; and

- 1 c. Incomplete representations about the Class Devices and Enhanced Siri, while
2 purposefully withholding material facts from Plaintiff and the Virginia Subclass
3 that contradicted these representations.

4 1132. The above-described deceptive acts and practices also violated the following
5 provisions of VA Code § 59.1-200(A):

- 6 a. Misrepresenting that goods or services have certain quantities, characteristics,
7 ingredients, uses, or benefits;
8 b. Misrepresenting that goods or services are of a particular standard, quality, grade,
9 style, or model; and
10 c. Advertising goods or services with intent not to sell them as advertised, or with
11 intent not to sell them upon the terms advertised.

12 1133. Apple acted intentionally, knowingly, and maliciously to violate Virginia's
13 Consumer Protection Act, and recklessly disregarded Plaintiff and Virginia Subclass members'
14 rights. Apple's knowledge that the advertised Enhanced Siri features did not exist put it on notice
15 that the Class Devices were not as it advertised. An award of punitive damages would serve to punish
16 Apple for its wrongdoing and warn or deter others from engaging in similar conduct.

17 1134. As a direct and proximate result of Apple's deceptive acts or practices, Plaintiffs and
18 Virginia Subclass members have suffered and will continue to suffer injury, ascertainable losses of
19 money or property, and monetary and non-monetary damages, including from not receiving the
20 benefit of their bargain in purchasing their Class Devices.

21 1135. Plaintiff and Virginia Subclass members seek all monetary and non-monetary relief
22 allowed by law, including actual damages; statutory damages in the amount of \$1,000 per violation
23 if the conduct is found to be willful or, in the alternative, \$500 per violation, restitution, punitive
24 damages, and attorneys' fees and costs.

COUNT FIFTY-TWO**Washington Consumer Protection Act
Wash. Rev. Code Ann. §§ 19.86.010, *et seq.*
(on behalf of the Washington Subclass)**

1136. The Washington Plaintiff, Jacob Kicha identified above, (“Plaintiff” for the purposes of this count), individually and on behalf of the Washington Subclass, repeats and alleges all Paragraphs above, as if fully alleged herein.

1137. Plaintiff brings this claim on behalf of himself and the Washington Subclass.

1138. Apple is a “person,” as defined by Wash. Rev. Code Ann. § 19.86.010(1).

1139. Apple advertised, offered, or sold goods or services in Washington and engaged in trade or commerce directly or indirectly affecting the people of Washington, as defined by Wash. Rev. Code Ann. § 19.86.010(2).

1140. Apple engaged in unfair or deceptive acts or practices in the conduct of trade or commerce, in violation of Wash. Rev. Code Ann. § 19.86.020, as described herein.

1141. Apple’s representations and omissions were material because they were likely to deceive reasonable consumers.

1142. Apple acted intentionally, knowingly, and maliciously to violate Washington’s Consumer Protection Act, and recklessly disregarded Plaintiff and Washington Subclass members’ rights. Apple’s knowledge that the advertised Enhanced Siri features did not exist put it on notice that the Class Devices were not as it advertised.

1143. Apple’s conduct is injurious to the public interest because it violates Wash. Rev. Code Ann. § 19.86.020, violates a statute that contains a specific legislation declaration of public interest impact, and/or injured persons and had and has the capacity to injure persons. Further, its conduct affected the public interest, including the at least hundreds of thousands of Washingtonians affected by Apple’s deceptive business practices.

1144. As a direct and proximate result of Apple’s unfair methods of competition and unfair or deceptive acts or practices, Plaintiff and Washington Subclass members have suffered and will continue to suffer injury, ascertainable losses of money or property, and monetary and non-monetary damages, including from not receiving the benefit of their bargain in purchasing their Class Devices.

1 1145. Plaintiff and Washington Subclass members seek all monetary and non-monetary
2 relief allowed by law, including actual damages, treble damages, civil penalties, and attorneys' fees
3 and costs.

4 **COUNT FIFTY-THREE**

5 **West Virginia Consumer Credit And Protection Act**
6 **W. Va. Code §§ 46A-6-101, *et seq.***
7 **(on behalf of the West Virginia Subclass)**

8 1146. The West Virginia Plaintiff, Kyra Burke identified above ("Plaintiff" for the purposes
9 of this count), individually and on behalf of the West Virginia Subclass, repeats and alleges all
10 Paragraphs above, as if fully alleged herein

11 1147. Plaintiff brings this claim on behalf of herself and the West Virginia Subclass.

12 1148. Plaintiff and West Virginia Subclass members are "consumers," as defined by W.
13 Va. Code § 46A-6-102(2).

14 1149. Apple engaged in "consumer transactions," as defined by W. Va.
15 Code § 46A-6-102(2).

16 1150. Apple advertised, offered, or sold goods or services in West Virginia and engaged in
17 trade or commerce directly or indirectly affecting the people of West Virginia, as defined by W. Va.
18 Code § 46A-6-102(6).

19 1151. Apple received notice pursuant to W. Va. Code § 46A-5-108(a) concerning its
20 wrongful conduct as alleged herein by Plaintiff and West Virginia Subclass members. However,
21 sending pre-suit notice pursuant to W. Va. Code § 46A-5-108(a) is an exercise in futility for Plaintiff,
22 because, despite being on knowledge of the deceptive acts and practices complained of herein in this
23 lawsuit as of the date of the first-filed lawsuit on March 19, 2025, Apple has not cured its unfair and
24 deceptive acts and practices.

25 1152. Apple engaged in unfair and deceptive business acts and practices in the conduct of
26 trade or commerce, in violation of W. Va. Code § 46A-6-104, as described herein.

1 1153. Apple’s unfair and deceptive acts and practices also violated W. Va. Code § 46A-6-
2 102(7), including:

- 3 a. Representing that goods or services have sponsorship, approval, characteristics,
4 ingredients, uses, benefits or quantities that they do not have;
5 b. Representing that goods or services are of a particular standard, quality or grade,
6 or that goods are of a particular style or model if they are of another;
7 c. Advertising goods or services with intent not to sell them as advertised;
8 d. Engaging in any other conduct which similarly creates a likelihood of confusion
9 or of misunderstanding;
10 e. Using deception, fraud, false pretense, false promise or misrepresentation, or the
11 concealment, suppression or omission of any material fact with intent that others
12 rely upon such concealment, suppression or omission, in connection with the sale
13 or advertisement of goods or services, whether or not any person has in fact been
14 misled, deceived or damaged thereby; and
15 f. Advertising, displaying, publishing, distributing, or causing to be advertised,
16 displayed, published, or distributed in any manner, statements and representations
17 with regard to the sale of goods, which are false, misleading or deceptive or which
18 omit to state material information which is necessary to make the statements
19 therein not false, misleading or deceptive.

20 1154. Apple’s unfair and deceptive acts and practices were unreasonable when weighed
21 against the need to develop or preserve business, and were injurious to the public interest, under W.
22 Va. Code § 46A-6-101.

23 1155. Apple’s acts and practices were additionally “unfair” under W. Va. Code § 46A-6-
24 104 because they caused or were likely to cause substantial injury to consumers which was not
25 reasonably avoidable by consumers themselves and not outweighed by countervailing benefits to
26 consumers or to competition.

1 1156. The injury to consumers from Apple's conduct was and is substantial because it was
2 non-trivial and non-speculative; and involved a monetary injury. The injury to consumers was
3 substantial not only because it inflicted harm on a significant and unprecedented number of
4 consumers, but also because it inflicted a significant amount of harm on each consumer.

5 1157. Consumers could not have reasonably avoided injury because Apple's business acts
6 and practices unreasonably created or took advantage of an obstacle to the free exercise of consumer
7 decision-making. By withholding important information from consumers, Apple created an
8 asymmetry of information between it and consumers that precluded consumers from taking action
9 to avoid or mitigate injury.

10 1158. Apple's business practices had no countervailing benefit to consumers or to
11 competition.

12 1159. Apple's acts and practices were additionally "deceptive" under W. Va. Code § 46A-
13 6-104 because Apple made representations or omissions of material facts that misled or were likely
14 to mislead reasonable consumers, including Plaintiff and West Virginia Subclass members.

15 1160. Apple intended to mislead Plaintiff and West Virginia Subclass members and induce
16 them to rely on its misrepresentations and omissions.

17 1161. Apple representations and omissions were material because they were likely to
18 deceive reasonable consumers.

19 1162. Apple misrepresented to Plaintiff and West Virginia Subclass members the
20 capabilities of the Class Devices with regard to Enhanced Siri. Plaintiff and the West Virginia
21 Subclass members acted reasonably in relying on Apple's misrepresentations and omissions, the
22 truth of which they could not have discovered.

23 1163. Apple had a duty to disclose the above-described facts due to the circumstances of
24 this case. Apple's duty to disclose arose from its:

- 25 a. Possession of exclusive knowledge regarding the true features of the Class
26 Devices and Apple Intelligence, which did not include the advertised Enhanced
27 Siri;

- 1 b. Active concealment or misrepresentations regarding the true features of the Class
2 Devices and Apple Intelligence, which did not include the advertised Enhanced
3 Siri; and
4 c. Incomplete representations about the Class Devices and Enhanced Siri, while
5 purposefully withholding material facts from Plaintiff and the Virginia Subclass
6 that contradicted these representations.

7 1164. Apple's omissions were legally presumed to be equivalent to active
8 misrepresentations because Apple intentionally prevented Plaintiff and West Virginia Subclass
9 members from discovering the truth regarding the non-existence of Enhanced Siri.

10 1165. Apple acted intentionally, knowingly, and maliciously to violate West Virginia's
11 Consumer Credit and Protection Act, and recklessly disregarded Plaintiff and West Virginia
12 Subclass members' rights. Apple's unfair and deceptive acts and practices were likely to cause
13 serious harm, and Apple knew that its deceptive acts would cause harm based upon its business
14 practices and exclusive knowledge of the omissions and misrepresentations herein.

15 1166. As a direct and proximate result of Apple's unfair and deceptive acts or practices and
16 Plaintiff and West Virginia Subclass members' purchase of goods or services, Plaintiff and West
17 Virginia Subclass members have suffered and will continue to suffer injury, ascertainable losses of
18 money or property, and monetary and non-monetary damages, including from not receiving the
19 benefit of their bargain in purchasing their Class Devices.

20 1167. Plaintiff and West Virginia Subclass members seek all monetary and non-monetary
21 relief allowed by law, including the greater of actual damages or \$200 per violation under W. Va.
22 Code § 46A-6-106(a), restitution, any equitable relief, punitive damages, and reasonable attorneys'
23 fees and costs.

COUNT FIFTY-FOUR
Wisconsin Deceptive Trade Practices Act
Wis. Stat. §§ 100.18, *et seq.*
(on behalf of the Wisconsin Subclass)

1168. The Wisconsin Plaintiff, Clint Gammons identified above, (“Plaintiff” for this count), individually and on behalf of the Wisconsin Subclass, repeats and alleges all Paragraphs above, as if fully alleged herein.

1169. Plaintiff brings this claim on behalf of him and the Wisconsin Subclass.

1170. Apple is a “person, firm, corporation or association,” as defined by Wis. Stat. § 100.18(1).

1171. Plaintiff and Wisconsin Subclass members are members of “the public,” as defined by Wis. Stat. § 100.18(1).

1172. With intent to sell, distribute, or increase consumption of merchandise, services, or anything else offered by Apple to members of the public for sale, use, or distribution, Apple made, published, circulated, placed before the public or caused (directly or indirectly) to be made, published, circulated, or placed before the public in Wisconsin advertisements, announcements, statements, and representations to the public which contained assertions, representations, or statements of fact which are untrue, deceptive, and/or misleading, in violation of Wis. Stat. § 100.18(1).

1173. Apple also engaged in the above-described conduct as part of a plan or scheme, the purpose or effect of which was to sell, purchase, or use merchandise or services not as advertised, in violation of Wis. Stat. § 100.18(9).

1174. Apple intended to mislead Plaintiff and Wisconsin Subclass members and induce them to rely on its misrepresentations and omissions.

1175. Apple’s representations and omissions were material because they were likely to deceive reasonable consumers.

1 1176. Apple had a duty to disclose the above-described facts due to the circumstances of
2 this case. Apple's duty to disclose arose from its:

- 3 a. Possession of exclusive knowledge regarding the true features of the Class
4 Devices and Apple Intelligence, which did not include the advertised Enhanced
5 Siri;
6 b. Active concealment or misrepresentations regarding the true features of the Class
7 Devices and Apple Intelligence, which did not include the advertised Enhanced
8 Siri; and
9 c. Incomplete representations about the Class Devices and Enhanced Siri, while
10 purposefully withholding material facts from Plaintiff and the Virginia Subclass
11 that contradicted these representations.

12 1177. Apple's failure to disclose the above-described facts is the same as actively
13 representing that those facts do not exist.

14 1178. Apple acted intentionally, knowingly, and maliciously to violate the Wisconsin
15 Deceptive Trade Practices Act, and recklessly disregarded Plaintiff and Wisconsin Subclass
16 members' rights. Apple's knowledge that the advertised Enhanced Siri features did not exist put it
17 on notice that the Class Devices were not as it advertised.

18 1179. As a direct and proximate result of Apple's deceptive acts or practices, Plaintiff and
19 Wisconsin Subclass members have suffered and will continue to suffer injury, ascertainable losses
20 of money or property, and monetary and non-monetary damages, including from not receiving the
21 benefit of their bargain in purchasing their Class Devices.

22 1180. Apple had an ongoing duty to all Apple customers to refrain from deceptive acts,
23 practices, plans, and schemes under Wis. Stat. § 100.18.

24 1181. Plaintiff and Wisconsin Subclass members seek all monetary and non-monetary relief
25 allowed by law, including damages, reasonable attorneys' fees, and costs under Wis. Stat. §
26 100.18(11)(b)(2), and punitive damages.

IX. PRAYER FOR RELIEF

WHEREFORE, Plaintiffs demand judgment on behalf of themselves and members of the Class as follows:

- A. For an order certifying the Nationwide Class and the afore-mentioned Subclasses under Rule 23 of the Federal Rules of Civil Procedure and naming Plaintiffs as representatives of the Class, and Plaintiffs' attorneys as Class Counsel;
- B. For an order declaring that Apple's conduct violates the statutes referenced herein;
- C. For an order finding in favor of Plaintiffs, the Nationwide Class and the Subclasses on all counts asserted herein;
- D. For actual, compensatory, statutory, and punitive damages in amounts to be determined by the Court and/or jury;
- E. For prejudgment interest on all amounts awarded;
- F. For an order of restitution and all other forms of equitable monetary relief;
- G. For an order awarding Plaintiffs, the Nationwide Class and the Subclasses their reasonable attorneys' fees and expense and costs of suit.

X. JURY TRIAL DEMAND

1182. Plaintiffs demand a trial by jury on all issues so triable.
